Andrea Bosco

Russian Imperialism Development And Crisis:

Russian Imperialism Ariel Cohen, 1996-08-23 The fall of the Soviet Union was one of the most dramatic events of this century It was also one of the most surprising Evidence of the USSR's impending fall was abundantly available both in theory in the writings on empires and on the ground Yet prior to its downfall the very profession that specialized in the study of the Soviet Union held no consensus that the USSR was an empire to begin with Perhaps because many Sovietologists neglected its status as an empire most Americans were taken completely by surprise when the USSR began its precipitous collapse under Mikhail Gorbachev This book subjects the Soviet Union as an empire to systematic scrutiny using tools and methods at the disposal of modern political science Foreign policy specialists defense experts and Russian area analysts will find this book essential The book is also recommended for undergraduate and graduate courses in Russian and Soviet history and the study of empires

Russian Foreign Policy Nikolas K. Gvosdev, Christopher Marsh, 2013-08-22 In a truly contemporary analysis of Moscow's relations with its neighbors and other strategic international actors Gvosdev and Marsh use a comprehensive vectors approach dividing the world into eight geographic zones Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues oil and energy defense policy economic policy the role of international institutions and the impact of major interest groups or influencers demonstrating that Russia formulates multiple sometimes contrasting foreign policies Providing rich historical context as well as exposure to the scholarly literature the authors offer an incisive look at how and why Russia partners with some states while it counter balances others

Russian-Belarusian Integration Alex Danilovich, 2006 Despite formal declarations Russia has made little progress in achieving union with its ex Soviet neighbour Belarus Linking Russia's foreign policy to its domestic politics Alex Danilovich clarifies this paradox and explains why specific attempts to reunify failed contrary to the desires of significant forces on both sides and to certain theory based expectations

The Soviet Union Tania Raffass, 2012 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

Democracy, Federalism, the European Revolution, and Global Governance Andrea Bosco, 2020-06-10 The European Union is facing today the greatest crisis since its creation

Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration. However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union's construction: democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo-French union. This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration. In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state. The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet. Europe was indeed the first region of the world where the barriers between national states fell and a post-national political identity emerged complementary to national political identities. It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance.

Visions of Empire Krishan Kumar, 2019-08-06 In this extraordinary volume Krishan Kumar provides us with a brilliant tour of some of history's most important empires demonstrating the critical importance of imperial ideas and ideologies for understanding their modalities of rule and the conflicts that beset them. In doing so he interrogates the contested terrain between nationalism and empire and the legacies that empires leave behind. Mark R. Beissinger, Princeton University. This is an excellent book with original insights into the history of empires and the discourses and rhetoric of their rulers and defenders. Kumar's writing is lively and free of jargon and his research is prodigious. He manages to bring clarity and perspective to a complex subject. Ronald Grigor Suny, author of *They Can Live in the Desert but Nowhere Else: A History of the Armenian Genocide*. A masterly piece of work. Anthony Pagden, author of *The Burdens of Empire: 1539 to the Present*. *Black Wind, White Snow* Charles Clover, 2022-01-01 A fascinating study of the motivations behind the political activities and philosophies of Putin's government in Russia. Part intellectual history, part portrait gallery. *Black Wind, White Snow* traces the background to Putin's ideas with verve and clarity. Geoffrey Hosking, Financial Times. Required reading. This is a vivid panoramic history of bad ideas chasing the metastasis of the doctrine known as Eurasianism. Reading Charles Clover will help you understand the world of lies and delusions that is Eurasia. Ben Judah, Standpoint. A powerful strain of Russian nationalism now lies at the heart of the Kremlin's political thinking. Eurasianism. But how did this dangerous ideology, once a fringe theory, come to dominate Moscow's elite? Promoted most notably in recent years by Alexander Dugin, this theory has become the driving force behind the invasion of Ukraine and the perplexing manoeuvrings of Putin's Russia. In this fascinating investigation, Charles Clover, an award-winning journalist, traces Eurasianism's origins in the writings of White Russian exiles in 1920s Europe through Siberia's Gulag archipelago in the

