Raymond Cooke,1987-09-03 Khlebnikov is becoming recognized as one of the major Russian poets of the twentieth century having for years been dismissed as a purveyor of unintelligible verbal trickery This book provides a broad survey of his work Dr Cooke s aim is to be both informative and interpretative by mapping out the contours of Khlebnikov s still largely uncharted poetic world *Nineteenth-century Painters and Painting* Geraldine Norman,1977-01-01 **Diller Scofidio +**

Renfro Edward Dimendberg,2013-03-20 In Diller Scofidio Renfro Architecture after Images Edward Dimendberg offers the first comprehensive treatment of one of the most imaginative contemporary design studios Since founding their practice in 1979 Elizabeth Diller and Ricardo Scofidio have integrated architecture urban design media art and the performing arts in a dazzling array of projects which include performances art installations and books in addition to buildings and public spaces At the center of this work is a fascination with vision and a commitment to questioning the certainty and security long associated with architecture Dimendberg provides an extensive overview of these concerns and the history of the studio revealing how principals Elizabeth Diller Ricardo Scofidio and Charles Renfro continue to expand the definition of architecture question the nature of space and vision in contemporary culture and produce work that is endlessly surprising and rewarding from New York s High Line to Blur an artificial cloud and Facsimile a video screen that moves around a building facade Dimendberg also explores the relation of work by DS R to that by earlier modernists such as Marcel Duchamp and John Hejduk He reveals how the fascination of the architects with evolving forms of media technology and building materials has produced works that unsettle distinctions among architecture and other media Based on interviews with the architects their clients and collaborators as well as unprecedented access to unpublished documents sketchbook entries and archival records Diller Scofidio Renfro is the most thorough consideration of DS R in any language Illustrated with many previously unpublished renderings in addition to photos from significant contemporary photographers this book is an essential study of one of the most significant and creative architecture and design studios working today The Fate of the New Man Claire McCallum,2018-07-03 Between 1945 and 1965 the catastrophe of war and the social and political changes it brought in its wake had a major impact on the construction of the Soviet masculine ideal Drawing upon a wide range of visual material The Fate of the New Man traces the dramatic changes in the representation of the Soviet man in the

postwar period It focuses on the two identities that came to dominate such depictions in the two decades after the end of the war the Soviet man's previous role as a soldier and his new role in the home once the war was over In this compelling study Claire McCallum focuses on the reconceptualization of military heroism after the war the representation of contentious subjects such as the war damaged body and bereavement and postwar changes to the depiction of the Soviet man as father McCallum shows that it was the Second World War rather than the process of de Stalinization that had the greatest impact on the masculine ideal proving that even under the constraints of Socialist Realism the physical and emotional devastation caused by the war was too great to go unacknowledged *The Fate of the New Man* makes an important contribution to Soviet masculinity studies McCallum's research also contributes to broader debates surrounding the impact of Stalin's death on Soviet society and on the nature of the subsequent Thaw as well as to those concerning the relationship between Soviet culture and the realities of Soviet life This fascinating study will appeal to scholars and students of Soviet history masculinity studies and visual culture studies

The Futurist Files Iva Glisic, 2018-10-26 Futurism was Russia's first avant garde movement Gatecrashing the Russian public sphere in the early twentieth century the movement called for the destruction of everything old so that the past could not hinder the creation of a new modern society Over the next two decades the protagonists of Russian Futurism pursued their goal of modernizing human experience through radical art The success of this mission has long been the subject of scholarly debate Critics have often characterized Russian Futurism as an expression of utopian daydreaming by young artists who were unrealistic in their visions of Soviet society and naïve in their comprehension of the Bolshevik political agenda By tracing the political and ideological evolution of Russian Futurism between 1905 and 1930 Iva Glisic challenges this view demonstrating that Futurism took a calculated and systematic approach to its contemporary socio political reality This approach ultimately allowed Russia's Futurists to devise a unique artistic practice that would later become an integral element of the distinctly Soviet cultural paradigm Drawing upon a unique combination of archival materials and employing a theoretical framework inspired by the works of philosophers such as Lewis Mumford Karl Mannheim Ernst Bloch Fred Polak and Slavoj Žižek *The Futurist Files* presents Futurists not as blinded idealists but rather as active and judicious participants in the larger project of building a modern Soviet consciousness This fascinating study ultimately stands as a reminder that while radical ideas are often dismissed as utopian and impossible they did and can have a critical role in driving social change It will be of interest to art historians cultural historians and scholars and students of Russian history

Russian Genre Painting in the Nineteenth Century Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West

The Icon and the Square Maria Taroutina, 2018-11-26 In The Icon and the Square Maria Taroutina examines how the traditional interests of institutions such as the crown the church and the Imperial Academy of Arts temporarily aligned with the radical leftist and revolutionary avant garde at the turn of the twentieth century through a shared interest in the Byzantine past offering a counternarrative to prevailing notions of Russian modernism Focusing on the works of four different artists Mikhail Vrubel Vasily Kandinsky Kazimir Malevich and Vladimir Tatlin Taroutina shows how engagement with medieval pictorial traditions drove each artist to transform his own practice pushing beyond the established boundaries of his respective artistic and intellectual milieu She also contextualizes and complements her study of the work of these artists with an examination of the activities of a number of important cultural associations and institutions over the course of several decades As a result The Icon and the Square gives a more complete picture of Russian modernism one that attends to the dialogue between generations of artists curators collectors critics and theorists The Icon and the Square retrieves a neglected but vital history that was deliberately suppressed by the atheist Soviet regime and subsequently ignored in favor of the secular formalism of mainstream modernist criticism Taroutina's timely study which coincides with the centennial reassessments of Russian and Soviet modernism is sure to invigorate conversation among scholars of art history modernism and Russian culture

Symbols of Power Claes Arvidsson, Lars Erik Blomqvist, 1987 *Russia* Richard Anderson, 2015-11-15 This book offers a comprehensive account of Russia's architectural production from the late nineteenth century to the present explaining how its architecture was both shaped by and came to embody Russia's rapid cultural economic and social revolutions over the past century Richard Anderson looks at Russia's complex relationship to global architectural culture exploring the country's central presence in the Rationalism and Constructivism movements of the 1920s as well as its role as a key protagonist during the Cold War Looking deeply at Soviet Russia he brings the relationship between architecture and socialism into focus through detailed case studies that situate buildings and architectural concepts within the socialist milieu of Soviet society He tracks the way Russian architectural

institutions departed from the course of modernism being developed in capitalist countries and he reappraises the architecture of the Stalin era and the final decades of the USSR Finally he traces the influence of Soviet conventions on contemporary Russian architecture which is now a more heterogeneous mix of approaches and styles and how it made a lasting and little known impact on territories extending from the Middle East to Central Asia and into China A bold new assessment of Russia s architectural legacy and contemporary contributions this book is a fascinating exploration of a tumultuous place and the creativity that has come from it
