Russian Literature and American Critics Kenneth N. Brostrom,1984 *Russian Literature and American Critics* Kenneth N. Brostrom,1984 *The Routledge Companion to Russian Literature* Neil Cornwell,2002-06-01 The Routledge Companion to Russian Literature is an engaging and accessible guide to Russian writing of the past thousand years The volume covers the entire span of Russian literature from the Middle Ages to the post Soviet period and explores all the forms that have made it so famous poetry drama and of course the Russian novel A particular emphasis is given to the nineteenth and twentieth centuries when Russian literature achieved world wide recognition through the works of writers such as Pushkin Dostoevsky Tolstoy Chekhov Nabokov and Solzhenitsyn Covering a range of subjects including women s writing Russian literary theory socialist realism and migr writing leading international scholars open up the wonderful diversity of Russian literature With recommended lists of further reading and an excellent up to date general bibliography The Routledge Companion to Russian Literature is the perfect guide for students and general readers alike *Reference Guide to Russian Literature* Neil Cornwell,2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public Literary Journals in Imperial Russia Deborah A. Martinsen,1997 Given the restrictions on political action and even political discussion in Russia Russian literary journals have served as the principal means by which Russia discovered defined and shaped itself Every issue of importance for literate Russians social economic literary made its appearance in one way or another on the pages of these journals and virtually every major Russian novel of the nineteenth century was first published there in serial form Literary Journals in Imperial Russia a collection of essays by leading scholars originally published in 1998 was the first work to examine the extraordinary history of these journals in imperial Russia The major social forces and issues that shaped literary journals during the period are analysed detailed accounts are provided of individual journals and journalists and descriptions are offered of the factors that contributed to their success A Karenina Companion C.J.G. Turner,2010-10-30 Although Anna Karenina has been described as the European novel by Frank Leavis the geographical setting of the novel and increasingly its temporal and cultural setting render it a foreign novel to most readers A Karenina Companion offers a wealth of information including a great deal that has previously not been available in English for the scholarly and literary appreciation of this great novel Chapter 1 is a biographical introduction and Chapter 2 an examination of the way in which the novel was composed In Chapter 3 the author brings together Tolstoi s own substantial comments on his work Chapter 4 adduces the main differences between the latest edition of the text and what has been the standard edition for over 50 years Chapter 5 outlines what Tolstoi was reading as he was writing the novel The final chapter provides a survey of significant secondary literature with English language works listed in appendices A Karenina Companion will facilitate both the reading and understanding of the novel by English

speakers and the writing of informed and reliable critical appreciations **Alexander Solzhenitsyn: Cold War Icon, Gulag Author, Russian Nationalist?** Elisa Kriza,2014-10-01 **Folk Horror** Dawn Keetley,Ruth Heholt,2023-04-15 While the undisputed heyday of folk horror was Britain in the 1960s and 1970s the genre has not only a rich cinematic and literary prehistory but directors and novelists around the world have also been reinventing folk horror for the contemporary moment This study sets out to rethink the assumptions that have guided critical writing on the genre in the face of such expansions with chapters exploring a range of subjects from the fiction of E F Benson to Scooby Doo video games and community engagement with the Lancashire witches In looking beyond Britain the essays collected here extend folk horror s geographic terrain to map new conceptualisations of the genre now seen emerging from Italy Ukraine Thailand Mexico and the Appalachian region of the US *Mapping St. Petersburg* Julie A. Buckler,2018-06-05 Pushkin s palaces or Dostoevsky s slums Many a modern day visitor to St Petersburg has one or more likely both of these images in mind when setting foot in this stage set like setting for some of the world s most treasured literary masterpieces What they overlook is the vast uncharted territory in between In Mapping St Petersburg Julie Buckler traces the evolution of Russia s onetime capital from a conceptual hierarchy to a living cultural system a topography expressed not only by the city s physical structures but also by the literary texts that have helped create it By favoring noncanonical works and underdescribed spaces Buckler seeks to revise the literary monumentalization of St Petersburg with Pushkin and Dostoevsky representing two traditional albeit opposing perspectives to offer an off center view of a richer less familiar urban landscape She views this grand city the product of Peter the Great s ambitious vision not only as a geographical entity but also as a network of genres that carries historical and cultural meaning We discover the busy messy middle ground of this hybrid city through an intricate web of descriptions in literary works nonfiction writings such as sketches feuilletons memoirs letters essays criticism and urban legends lore songs and social practices all of which add character and depth to this refurbished imperial city *Tolstoy's Art and Thought, 1847-1880* Donna Tussing Orwin,2013-05-16 My aim is to present Tolstoy s work as he may have understood it himself writes Donna Orwin Reconstructing the intellectual and psychic struggles behind the masterpieces of his early and middle age this major study covers the period during which he wrote The Cossacks War and Peace and Anna Karenina Orwin uses the tools of biography intellectual and literary history and textual analysis to explain how Tolstoy s tormented search for moral certainty unfolded creating fundamental differences among the great novels of the pre crisis period Distinguished by its historical emphasis this book demonstrates that the great novelist who had once seen a fundamental harmony between human conscience and nature s vitality began eventually to believe in a dangerous rift between the two during the years discussed here Tolstoy moved gradually from a celebration of life to instruction about its moral dimensions Paying special attention to Tolstoy s reading of Rousseau Goethe Schopenhauer and the Russian thinker N N Strakhov Orwin also explores numerous other influences on his thought In so doing she shows how his philosophical and emotional conflicts changed form

but continued unabated until with his religious conversion of 1880 he surrendered his long attempt to make sense of life through art alone **Canadian-American Slavic Studies**, 1987 A quarterly journal devoted to Russia and East Europe

Understanding Chekhov Donald Rayfield, 1999 Of all Russian writers Chekhov is one of the best liked and most easily appreciated Yet he is also one of the most elusive Here Donald Rayfield reveals the layers of meaning on which the great dramatist's stories and plays are built He examines his brief twenty year creative life from medical student supplementing his income by writing comic stories to his rapid rise as the father of twentieth century drama and narrative prose Understanding Chekhov is enriched by revelations from previously unexplored archival material which deepen our understanding of Chekhov's sources preoccupations philosophy and his relations with theater with fellow writers and with contemporary ideas Return from the Archipelago Leona Toker, 2000 Comprehensive historical survey and critical analysis of the vast body of narrative literature about the Soviet gulag Leona Toker organizes and characterizes both fictional narratives and survivors memoirs as she explores the changing hallmarks of the genre from the 1920s through the Gorbachev era Toker reflects on the writings and testimonies that shed light on the veiled aspects of totalitarianism

dehumanization and atrocity Identifying key themes that recur in the narratives arrest the stages of trial imprisonment labor camps exile escapes special punishment the role of chance and deprivation Toker discusses the historical political and social contexts of these accounts and the ethical and aesthetic imperative they fulfill Her readings provide extraordinary insight into prisoners experiences of the Soviet penal system Special attention is devoted to the writings of Varlam Shalamov and Aleksandr Solzhenitsyn but many works that are not well known in the West especially those by women are addressed Consideration is also given to events that recently brought many memoirs to light years after they were written The Supernatural in Slavic and Baltic Literature Amy Mandelker, Roberta Reeder, 1988