1950s the dissolution of the Soviet Union in the early 1990s and up to its steady infiltration of the governing elite Based on extensive research and dozens of interviews with Putin s close advisers this eye opening account is essential reading to understand Russia s past century and the dangers of our present political moment *Russia and Iran in the Great Game* Elena Andreeva,2007-06-11 This book examines the Russian explorers and officials in the nineteenth and early twentieth century who came into contact with Iran as a part of the Great Game It demonstrates the development of Russia s own form of Orientalism a phenomenon that has previously been thought to be exclusive to the West *Red Nations* Jeremy Smith,2013-09-12 Red Nations offers an illuminating and informative overview of how the non Russian republics of the Soviet Union experienced communist rule It surveys the series of historical events that contributed to the break up of the Soviet Union and evaluates their continuing resonance across post soviet states today Drawing from the latest research Professor Smith offers comprehensive coverage of the revolutionary years the early Soviet policies of developing nations Stalin s purges and deportations of small nationalities and the rise of independence movements Through a single unified narrative this book illustrates how in the post Stalin period many of the features of the modern nation state emerged Both scholars and students will find this an indispensable contribution to the history of the dissolution of the USSR the reconstruction of post Soviet society and its impact on non Russian citizens from the years of the Russian Revolution through to the present day *Eurasia in Balance* Ariel Cohen,2017-11-28 Offering a comprehensive overview of the security dynamics of an under analyzed region of the world Central Asia and South Caucasus this volume contains contributions from leading experts who examine policies of the major players in the region including Russia China India Iran and Turkey The volume incorporates thematic chapters which detail economic and security analyses in the post September 11th era It will appeal to both the academic and reference audiences and to the broader scholarly market in the disciplines of foreign policy international security Eurasian studies and peace and conflict studies *East Central Europe Between the Colonial and the Postcolonial in the Twentieth Century* Siegfried Huigen,Dorota Kołodziejczyk,2023-03-16 This open access book explores the ambiguity of East Central Europe during the twentieth century examining local contexts through a comparative and transnational reworking of theoretical models in postcolonial studies Since the early modern period East Central Europe has arguably been an object of imperialism However at the same time East Central European states have been seen to be colonial actors with individuals from the region often associating themselves with colonial discourses in extra European contexts Spanning a broad time period until after the Second World War and covering the governance of Communism and its legacies the book examines how cultural and literary narratives from East Central Europe have created and revised historical knowledge making use of collective memory to feed into identity models *Russia's Bitter Path to Modernity* Alexander Chubarov,2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the

present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire*. One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass. This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles. Neither approach says Chubarov will work on its own. Chubarov offers a balanced view, abstaining from narrow ideologically biased assessments and examines the triumphs, yes, and failures of Russia's Soviet development within Russia's own cultural and historical context. Without ever minimizing the brutalities of the Soviet period, the state terror, the collectivizations, the labor camps, the deportations of whole peoples, Chubarov demonstrates much continuity between tsarist and Soviet Russia, with the latter often repeating the former's mistakes. Russia, says Chubarov, cannot turn its back on its Soviet experience. Far from being a blind alley or aberrant phase, the Soviet period was an organic part of Russia's history and was largely successful in turning Russia and most of the other Soviet republics into modern states. *Imperial Ends* Alexander J. Motyl, 2001-08-01. Despite their historical importance, empires have received scant attention from social scientists. Now Alexander J. Motyl examines the structure, dynamics, and continuing relevance of empire and asks: Why do empires decline? Why do some empires collapse? And why do some collapsed empires revive? Rejecting choice-centered theories of imperial decline, Motyl maintains that the very structure of empires promotes decay and that decay in turn facilitates the progressive loss of territory. Although most major empires have in fact declined in this manner, some such as the Soviet Union have collapsed suddenly and comprehensively. Motyl explains how and why collapse occurs, why such an outcome is hard to foresee, and why some collapsed empires revive. While broad-ranging historically and empirically, *Imperial Ends* focuses on five modern empires: the Soviet, Romanov, Ottoman, Habsburg, and Wilhelmine. Examining the possibility of a revival of the Soviet empire, Motyl points out that the expansion of NATO and the European Union, along with increasing globalization, will isolate Russia and its neighbors, promoting their dependence upon one another and perhaps facilitating the rise of the former core. With boldly stated conclusions and concise analytical interpretations, *Imperial Ends* cohesively illustrates to policymakers and social scientists alike the importance of possible imperial revivals and the rise of future empires. **Russian Politics and Society** Richard Sakwa, 2008-04-10. Having been fully revised and updated to reflect the considerable changes in Russia over the last decade, the fourth edition of this classic text builds on the strengths of the previous editions to provide a comprehensive and sophisticated analysis on Russian politics and society. New to this edition: extended coverage of electoral laws, party development, and regional politics; new chapter on the 'phoney democracy' period 1991-93; historical evaluation of Yeltsin's leadership; full coverage of Putin's presidency; discussion of the development of civil society and the problems of democratic consolidation; latest developments in the Chechnya conflict; more on foreign policy issues; the re-introduction of the Russian Constitution as an appendix; an updated Select Bibliography; more focus on the challenges facing Russia in the twenty-first century. Written in an accessible and lively style, this book is packed with detailed information on the central debates and issues in Russia's difficult

