Anderson,2014-06-11 An excellent introduction to the formidable life and career of Peter the Great and his impact on Russia M S Anderson assesses his aims and achievements at home and abroad and examines the pressures and restrictions that shaped his attitudes and limited his actions Great Russian Fair Anne L Fitzpatrick,2016-02-24 The Course of Russian History, 5th Edition Melvin C. Wren,Taylor Stults,2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia s turbulent history **The Modernisation of Russia, 1676-1825** Simon Dixon,1999-07-29 This is the first book to place Russia s long eighteenth century squarely in its European context The conceptual framework is set out in an opening critique of modernisation which while rejecting its linear implications maintains its focus on the relationship between government economy and society Following a chronological introduction a series of thematic chapters covering topics such as finance and taxation society government and politics culture ideology and economy emphasise the ways in which Russia s international ambitions as an emerging great power provoked administrative and fiscal reforms with wide ranging and often unanticipated social consequences This thematic analysis allows Simon Dixon to demonstrate that the more the tsars tried to modernise their state the more backward their empire became A chronology and critical bibliography are also provided to allow students to discover more about this colourful period of Russian history
