Sacred Mountain Sacred River:

Sacred Mountain Sacred River, **The Roaring of the Sacred River** Steven Foster, Meredith Little, 1989 The native American vision quest a ritual of self discovery An opportunity to confront one's fears and to embrace one's dreams A challenge to take charge of one's own life The gift of being changed forever In this companion to *The Book of the Vision Quest* Steven Foster and Meredith Little elaborate on an ancient rite of passage that has much needed resonance for the seeker of today Leading us step by step through the wilderness toward the Sacred Mountain it is a story not just of personal healing but of sacrifice love and the need to share this healing vision with others Back cover *Invading the Mountain of Darkness* Sr. Jim Barger, 2011-08-22 An amazing story of a quest to invade Satan's strongholds on behalf of an enslaved nation the miracles along the way and a plea for intercession on their behalf *Spirit of the Environment* David E Cooper, Joy A Palmer, 2004-06-02 Spirit of the Environment brings spiritual and religious concerns to environmental issues Providing a much needed alternative to exploring human beings relationship to the natural world through the restrictive lenses of science ecology or even morality this book offers a fresh perspective to the field Spirit of the Environment addresses the environmental attitudes of the major religions the relationship between art and nature the Gaia hypothesis the non instrumental values which have inspired environmental concern Contributors range from a variety of disciplines including philosophy comparative religion education and social anthropology providing students with an intriguing survey on the role that spirituality and religion play in nature This is a vital collection for those eager to examine the relationship between the spiritual and the environment *Sacred Natural Sites* Bas Verschuuren, Jeffrey McNeely, Robert Wild, Gonzalo Oviedo, 2012-06-25 This book illustrates that sacred natural sites although often under threat exist within and outside formally recognised protected areas and heritage sites Sacred sites may well be some of the last strongholds for building resilient networks of connected landscapes as well as forming important nodes for maintaining a dynamic cultural fabric in the face of global change The book therefore bridges the gap between approaches to the conservation of cultural and biological diversity It applies a multidisciplinary approach to recognizing understanding and managing sacred natural sites It provides examples of how economic benefits such as from tourism and fisheries can be compatible goals with the conservation of sacred biodiversity and thus advancing the welfare of both people and wildlife It concludes that conservation efforts are likely to be successful only if the cultural and spiritual values are taken into account together with the socio economic interests of the custodian communities and other relevant stakeholders from books google ocm hk *Meru Mountains.