transformation This makes it the best available textbook on the subject and is essential reading for all those concerned with the fate of Russia and with the future of international society **Kritika**, 2001 **Russia's Policies Toward the Axis of Evil** United States. Congress. House. Committee on International Relations, 2003 **Empire** D. C. B. Lieven, 2002-01-01 Focusing on the Tsarist and Soviet empires of Russia Lieven reveals the nature and meaning of all empires throughout history He examines factors that mold the shape of the empires including geography and culture and compares the Russian empires with other imperial states from ancient China and Rome to the present day United States Illustrations Classroom and Empire Wayne Dowler, 2001 The central challenge to imperial powers entering the modern era was the schooling of their peoples How could they insure the literacy that modernity required without providing a foundation for nationalism among the colonised In Russia s eastern empire in the late nineteenth century Orthodox Christianity vied with Islam for people s souls Russian language competed with Tatar and local vernaculars in market squares peasant cottages and schoolrooms Arabic and Cyrillic alphabets clashed in school textbooks and western secularism undermined traditional religious authority among both Muslim and Orthodox faithful Russian nationalism peaked in the early twentieth century and public support for policies of the russification of non Russian minorities increased The inevitable clash with local languages shook the stability of the empire Classroom and Empire tells the story of the politics of alphabets languages and schooling in the eastern empire of Russia from 1860 to 1917 Wayne Dowler presents an intriguing cast of characters including Nikolai Il minskii whose method of schooling non Russian children lay at the heart of nationalist controversy Ismail Bey Gaspirali whose new method schools attempted to reconcile Islam with modern secular philosophy and science Konstantin Pobedonostsev procurator of the Holy Synod and minence grise of the reigns of Alexander III and his son Nicholas II and Sophia Chicherina feisty defender of the Il minskii school Dowler shows us that the problem of schooling non Russians was unresolved by the fall of the Romanovs in 1917 smouldered through much of the Soviet period and has re emerged today as a major source of divisiveness in the Russian Federation Wayne Dowler is professor of history at University of Toronto at Scarborough **Kazakhstan** Ariel Cohen, 2006 This important study explains how Russia with its private sector and policy makers working in tandem has exerted a significant amount of control over Kazakhstan s vast natural resources and its economic freedom It looks at the way Russia and Kazakhstan agreed to divide the Caspian Sea shelf and how Kazakhstan has managed to maintain good relations with Moscow overall despite its insistence on exporting energy resources to China and Europe directly and its hopes to export through Iran This series of reports establishes for the first time the confluence of Russian foreign policy with the acquisition of foreign energy assets by Russian entities Nine specific country profiles focus on the oil gas electricity and nuclear power industries Each report written by an author of international standing explains how Russian foreign energy downstream mergers and acquisitions are transpiring to consolidate the new Russian empire **Russian National Security** Michael H. Crutcher, 2001 This is an anthology of papers presented at a conference titled Russian National Security

Perceptions Policies and Prospects conducted from 4-6 December 2000. The book organizes the papers into six sections: The Russian National Security Community, Russia and Europe, Russian Policy Towards the Caucasus and Central Asia, Russia and Asia, Russia and the United States, and Russia's Military Transformation.
