## **Sacred Cows And Golden Geese The Human Cost Of Experiments On Animals:**

Sacred Cows and Golden Geese C. Ray Greek, M. D., Jean Swingle Greek, 2000-07-01 Cancer has long been cured in mice but not in people Why Successful laboratory treatments and cures for one species don't necessarily result in cures for humans But because practice has become economically entrenched within medical industry animal experimentation against all medical evidence continues The human benefits of animal experimentation a bedrock of the scientific age is a myth perpetuated by an amorphous but insidious network of multibillion dollar special interests research facilities drug companies universities scientists and even cage manufacturers C Ray Greek MD and veterinary dermatologist Jean Swingle Greek DMV show how the public has been deliberately misled and blow the lid off the vested interest groups whose hidden agendas put human health at risk

**The Ethics of Animal Experimentation** Donna Yarri, 2005-08-18 Donna Yarri presents an overview of the current discussion on the ethics of animal experimentation from a Christian standpoint

**Making A Killing** Bob Torres, 2007-11-01 Suggest to the average leftist that animals should be part of broader liberation struggles and once they stop laughing you'll find yourself casually dismissed With a focus on labor property and the life of commodities Making a Killing contains key insights into the broad nature of domination power and hierarchy It explores the intersections between human and animal oppressions in relation to the exploitative dynamics of capitalism Combining nuts and bolts Marxist political economy a pluralistic anarchist critique as well as a searing assessment of the animal rights movement Bob Torres challenges conventional anti capitalist thinking and convincingly advocates for the abolition of animals in industry and on the dinner plate Making A Killing is sure to spark wide debate in the animal rights and anarchist movements for years to come Table Of Contents I Taking Equality Seriously II Chained Commodities III Property Violence and the Roots of Oppression IV Animal Rights and Wrongs V You Cannot Buy the Revolution Advance praise for Making A Killing Bob Torres Making a Killing draws a very straight line between capitalism and the oppressive system of animal agribusiness Drawing from social anarchist theory Torres provides a convincing argument that in order to fight animal exploitation we must also fight capitalism and in doing so animal rights activists will need to reconsider their methods and redirect their focus While his critiques of the animal rights movements large organizations may not earn him friends in high places such considerations are crucial to keeping the movement on track and for preventing stagnation Making a Killing is an important work from a new voice in animal advocacy that will surely spark heated discussions amongst activists from all corners of the movement Ryan MacMichael vegblog.org In Making A Killing The Political Economy of Animal Rights Bob Torres takes an important and timely look at the animal rights movement calling for a synthetic approach to all oppression human and animal His analytical framework draws together Marxism social anarchist theory and an abolitionist approach to animal rights to provide a timely social analysis that will no doubt have profound effects on the animal rights movement literature Gary L Francione Distinguished Professor of Law Rutgers University Bob Torres's socioeconomic analysis of nonhuman animal use is a

welcome and important addition to the understanding of human nonhuman relations at the beginning of the 21st century In particular Making a Killing makes vital a contribution to understanding the role of the property status of animals and the continuing strength of various welfarist positions on the ethics and indeed the economics of the human utilisation of other animals Making a Killing will become required reading for social scientists and others interested in modern social movements and the socioeconomic forces that shape their activities and their claims making Dr Roger Yates Lecturer in sociology at University College Dublin Republic of Ireland This is the book I've been waiting for Making A Killing is a rare and powerful example of first rate scholarship a searing critique and lively declaration of the rights of animals and humans You will walk away from this book with a clear understanding as to why social justice movements for people must take animal rights seriously and vice versa Bob Torres has forever deepened my thinking about these relationships David Naguib Pellow vegetarian animal rights and anti racist activist and Professor of Ethnic Studies University of California San Diego and author of Garbage Wars The Struggle for Environmental Justice in Chicago and Resisting Global Toxics Transnational Movements for Environmental Justice Bob Torres is assistant professor of sociology at St Lawrence University received his PhD from Cornell and is co author of Vegan Freak Being Vegan in a Non Vegan World His writings have appeared in Critical Sociology The Journal of Latinos and Education International Journal of Occupational and Environmental Health and Satya magazine

*What Will We Do If We Don't Experiment on Animals?* Jean Swingle Greek,C. Ray Greek,2004 Drs Greek have written 2 books on why using animals as models for humans is not the best way to conduct medical research and drug testing During their lectures and debates the most commonly asked question was Well What will we use if we don't use animals What Will We Do If We Don't Experiment On Animals Medical Research for the Twenty first Century is the answer to that question Drs Greek explain briefly why one species cannot predict drug response for another and describe what research and testing methods should be used today instead of animals They also describe where our biomedical research dollars should be spent if we are to have cures for cancer AIDS and Alzheimer's This book will appeal to science trained and general audiences animal lovers and science readers public policy analysts students patients and patient support groups and government watchdog groups What Will We Do If We Don't Experiment On Animals Medical Research for the Twenty first Century takes medical research out of the nineteenth and into the 21st century *Specious Science* C. Ray Greek,Jean Swingle Greek,2002-01-01

