Russian And Slavic History:

Russian and Slavic History Don Karl Rowney, George Edward Orchard, 1977 The Origins of the Slavic Nations Serhii Plokhyy, 2006-09-07 This book documents developments in the countries of eastern Europe including the rise of authoritarian tendencies in Russia and Belarus as well as the victory of the democratic Orange Revolution in Ukraine and poses important questions about the origins of the East Slavic nations and the essential similarities or differences between their cultures It traces the origins of the modern Russian Ukrainian and Belarusian nations by focusing on pre modern forms of group identity among the Eastern Slavs It also challenges attempts to nationalize the Rus past on behalf of existing national projects laying the groundwork for understanding of the pre modern history of Russia Ukraine and Belarus The book covers the period from the Christianization of Kyivan Rus in the tenth century to the reign of Peter I and his eighteenth century successors by which time the idea of nationalism had begun to influence the thinking of East Slavic elites

Russian Nationalism and the Russian-Ukrainian War Taras Kuzio, 2022-01-26 This book is the first to provide an in depth understanding of the 2014 crisis Russia s annexation of Crimea and Europe s de facto war between Russia and Ukraine The book provides a historical and contemporary understanding behind President Vladimir Putin Russia s obsession with Ukraine and why Western opprobrium and sanctions have not deterred Russian military aggression The volume provides a wealth of detail about the inability of Russia from the time of the Tsarist Empire throughout the era of the Union of Soviet Socialist Republics USSR and since the dissolution of the latter in 1991 to accept Ukraine as an independent country and Ukrainians as a people distinct and separate from Russians The book highlights the sources of this lack of acceptance in aspects of Russian national identity In the Soviet period Russians principally identified themselves not with the Russian Soviet Federative Republic but rather with the USSR as a whole Attempts in the 1990s to forge a post imperial Russian civic identity grounded in the newly independent Russian Federation were unpopular and notions of a far larger Russian imagined community came to the fore A post Soviet integration of Tsarist Russian great power nationalism and White Russian migr chauvinism had already transformed and hardened Russian denial of the existence of Ukraine and Ukrainians as a people even prior to the 2014 crises in Crimea and the Donbas Bringing an end to both the Russian occupation of Crimea and to the broader Russian Ukrainian conflict can be expected to meet obstacles not only from the Russian de facto President for life Vladimir Putin but also from how Russia perceives its national identity Widener Library Shelflist: Slavic history and literatures Harvard University. A History of Russian Philosophy 1830-1930 G. M. Hamburg, Randall A. Poole, 2010-04-22 The great age of Russian philosophy spans the century between 1830 and 1930 from the famous Slavophile Westernizer controversy of the 1830s and 1840s through the Silver Age of Russian culture at the beginning of the twentieth century to the formation of a Russian philosophical emigration in the wake of the Russian Revolution This volume is a major history and interpretation of Russian philosophy in this period Eighteen chapters plus a substantial introduction and

afterword discuss Russian philosophy's main figures, schools and controversies while simultaneously pursuing a common central theme: the development of a distinctive Russian tradition of philosophical humanism focused on the defence of human dignity. As this volume shows, the century-long debate over the meaning and grounds of human dignity, freedom and the just society involved thinkers of all backgrounds and positions transcending easy classification as religious or secular. The debate still resonates strongly today.

Dynamics of Emigration Stefan Berger, Philipp Müller, 2022-08-12

As a pioneering volume to consider the impact of exile on historical scholarship in the twentieth century in a systematic and global way looking at Europe, North America, South America and Asia, *Dynamics of Emigration* asks about epistemic repercussions on the experience of exile and exiles. Analyzing both the impact that exile scholars had on their host societies and on the societies they had to leave, the volume investigates exiles' pathways to integration into new host societies and the many difficulties they face establishing themselves in new surroundings. Focusing on the age of extremes and the realms of exile from fascist and right-wing dictatorships as well as communist regimes, the contributions look at the reasons scholars have for going into exile while providing side-by-side examination of the support organizations and paths for success involved with living in exile.

Between the Icon and the Idol Artur Mrowczynski-Van Allen, 2013-11-14

The totalitarian state clearly intends to eliminate all those forms of organic community that rival the absolute loyalty of the individual to the state. This god is a jealous god. Mrowczynski Van Allen's diagnosis is therefore no less relevant after the fall of the Berlin Wall. And his proposed cure is no less salutary. He appeals to the work of Grossman and other voices from the East to oppose the idolatry of the deified self with the icon which opens up a distance in which giving and forgiving can occur. Eastern voices are so helpful because they refuse to quarantine theological questions; the borders between theology, politics and literature are fluid and porous because they are all a part of an integrated life. The holism of totalitarianism must be opposed by another kind of holism that replaces the idol with the icon. At the same time, the aspiration of secularism to separate politics from theology and power from love must be opposed by a politics based on an opening of human persons to God and to each other, the kind of self-donation found in Grossman and for Christians on the Cross. Balkan Historiographical Wars Diana Mishkova, Roumen Daskalov, 2025-09-13

The studies in this volume present some of the major historiographical wars over the medieval Balkan past fought by the historians of competing nation-states in the region: ethnic origins and national makeup of medieval states and disputed regions; ownership of the historical heritage located in or associated with that territory; provenance or national consciousness of important historical personalities; the boundaries of a certain medieval state and its political, religious and cultural influence on others. These are some of the issues around which major clashes between the modern Balkan historiographies recurred. The book is valuable to all those interested in how the medieval past

becomes instrumentalized by the national historians in the service of constructing the national canons of history
