Philip E. Harrold

Sacred Estrangement:

Sacred Estrangement Peter A. Dorsey, 1993-07-01 Sacred Estrangement analyzes certain works by important American writers and thinkers in the context of the rhetoric of conversion. Such analysis is especially valuable because it provides a reliable index of the relationship between the self and larger communities. Traditionally, conversion has served a socializing function, signifying that one has come into alignment with certain linguistic, behavioral, and cultural expectations. The socialization process is particularly apparent in the Christian conversion narratives of the seventeenth through nineteenth centuries, by publicly testifying to a conversion experience, believers became empowered members not only of God's elect community but also of a local population. As modern autobiography developed in the eighteenth and nineteenth centuries, the Christian pattern was secularized and individualized. Conversion became a model for many kinds of psychological change. With the coming of the twentieth century, however, the authors upon whom Peter Dorsey focuses, including William and Henry James, Henry Adams, Edith Wharton, Ellen Glasgow, Zora Neale Hurston, and Richard Wright, radically revised conversion rhetoric. If conversion had traditionally linked the search for illumination with the search for a defined social role, these writers increasingly used conversion as an index of estrangement from mainstream America. Dorsey documents this profound change in the way American intellectuals defined the self, not in terms of personal orientation toward or away from a given community, but as a resistance to such an orientation, altogether, as if social forces, by their nature, were a threat to personal identity.

The Self and the Sacred Rodger Milton Payne, 1998 From about 1740 to 1850, evangelical Protestantism became a major cultural force in virtually all areas of America. Emerging from this religious movement was a rich vernacular literature of conversion narratives and spiritual autobiographies, writings in which believers described their own salvation in hopes of converting others. In *The Self and the Sacred*, Rodger M. Payne examines these neglected texts in depth, focusing particularly on what they reveal about notions of selfhood and how those notions were incorporated into Christian orthodoxy. As Payne explains, conversion narratives point to a fascinating paradox that became evident among evangelicals as they were confronted by the disruptions and discontinuities marking their culture's passage into modernity. On the one hand, these narratives asserted the traditional Christian values of humility and self-effacement, an annihilation of the self in the divine. On the other hand, they created a discourse that allowed one to embrace the modern idea of an autonomous self only by speaking from personal experience. Could a convert testify to the power of God? Despite protests to the contrary, Payne writes, the central character of any conversion account, spiritual diary, or spiritual autobiography was the convert, not God. Using the theology of Jonathan Edwards as a key example, Payne shows how Puritan piety encouraged the development of autobiographical spiritual narratives. He goes on to explain the ways in which the discourse of conversion functioned apart from the control of the church and marked the growth of evangelicalism into a discursive community. Finally, he considers how the language of conversion functioned as a rhetorical space in which believers situated themselves individually within

sacred space and time before turning back to society with a renewed regard for others Drawing throughout on the insights of such theorists as Michel Foucault and Victor Turner Payne s penetrating analysis reveals the early conversion accounts as mythic texts through which the modern self emerged The Author Rodger M Payne is associate professor of religious studies at Louisiana State University He is editor in chief of The Journal of Southern Religion an electronic publication available on the World Wide Web

Plundering Egypt G. P. Wagenfuhr, 2016-03-30 Christian engagement with economics tends to baptize preexisting sociopolitical perspectives thereby assuming a predetermined metaphysical narrative What happens when the story of the development of economics told from an anthropological and sociological perspective is juxtaposed with a biblical theology that focuses primarily on relationships Wagenfuhr tests a theological method grounded in three kinds of relationships Creator creature estrangement and Reconciler reconciled by comparing these with a fourth relationship the economic He argues that economic relationships and the worlds they create throughout history are the fruit of relationships estranged from God Much theology has committed itself to a metaphysic rooted in the reality of economics and has told a metaphysical story that tends to legitimize current sociopolitical realities Wagenfuhr argues that reconciliation with God is entirely subversive to economic relationships No economic relationship or system is established or justified by God but neither does he reject them Instead the love of God in Christ speaks the economic language of a people with a critical edge leading to loving subversion of any and all economic relationships This book argues for a robust theology that offers the post Christendom church a renewed sense of the total scale of God s mission of reconciliation

Political Conversion Don Waisanen, 2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

