Russia a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance. As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century, their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism. This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid-twentieth centuries. Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich, Mikhail Larionov and Natalia Goncharova and introduce less well-known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia. Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharov that sets these perspectives in their historical and critical context, *Modernism and the Spiritual in Russian Art: New Perspectives* enriches our understanding of the modernist period and breaks new ground in its re-examination of the role of religion and spirituality in the visual arts in late Imperial Russia. Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant-garde, it offers innovative readings of a history only partially explored, revealing uncharted corners and challenging long-held assumptions. *Encyclopaedia of Contemporary Russia* Tatiana Smorodinskaya, Karen Evans-Romaine, Helena Goscilo, 2013-10-28. Revolution, war, dislocation, famine and rivers of blood: these traumas dominated everyday life at the turn of the century. Russia, as *Modernity, Domesticity and Temporality in Russia* explains, amidst such public turmoil, Russians turned inwards, embracing and carefully curating the home in an effort to express both personal and national identities. From the nostalgic landed estate with its backward gaze to the present-focused and efficient urban apartment to the utopian communal dreams of a Soviet future, the idea of time was deeply embedded in Russian domestic life. Rebecca Friedman is the first to weave together these twin concepts of time and space in relation to Russian culture, and in doing so, this book reveals how the revolutionary domestic experiments reflected a desire by the state and by individuals to control the rapidly changing landscape of modern Russia. Drawing on extensive popular and literary sources, both visual and textual, this fascinating book enables readers to understand the reshaping of Russian space and time as part of a larger revolutionary drive to eradicate, however ambivalently, the 19th-century gentrified sloth in favour of the proficient Soviet comrade. **Archaic images of North Russian folklore and origin of the Indo-Europeans** S.V.
