Russia's Economy of Favours Alena V. Ledeneva, 1998-08-06 The word blat refers to the system of informal contacts and personal networks which was used to obtain goods and services under the rationing which characterised Soviet Russia Alena Ledeneva's book is the first to analyse blat in all its historical socio economic and cultural aspects and to explore its implications for post Soviet society In a socialist distribution system which resulted in constant shortages blat developed into an economy of favours which shadowed an overcontrolling centre and represented the reaction of ordinary people to the social constraints they faced In social and economic terms blat exchanges became vital to the population and to the functioning of the Soviet system The book shows that the nature of the economic and political changes in contemporary Russia cannot be properly understood without attention to the powerful legacy of the blat economy

Russia's Carnival Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses Today's Russia smells different from the Soviet Union The country looks and sounds different its touch is different and its food tastes different Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time After almost a century space can be privately owned and freely traded time too has become commodified New role models and new ways to express social status are emerging Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society He explores the transition's traps and shortcomings such as the privatization of politics and the looting of the state's assets and compares this process to the modernization Western society underwent a century earlier