Russian Baptists and Spiritual Revolution, 1905-1929 Heather J. Coleman, 2005-04-20 a fascinating read for everyone interested in Russia religion and modernity Nadieszda Kizenko In the early 20th century Baptists were the fastest growing non Orthodox religious group among Russians and Ukrainians Heather J Coleman traces the development of Baptist evangelical communities through a period of rapid industrialization war and revolution when Russians found themselves

asking new questions about religion and its place in modern life Baptists faith helped them navigate the problems of dissent of order and disorder of modernization and westernization and of national and social identity in their changing society Making use of newly available archival material this important book reveals the ways in which the Baptists own experiences and the widespread discussions that they generated illuminate the emergence of new social and personal identities in late Imperial and early Soviet Russia the creation of a public sphere and a civic culture and the role of religious ideas in the modernization process

Kierkegaard and the Self Before God Simon D. Podmore, 2011-02 Simon D Podmore claims that becoming a self before God is both a divine gift and an anxious obligation Before we can know God or ourselves we must come to a moment of recognition How this comes to be as well as the terms of such acknowledgment are worked out in Podmore s powerful new reading of Kierkegaard As he gives full consideration to Kierkegaard s writings Podmore explores themes such as despair anxiety melancholy and spiritual trial and how they are broken by the triumph of faith forgiveness and the love of God He confronts the abyss between the self and the divine in order to understand how we can come to know ourselves in relation to a God who is apparently so wholly Other

Hell Without Fires Yolanda Pierce, 2021-10-05 Solid readings of well known and some remarkable neglected spiritual narratives pointing out compelling and novel features that distinguish the texts and their interpreter The conclusions Pierce draws are not entirely predictable and lead to interesting dislocations and complexities regarding how we assess religion in the context of slavery Kimberly Rae Connor University of San Francisco The first treatment of early African American spiritual narrative as a genre in its own right Pierce s work advances the study of African American literature and religion by resisting the dualistic thinking that has characterized most of the work in this field Katherine C Bassard Virginia Commonwealth University Hell Without Fires examines the spiritual and earthly results of conversion to Christianity for African American antebellum writers Using autobiographical narratives the book shows how black writers transformed the earthly hell of slavery into a New Jerusalem a place they could call home Yolanda Pierce insists that for African Americans accounts of spiritual conversion revealed personal transformations with far reaching community effects A personal experience of an individual s relationship with God is transformed into the possibility of liberating an entire community The process of conversion could result in miraculous literacy callings to preach a renewed resistance to the slave condition defiance of racist and sexist conventions and communal uplift These stories by five of the earliest antebellum spiritual writers George White John Jea David Smith Solomon Bayley and Zilpha Elaw create a new religious language that merges Christian scripture with distinct retellings of biblical stories with enslaved people of African descent at their center Showing the ways their language exploits the levels of meaning of words like master slavery sin and flesh Pierce argues that the narratives address the needs of those who attempted to transform a foreign god and religion into a personal and collective system of

beliefs The earthly hell without fires one of the writer s characterizations of everyday life for those living in slavery could become a place where an individual could be both black and Christian and religion could offer bodily and psychological healing Pierce presents a complex and subtle assessment of the language of conversion in the context of slavery Her work will be important to those interested in the topics of slave religion and spiritual autobiography and to scholars of African American and early American literature and religion

A Place Somewhat Apart Philip E. Harrold,2006-10-01 The story of secularization and religious disestablishment in American higher education is told from the standpoint of a lively community of professors students and administrators at the University of Michigan in the late nineteenth century This campus culture one of the most closely watched of its day sheds new light on the personal and cultural meanings of these momentous changes in American intellectual and public life Here we see how religion was not so much displaced or marginalized in the heyday of university reform as translated into new arenas of public service and scholarly pursuit The main characters in this story professors Calvin Thomas and Henry Carter Adams underwent profound religious crises of faith accompanied by major adjustments in their interpersonal relationships Together with students and administrators their lives constituted a communal biography of religious deconversion A close examination of these private and public worlds provides a more complete understanding of the dynamics behind new academic policies and intellectual innovations in a leading public university The non cognitive intersubjective gendered quasi religious shadings of academic modernism and early pragmatist philosophy in particular come to light in vivid ways As John Dewey later observed Michigan became an experimental laboratory for new meanings to unfold new acts to propose
