Russian Historians The Soviet State:

Russian Historians and the Soviet State Konstantin Feodosévich Shteppa, 1962 **A History of Twentieth-century Russia** Robert Service, 1998 Russia has had an extraordinary history in the twentieth century As the first Communist society the USSR was both an admired model and an object of fear and hatred to the rest of the world How are we to make sense of this history A History of Twentieth Century Russia treats the years from 1917 to 1991 as a single period and analyzes the peculiar mixture of political economic and social ingredients that made up the Soviet formula Under a succession of leaders from Lenin to Gorbachev various methods were used to conserve and strengthen this compound At times the emphasis was upon shaking up the ingredients at others upon stabilization All this occurred against a background of dictatorship civil war forcible industrialization terror world war and the postwar arms race Communist ideas and practices never fully pervaded the society of the USSR Yet an impact was made and as this book expertly documents Russia since 1991 has encountered difficulties in completely eradicating the legacy of Communism A History of Twentieth Century Russia is the first work to use the mass of material that has become available in the documentary collections memoirs and archives over the past decade It is an extraordinarily lucid masterful account of the most complex and turbulent period in Russia's long history **A History of Russia and the Soviet Union** David MacKenzie, Michael W. Curran, 1982 *Russian Historians and the Soviet State.* (Manuscript Prepared for Publication by William L. Blackwell.). Konstantin Feodos'evich SHTEPA, William L. BLACKWELL, 1962 The Rise and Fall of the Soviet Empire Dmitriĭ Antonovich Volkogonov, 1998 Following his great trilogy of biographies of the giants who dominated the history of the Soviet Union Stalin 1991 Lenin 1994 and Trotsky 1996 Dmitri Volkogonov delves deeper into the Soviet archives to produce new character evaluations and political assessments of the seven leaders who ruled the Soviet Union from 1917 to 1991 A former general in the Soviet Army's propaganda department Director of the Institute for Military History and Defence Adviser to President Yeltsin from 1991 to his death from cancer in December 1995 Dmitri Volkogonov had unrivalled access to Soviet military archives Communist Party documents and secret presidential files Basing his new book on these inside sources he has continued his pioneering work of revealing the truth behind the activities of the world's most secretive political leaders He throws new light on Lenin's paranoia about foreigners in Russia his creation of a privileged system for top Party members Stalin's repression of the nationalities and his singular conduct of foreign policy the origins and conduct of the Korean War Khrushchev's relationship with the odious secret service chief Beria Brezhnev's vanity and stupidity the Afghan War Poland and Solidarity Soviet bureaucracy Gorbachev's Leninism and role in history **Writing History in the Soviet Union** Arup Banerji, 2008 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making the Past Work is aimed at understanding

this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka

Writing History in the Soviet Union Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making the Past Work is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys

the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka
