The Russian Hero in Modern Chinese Fiction Mau-sang Ng, 1988-08-04 The Russian influence took root in the Chinese intellectual tradition that evolved after the Literary Revolution of 1917 When the Chinese communists turned to Russia for their inspiration they also accepted the Russian version of the novel's form and function in society However they did not accept it uncritically Chinese understanding of the arts goes back for thousands of years and thus Chinese intellectuals brought their own kinds of tradition and intelligence to these new arts and political solutions In this lucid study the author demonstrates how Chinese writers guided by Russian authors such as Chekhov Turgenev and Andreyev created works of art that are both original and Chinese However he also shows that the familiar heroes of such famous novelists as Lu Xun Yu Dafu Mao Dun and Ba Jin have a strong Russian flavor linked to prototypes in the Russian literary tradition The author depicts the fortune of Soviet literature and the fate of the intellectual hero in the People's Republic of China He believes that the humanistic May Fourth intellectual tradition which inspired enthusiasm for classical Russian literature has been revived with the publication of works like Dai Houying's *Man ah Man* and Zhao Zhenkai's *Waves*

Writers and Society During the Rise of Russian Realism Joe Andrew, 1980-06-18 Diagnosing Literary Genius Irina Sirotkina, 2003-04-30 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures from the Modern Language Association The vital place of literature and the figure of the writer in Russian society and history have been extensively studied but their role in the evolution of psychiatry is less well known In *Diagnosing Literary Genius A Cultural History of Psychiatry in Russia 1880 1930* Irina Sirotkina explores the transformations of Russian psychiatric practice through its relationship to literature During this period psychiatrists began to view literature as both an indicator of the nation's mental health and an integral part of its well being By aligning themselves with writers psychiatrists argued that the aim of their science was not dissimilar to the literary project of exploring the human soul and reflecting on the psychological ailments of the age Through the writing of pathographies medical biographies

psychiatrists strengthened their social standing debated political issues under the guise of literary criticism and asserted moral as well as professional claims By examining the psychiatric engagement with the works of Fyodor Dostoevsky Nikolai Gogol Leo Tolstoy and the decadents and revolutionaries Sirotkina provides a rich account of Russia's medical and literary history during this turbulent revolutionary period *Discontinuous Discourses in Modern Russian Literature* Michael Makin, Catriona Kelly, 1989-04-04

[Russian Conservatism](#) Glenn Diesen, 2021-01-12 Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism Conservatism is about managing change by ensuring that modernization evolves organically by building on the past Conservatism has a natural attraction for Russia as its thousand year long history is largely characterized by revolutionary change the destructive process of uprooting the past to give way to modernity Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps forward that disrupts socio economic and political traditions Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history **Aspects of Dostoevskii**, 2012-01-01 Perhaps more than any other nineteenth century Russian writer Dostoevskii's continuing popularity rests on his contemporary relevance The prophetic streak in his creativity gives him the same lasting appeal as dystopian novelists such as Zamiatin and Orwell whom he influenced and whose ethical concerns he anticipated Religious themes are prominent in his work too and though he was a believer his interest seems to lie in the tension between faith and unbelief which was felt as keenly in the Russia of his time as in our own The nature of Dostoevskii's art also continues to be debated The older tendency to disparage his literary method has given way to a recognition of the originality of his techniques without which his ideological concerns would not have emerged with such thought provoking clarity The chapters which comprise this volume address these issues in a range of Dostoevskii's works from shorter classics such as *House of the Dead* and *Notes from Underground* to great novels such as *Crime and Punishment* and *The Brothers Karamazov* This work will be of use to scholars and students of Dostoevskii at all levels as well as to those with an interest in nineteenth century literature more generally *History Russian Philosophy V1* V. Zenkovsky, 2014-07-10 This Volume I of a History of Russian Philosophy originally published in 1953 based on the author's lectures to the Theological Institute in Paris They also explore Russian philosophic thought and how they relate to the theoretical constructions of Russian life **Russian-Ottoman Borderlands** Lucien J. Frary, Mara Kozelsky, 2014-08-12 During the nineteenth century as violence population dislocations and rebellions unfolded in the borderlands between the Russian and Ottoman Empires European and Russian diplomats debated the Eastern Question or

What should be done about the Ottoman Empire Russian Ottoman Borderlands brings together an international group of scholars to show that the Eastern Question was not just one but many questions that varied tremendously from one historical actor and moment to the next The Eastern Question or from the Ottoman perspective the Western Question became the predominant subject of international affairs until the end of the First World War Its legacy continues to resonate in the Balkans the Black Sea region and the Caucasus today The contributors address ethnicity religion popular attitudes violence dislocation and mass migration economic rivalry and great power diplomacy Through a variety of fresh approaches they examine the consequences of the Eastern Question in the lives of those peoples it most affected the millions living in the Russian and Ottoman Empires and the borderlands in between

Russian Genre Painting in the Nineteenth Century

Rosalind Polly Blakesley, 2000 This book addresses the little studied area of Russian genre painting in the first three quarters of the nineteenth century Rosalind Gray begins by examining artistic patronage and published texts which engaged with the visual arts in order to illustrate the context in which Russian artists were working Five major painters Venetsianov Bryullov Ivanov Fedotov and Perov are then discussed in detail Dr Gray identifies the vital contribution which these artists made to Russian intellectual life as genre painting was appropriated as a medium in the dissemination of popular values and social change At the same time the relationship between Russian and European art is explored The book demonstrates that far from being a self contained movement Russian genre painting instead engaged in a fluid and complex dialogue with the art of the West

Political History and Culture of Russia, 2002 Scholarly articles dealing with political events in Russia up to 1991
