Towards African Missiology Francis Anekwe Oborji, 2020-11-22 This volume reflects on a credible and a new language of Christian mission in Africa The author s thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ In other words the scope of missiology needs a contextualized interpretation Thus he proposes a proactive language for missiology in Africa thereby underlining Africans as normal and full members of the human family In the light of the Vatican II mission theology the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy Interestingly the arguments in this volume opens the space for the on going discussions in the mission of the church in the era of secularization and post modernity Consequently a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves

for survival which also addresses Africans in the spirit of cooperation **The ^AOxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer,R. Scott Appleby,David Little,2015-03-02 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **The Crucifixion of the Warrior God**

Boyd,2017-04-17 The Crucifixion of the Warrior God in an epic constructive investigation takes up the set of dramatic tensions between depictions of divinely sanctioned violence in Scripture and the message and life of peace of Jesus centering the New Testament Over two volumes author Gregory A Boyd argues that we must take seriously the full range of Scripture as inspired and the centrality of the crucified and risen Christ as the supreme revelation of God **Constructing Religious Martyrdom** John Soboslai,2024-06-27 Martyrdom is a phenomenon common to many of the world s religious traditions But why In this study John Soboslai offers insights into the practices of self sacrifice within specific sociopolitical contexts Providing a new understanding of martyrdom through the lens of political theology he analyzes discourses and performances in four religious traditions during social and political crises beginning with second century Christianity in Asia Minor where the term martyr first took its meaning He also analyzes Shi a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia global Sikhism during World War I where martyrs stood for and against the British Raj and twenty first century Tibetan Buddhism where self immolators used their bodies in opposition to the programs of the People s Republic of China Presenting a new theory of martyrdom linked to constructions of sovereign authority Soboslai reveals common features of self sacrifice and demonstrates how bodily performances buttress conceptions of authority

Educating for Cosmopolitanism: Lessons from Cognitive Science and Literature M. Bracher,2013-10-31 Drawing on developments in cognitive science Bracher formulates pedagogical strategies for teaching literature in ways that develop students cognitive capabilities for cosmopolitanism the pursuit of global equality and justice Several staple classroom texts such as *Things Fall Apart* provide detailed examples for teaching practices *Holy War in Judaism* Reuven Firestone,2012-07-12 Holy war sanctioned or even commanded by God is a common and recurring theme in the Hebrew Bible Rabbinic Judaism however largely avoided discussion of holy war in the Talmud and related literatures for the simple reason that it became dangerous and self destructive Reuven Firestone s *Holy War in Judaism* is the first book to consider how the concept of holy war disappeared from Jewish thought for almost 2000 years only to reemerge with renewed vigor in modern times The revival of the holy war idea occurred with the rise of Zionism As the necessity of organized Jewish engagement in military actions developed Orthodox Jews faced a dilemma There was great need for all to engage in combat for the survival of the infant state of Israel but the Talmudic rabbis had virtually eliminated divine authorization for Jews to fight in Jewish armies Once the notion of divinely sanctioned warring was revived it became available to Jews who considered that the historical context justified more aggressive forms of warring Among some Jews divinely authorized war became

