Robert Lovan, Michael Murray, Ron Shaffer, 2017-03-02 In recent years a new participatory governance dynamic has been redefining relationships and responsibilities in the planning and implementation of policies and programs Participatory governance not only crosses public private and associational sectors but is also intra organizational It allows for individual and collective participation and challenges longstanding norms of institutional behavior This book examines fresh evidence relating to planning conflict mediation and public decision making processes in civil society by bringing together a multi disciplinary team of practitioners and scholars from North America Europe Africa and Australia In an analysis which spans institutional perspectives and operational concerns the contributors explore the dynamics of stakeholder involvement as deliberative processes constructed around the core idea of shared responsibility The book draws out important principles as to how this diversity of engagement can translate itself into more effective public decision making

Islamic Public Law - Islamic Law in Theory and Practice Ahmed Akgunduz, 2011-11-01 Islamic law contains explications and divisions that imply a classification in terms of public and private law In this book we will explain the outlines of Islamic public law e g First Chapter Islamic constitutional law al siy saḥ al shar'iyyah and administrative law al siy saḥ al shar'iyyah Second Chapter penal law al uqūbāt Third Chapter financial law zakāt ushr arj and other taxes Fourth Chapter trial law qa and Fifth Chapter international public law al siyar The fields of especially Islamic constitutional law administrative law financial law tazrī' penalties and arrangements concerning military law based on the restricted legislative authority vested by Shar'ah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good maslahah all fell under what was variously called public law al siy saḥ al shar'iyyah Shar'ah policy qānūn legal code qānūn mah orf uqūq etc Since these laws could not go beyond Shar'ah principles either at least in theory they should not be regarded as a legal system outside of Islamic law But Islamic penal law financial law trial law and international law depend mostly on rules that are based directly on the Qur'an and the Sunnah and codified in books of fiqh Islamic law called Shar'ah rules Shar'i sharf or Shar'ah law Such rules formed 85% of the legal system In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy Islamic law does not stipulate a certain method of state government nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic As a matter of fact ulaf al Rashid in the Rightly Guided Caliphs were both caliphs and religious republican presidents We could say that this book has three main characteristics i We have tried to base our explanations directly on the primary Islamic law sources For example after reading some articles on the caliphate or tūrī' system in articles or books by some Western scholars and even by some Muslim scholars one might conclude that there are different views on these subjects among

Muslim scholars This is not true Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations If one reads works by Imam Gazzali Ibn Taymiyyah al Mawardi and al Farr one will not find any disagreement on the main rules but there are some different interpretations of some concepts We have tried to discover where they agreed and we have sometimes pointed to where they differed ii We have researched practices of Islamic law especially legal documents in the Ottoman archives For example we explain *addi sariqa* but also mention some legal articles from the Ottoman legal codes *qanunnames* and some *Shari'ah* court decisions like legal decrees *ilmi shar'iyyah* It is well known that nobody can understand any legal system without implementing and practicing it That also holds for Islamic law because theory alone does not yield a complete understanding of *Shari'ah* rules iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law That is why we appeal to the primary sources For example some scholars claim that the *anaf* jurist Imam Sara's did not accept the idea of punishment for apostasy We have studied his work *al-Mabsut* and found this claim to be unfounded The comparison between *timar* and *fief* is another example because the *timar* system is different from the *fief* system Some scholars confuse the concept of sovereignty and governance The Islamic state is not a theocratic state in the sense in which Europeans understand the term LRP, 2001 **War and Business corporation** Eric W. Bibliographic Guide to Psychology New York Public Library. Research Libraries,2000 **The Economist** ,2000 *A Grand Strategy for America* Robert J. Art,2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world s preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America s contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America s interests The seven are dominion forcibly trying to remake the world in America s own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country s long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times
