Indigenous and Christian Perspectives in Dialogue Allen G. Jorgenson, 2020-12-30 In *Indigenous and Christian Perspectives in Dialogue* Allen G Jorgenson asks what Christian theologians might learn from Indigenous spiritualities and worldviews Jorgenson argues that theology in North America has been captive to colonial conceits and has lost sight of key resources in a post Christendom context The volume is especially concerned with the loss of a sense of place evident in theologies written without attention to context Using a comparative theology methodology wherein more than one faith tradition is engaged in dialogical exploration Jorgenson uses insights from Indigenous understandings of place to illumine forgotten or obstructed themes in Christianity In this constructive theological project kairotic places are named as those that are kenotic harmonic poetic and especially enlightening at the margins where we meet the religious other *Making the Best of It* John G. Stackhouse Jr., 2008-04-02 What should be the Christian s attitude toward society When so much of our contemporary culture is at odds with Christian beliefs and mores it may seem that serious Christians now have only two choices transform society completely according to Christian values or retreat into the cloister of sectarian fellowship In *Making the Best of It* John Stackhouse explores the history of the Christian encounter with society the biblical record and various theological models of cultural engagement to offer a more balanced and fruitful alternative to these extremes He argues that rather than trying to root up the weeds in the cultural field or trying to shun them Christians should practice persistence in gardening God s world and building toward the New Jerusalem Examining the lives and works of C S Lewis Reinhold Niebuhr and Dietrich Bonhoeffer for example and direction Stackhouse suggests that our mission is to make the most of life in the world in cooperation with God s own mission of redeeming the world he loves This model takes seriously the pattern of God s activity in the Bible and in subsequent history of working through earthly means through individuals communities and institutions that are deeply flawed but nonetheless capable of accomplishing God s purposes Christians must find a way to live in this world and at the same time do work that honors God and God s plan for us In an era of increasing religious and cultural tensions both internationally and domestically the model that Stackhouse develops discourages the all or nothing attitudes that afflict so much of contemporary Christianity Instead he offers a fresh and refreshingly nuanced take on the question of what it means to be a Christian in the world today **Myths America Lives By** Richard T. Hughes, 2018-09-05 Six myths lie at the heart of the American experience Taken as aspirational four of those myths remind us of our noblest ideals challenging us to realize our nation s promise while galvanizing the sense of hope and unity we need to reach our goals Misused these myths allow for illusions of innocence that fly in the face of white supremacy

the primal American myth that stands at the heart of all the others