Builds on the message of Sacred Cows and Golden Geese to understand why medical research on animals really harms humans Theorizing Animals Nik Taylor,Tania Signal,2011-04-21 Utilising ideas from post modernism and post humanism this book challenges current ways of thinking about animals and their relationships with humans Including contributions from across the social sciences the book encourages readers to reflect upon taken for granted ways of conceptualising human relationships with animals It will be of interest to those in the broad field of human animal studies as well as those within most social science and humanities disciplines including sociology anthropology philosophy and social theory

*Animals are the Issue* Linda S Katz, 2013-10-31 Supply your library with the best collection of resources on animal issues. *Animals are the Issue* Library Resources on Animal Issues is a guide to books, journals, and Web sites on historic and modern animal treatment. Expert librarians and scholars provide helpful resources showing what ideals and practical solutions exist in animal rights and welfare debates. With this book, students, philosophers, and politicians can find the best of written and electronic resources about the protection and ethical use of animals by humankind. *Animals are the Issue* stands alone as a source for locating materials on animal protection and welfare. This valuable guide will help librarians save time and money in locating diverse areas of information regarding animal consumption and exploitation. The authors have noted what they consider to be the most essential resources for library collections. This book offers references that discuss the utilization of animals by humans as companions in sports and entertainment, in religion, in science, and in education, in industry, in hunting. *Animals Are the Issue* explores how animals are seen, viewed, and used by humans. With bibliographies, annotated lists, and short commentaries by the authors on nearly every item, you'll be able to supply your patrons with a highly effective animal rights/welfare collection.

*An Odyssey with Animals* Adrian R Morrison, 2009-10-08 *An Odyssey with Animals* is the culmination of a veterinarian and scientist's years spent negotiating the divide between animal welfare and biomedical research. Drawing on the disciplines of philosophy, history, ethics, biology, and animal behavior, Morrison crafts a multi-faceted argument in favor of using animals in research. The result is a thought-provoking, intelligent, and fair-minded discussion of an incredibly charged subject: the past and present of animals' relationships with humans, and how and why we should be able to use them as we do.

**Eastern Orthodox Christianity and Animal Suffering** Christine Nellist, 2018-10-25 This book is the first academic work in Eastern Orthodox theological literature on the subject of animal suffering and human soteriology. It represents a natural progression of the contemporary Eastern Orthodox academic debate on the environment and will be of interest not only to academic scholars in theology, religion, philosophy, and ethics, but also to the wider Christian and secular communities. Using Biblical and Patristic teachings together with new social science research and contemporary science, it presents arguments that animal suffering is against God's Will and that the abuse or misuse of animals or indifference to animal suffering will result in negative consequences for human salvation. The book posits a revisionist interpretation of the Noahic narrative when addressing the challenging question of why God allows the dispensation of animals as food and offers compelling arguments on why the contemporary animal food production industries and animal testing model should be rejected.

Bioethics Udo Schüklenk, Peter Singer, 2021-08-11 The new edition of the classic collection of key readings in bioethics, fully updated to reflect the latest developments and main issues in the field. For more than two decades, *Bioethics: An Anthology* has been widely regarded as the definitive single-volume compendium of seminal readings on both traditional and cutting-edge ethical issues in biology and medicine. Haynes,2008-07-27 Members of the animal welfare science community which includes both scientists and philosophers have illegitimately appropriated the concept of animal welfare by claiming to have given a scientific account of it that is more objectively valid than the more sentimental account given by animal liberationists This strategy has been used to argue for merely limited reform in the use of animals This strategy was initially employed as a way of sympathetically responding to the abolitionist claims of anti vivisectionists who objected to the use of animals in research It was subsequently used by farm animal scientists The primarily reformist as opposed to abolitionist goals of this community make the false assumption that there are conditions under which animals may be raised and slaughtered for food or used as models in scientific research that are ethically acceptable The tendency of the animal welfare science community is to accept this assumption as their framework of inquiry and thus to discount certain practices as harmful to the interests of the animals that they affect For example animal welfare is conceptualized in such a way that death does not count as harmful to the interests of animal nor prolonged life a benefit *Routledge Handbook of Animal Welfare* Andrew Knight,Clive Phillips,Paula Sparks,2022-08-15 This handbook presents a much needed and comprehensive exploration of the rapidly growing fields of animal welfare and law In recent years there has been increasing attention paid to our complex multifaceted relationships with other animals and in particular the depth and breadth of various societal uses of animals This has led to a reconsideration of their moral and social status which has sometimes challenged the interests of those who use animals In such a contested domain sound evidence and reasoning become particularly important Through firm commitment to such principles this book explores the biological foundations for the moral consideration of animals and for evolving conceptualisations of animal welfare It reviews

in detail the welfare concerns associated with numerous forms of animal use The inclusion of key recent developments such as climate change pandemics and antimicrobial resistance ensures this text is among the most current in its field The ethical implications of the various uses of animals by society are considered and chapters provide important recommendations for reforms of practice law or policy The status of animal law internationally and in major world regions is reviewed Finally the book considers human behavioural change and strategies for improving stakeholder communication and education The handbook is essential reading for students and scholars of animal welfare animal law and animal ethics everywhere and for policy makers and other professionals working in the animal welfare sector