associated not only with defense but also with a renewed kibbush or conquest a term that became central to the discourse regarding war and peace and the lands conquered by the state of Israel in 1967 By the early 1980 s the rhetoric of holy war had entered the general political discourse of modern Israel In *Holy War in Judaism* Firestone identifies analyzes and explains the historical conceptual and intellectual processes that revived holy war ideas in modern Judaism *In Search of Solutions* Clinton Bennett,2014-12-05 Religion has played a role in conflict throughout history with religious scriptures often being used to justify violence In *Search of Solutions* evaluates the role of religion in Northern Ireland Bosnia and Israel Palestine The book argues that religion has a tendency towards conflict and that peace is best guaranteed when human individuals commune directly with the divine without the mediation of organized religions Different approaches to the reading of scriptures are introduced drawing on post modern theory In *Search of Solutions* will be invaluable for the student seeking a clear overview of both the theory and the practice of religion in conflict resolution *The Religious Aspects of War in the Ancient Near East, Greece, and Rome* Krzysztof Ulanowski,2016-07-11 *The Religious Aspect of Warfare in the Ancient Near East Greece and Rome* is a volume dedicated to investigating the relationship between religion and war in antiquity in minute detail The nineteen chapters are divided into three groups the ancient Near East Greece and Rome They are presented in turn and all possible aspects of warfare and its religious connections are investigated The contributors focus on the theology of war the role of priests in warfare natural phenomena as signs for military activity cruelty piety the divinity of humans in specific martial cases rituals of war iconographical representations and symbols of war and even the archaeology of war As editor Krzysztof Ulanowski invited both well known specialists such as Robert Parker Nicholas Sekunda and Pietro Mander to contribute as well as many young talented scholars with fresh ideas From this polyphony of voices perspectives and opinions emerges a diverse but coherent representation of the complex relationship between religion and war in antiquity *Genocidal Crimes* Alex Alvarez,2009-12-04 *Genocidal Crimes* draws upon the extensive criminological literature on criminality and violence to provide a comprehensive and contemporary analysis of genocide Written in an accessible style this book differs from much of the writing on genocide in that it explicitly relies on criminological theory and research to help provide new insight into the nature and functioning of genocide *Religious War* Fouad Sabry,2024-05-26 What is Religious War A religious war or a war of religion sometimes also known as a holy war is a war which is primarily caused or justified by differences in religion and beliefs In the modern period there are frequent debates over the extent to which religious economic ethnic or other aspects of a conflict are predominant in a given war The degree to which a war may be considered religious depends on many underlying questions such as the definition of religion the definition of religious war and the applicability of religion to war as opposed to other possible factors Answers to these questions heavily influence conclusions on how prevalent religious wars have been as opposed to other types of wars How you will benefit I Insights and validations about the following topics Chapter 1 Religious war Chapter 2 Religious persecution

Chapter 3 Persecution of Muslims Chapter 4 Crusading movement Chapter 5 Religious discrimination Chapter 6 Religious violence Chapter 7 Religious fanaticism Chapter 8 Communal violence Chapter 9 Christianity and violence Chapter 10 Freedom of religion in Asia by country II Answering the public top questions about religious war Who this book is for Professionals undergraduate and graduate students enthusiasts hobbyists and those who want to go beyond basic knowledge or information for any kind of Religious War **Hospitality and the Other** Author, Amos Yong,2015-03-04 *Sin and Salvation in Reformation England* Jonathan Willis,2016-03-03 Notions of which behaviours comprised sin and what actions might lead to salvation sat at the heart of Christian belief and practice in early modern England but both of these vitally important concepts were fundamentally reconfigured by the reformation Remarkably little work has been undertaken exploring the ways in which these essential ideas were transformed by the religious changes of the sixteenth century In the field of reformation studies revisionist scholarship has underlined the vitality of late medieval English Christianity and the degree to which people remained committed to the practices of the Catholic Church up to the eve of the reformation including those dealing with the mortification of sin and the promise of salvation Such popular commitment to late medieval lay piety has in turn raised questions about how the reformation itself was able to take root Whilst post revisionist scholars have explored a wide range of religious beliefs and practices such as death providence angels and music there has been a surprising lack of engagement with the two central religious preoccupations of the vast majority of people To address this omission this collection focusses upon the history and theology of sin and salvation in reformation and post reformation England Exploring their complex social and cultural constructions it underlines how sin and salvation were not only great religious constants but also constantly evolving in order to survive in the rapidly transforming religious landscape of the reformation Drawing upon a range of disciplinary perspectives historical theological literary and material art historical to both reveal and explain the complexity of the concepts of sin and salvation the volume further illuminates a subject central to the nature and success of the Reformation itself Divided into four sections Part I explores reformers attempts to define and re define the theological concepts of sin and salvation while Part II looks at some of the ways in which sin and salvation were contested through confessional conflict polemic poetry and martyrology Part III focuses on the practical attempts of English divines to reform sin with respect to key religious practices while Part IV explores the significance of sin and salvation in the lived experience of both clergy and laity Evenly balancing contributions by established academics in the field with cutting edge contributions from junior researchers this collection breaks new ground in what one historian of the period has referred to as the social history of theology *Extremist Islam* Kumar Ramakrishna,2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by

challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia

Religion and Violence Jeffrey Ian Ross, 2015-03-04 First Published in 2015 Daily newspaper headlines talk radio and cable television broadcasts and Internet news web sites continuously highlight the relationship between religion and violence These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan Iraq Israel Pakistan and elsewhere and assassinations of doctors who perform abortions by

white American Christian true believers in the United States How does one make sense of the role of religion in violence and of perpetrators of violence who cite religion as a motivation This encyclopedia includes a wide range of entries biographies of key figures historical events religious groups countries and regions where religion and violence have intersected and practices rituals and processes of religious violence Religious Diversity--What's the Problem? Rita M. Gross, 2014-04-24

Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture
