**PHAISTOS DISC: history and full text translation.** Vitaly Surnin, 2013-12-28 This book is the preliminary part of a great work titled THE BOOK OF THE EGYPTIAN The beginning of the basic Egyptology or a key to the understanding of history philosophy and world religion Usually the introduction is made in the form of a brief preface or foreword but I got a whole book as the first step in a multi volume publication of the study The purpose of this specific introduction as the beginning of serious research is right at the level of the opening to inspire a reader showing him in a clear visual and comprehensible form the whole true mechanism of the hieroglyphic writing To achieve this I will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning of words the whole idea but only individual sounds letters or their combination syllables This scientific myth will be finally deprived of the status of scientific knowledge and the translation of the Phaistos disc on the contrary will be clearly shown what is called broken apart and will be read in the ancient hieroglyphic language united by the principle of construction in the language of the ancient Egyptians I can say that

it will not be two simultaneously existing systems of hieroglyphs translation as well as two Egyptologies one will be false and the other true To prove the validity of the system of translation I wanted to give you immediately not only a complete translation of the text of the Phaistos disc where the number of occurrences of each hieroglyph is not big 1 to 19 times but the translation of the whole ancient Egyptian writing because the number of times it is used in there is thousands if not even millions And each such use of each hieroglyph is translating in the same way so it creates the full reading of the hieroglyphic texts writing which will be easily read by everyone with the dictionary of hieroglyphs in the future The main reason why I wanted to do it is because at first I read the ancient Egyptian texts and only then by chance came across with the hieroglyphs of the Phaistos disc But then I decided to set a different aim to teach the reader to think and not just to read hieroglyphs Since we have no ancient Egyptian temple and you re not its novice the method of achieving the aims will be different than in the antiquity First of all I would suggest not a translation of ancient Egyptian hieroglyphs but a complete translation of the Phaistos disc and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world Let them answer me the question not knowing the translations of ancient Egyptian texts whether they think this translation of the Phaistos disc is correct So when I completely publish The Book of Egyptian it will become clear who they are and where do they lead all of you As they always test the students it s a time to test them as well Will they pass the test I do not know but any way you my reader will get to know about it in the main manuscript and will be able to draw your own conclusions about their intellectual level Therefore I recommend you to take this message of the book at least with the attention because not every day the science gets a ready revelation designed in the form of scientific study And here the attention and common sense will help the reader to re look the original pure uncomplicated meaning of the Hieroglyphs which through the veil of delusion will finally begin to appear in their true original and vibrant colors and finally get from the nether world into the realm of the living
