civilizational ideas rise fall and are replaced by alternative ideas The book identifies three schools of Russian civilizational thinking about international relations Slavophiles Communists and Eurasianists Each school focuses on Russia s distinctive spiritual social and geographic roots respectively Each one is internally divided between those claiming Russia s exceptionalism potentially resulting in regional autarchy or imperial expansion and those advocating the Russian Idea as global in its appeal Those favoring the latter perspective have stressed Russia s unique capacity for understanding different cultures and guarding the world against extremes of nationalism and hegemony in international relations This book will be of interest to students and scholars of Russian foreign policy Russia Western relations IR theory diplomatic studies political science and European history including the history of ideas      **U.S.-Russian Relations** United States. illuminates how Russian and EU foreign policy discourses interact While official Russian and EU articulations on issues of sovereignty human rights and the shared neighbourhood diverge greatly they are not articulated in isolation but are entangled and condition each other To understand this entanglement this book approaches the relationship between Russia and the EU as an intersubjective one a social context where diverging interpretations of the world struggle for hegemony Its theoretical framework marries poststructuralist thought with insights from critical approaches to Hegelian recognition dialectics Based on an extensive and systematic empirical discourse analysis of Russian and EU foreign policy texts this study draws a detailed picture of the intensifying discursive dynamics accompanying the deteriorating relationship between Brussels and Moscow It shows how neither the EU's nor Russia's foreign policy articulation has changed substantially The interaction pattern continues to be an asymmetrical one with Russia's articulations much more conditioned by the EU's discourse than vice versa The book thus argues that the EU is more independent in sovereignly articulating an interpretation of the world whereas Russia continues to face constraints in the formulation of an autonomous political project With its novel and innovative conceptual framework this book furthers the theoretical scholarship on poststructuralism in international relations It addresses all scholars interested in poststructuralist enquiries and will be of great value to students and scholars of Russian foreign policy and the EU