*Animal Rights* Kevin Hile,2009 From questions over whether it is appropriate to eat meat or to wear fur or leather this title examines all sides of this very controversial issue

**Animal Lives Matter** Raymond Wacks,2024-02-13 *Animal Lives Matter* provides a comprehensive analysis of the legal philosophical and ethical aspects of animal rights It argues that the subject extends beyond the matter of our obligations towards animals to include our wider responsibilities for protecting the environment Drawing on numerous moral political legal religious and philosophical theories including utilitarianism deontology rights theory social contractarianism and the capabilities approach the author meticulously examines the questions of sentience speciesism personhood and human exceptionalism Lucid nuanced and academically rigorous this important book will be an essential resource for scholars of law politics philosophy ethics as well as policy makers and the general reader

*The Rise and Fall of Animal Experimentation* Richard J. Miller,2023 Written by a scientist with over 40 years of laboratory experience *The Rise and Fall of Animal Experimentation* critically examines the assumption that animal experimentation is necessary to the advancement of biomedical research whether animal based research achieves its aims and if there are alternatives to performing animal based science

*Bleating Hearts* Mark Hawthorne,2013-11-29 Comprehensive and hard hitting *Bleating Hearts* examines the world's vast exploitation of animals from the food fashion and research industries to the use of other species for sport war entertainment religion labor and pleasure

**Perspectives on Human-Animal Communication** Emily Plec,2013-01-04 Despite its inherent interdisciplinarity the Communication discipline has remained an almost entirely anthropocentric enterprise This book represents early and prominent forays into the subject of human animal communication from a Communication Studies perspective an effort that brings a discipline too long defined by that fallacy of division human or nonhuman into conversation with animal studies biosemiotics and environmental communication as well as other recent intellectual and activist movements for reconceptualizing relationships and interactions in the biosphere This book is a much needed point of entry for future scholarship on animal human communication as well as the whole range of communication possibilities among the more than human world It offers a groundbreaking transformation of higher education by charting new directions for communication research policy formation and personal and professional practices involving animals

**The Emotional Lives of Animals** Marc Bekoff,2024-04-09 A seminal exploration of animal emotion sentience and

cognition revised and expanded to incorporate a surge of new science When award winning scientist Marc Bekoff penned the first edition of this book in 2007 he predicted that over time our understanding of animal cognition and emotion would grow richer more accurate and possibly different Since then not only has the field seen an explosion of new and startling research but the popular interest in the subject has grown as well spawning countless podcasts articles and bestselling books Bekoff skillfully blends extraordinary stories of animal joy empathy grief embarrassment anger and love with the latest scientific research confirming the existence of emotions that common sense and experience have long implied Filled with light humor and compassion *The Emotional Lives of Animals* is a clarion call for reassessing both how we view and how we treat animals

*Smitten by Giraffe* Anne Innis Dagg, 2016-10-01 When Anne Innis saw her first giraffe at the age of three she was smitten She knew she had to learn more about this marvellous animal Twenty years later now a trained zoologist she set off alone to Africa to study the behaviour of giraffe in the wild Subsequently Jane Goodall and Dian Fossey would be driven by a similar devotion to study the behaviour of wild apes In *Smitten by Giraffe* the noted feminist reflects on her scientific work as well as the leading role she has played in numerous activist campaigns On returning home to Canada Anne married physicist Ian Dagg had three children published a number of scientific papers taught at several local universities and in 1967 earned her PhD in biology at the University of Waterloo Dagg was continually frustrated in her efforts to secure a position as a tenured professor despite her many publications and exemplary teaching record Finally she opted instead to pursue her research as an independent citizen scientist while working part time as an academic advisor Dagg would spend many years fighting against the marginalization of women in the arts and sciences Boldly documenting widespread sexism in universities while also discussing Dagg's involvement with important zoological topics such as homosexuality infanticide sociobiology and taxonomy *Smitten by Giraffe* offers an inside perspective on the workings of scientific research and debate the history of academia and the rise of second wave feminism A new preface relates Dagg's experience as the subject of the documentary *The Woman Who Loves Giraffes* **People, Property, Or Pets?** Marc D.
