Ludwig, 2000-01 *Sacred Paths of the West* Theodore M Ludwig, 2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life **Understanding World Religions** Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world s many religions Understanding World Religions presents religion as a complex and intriguing matrix of history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham s decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam **The Illustrated Guide to World Religions** Michael David Coogan, 1998 Graced with rich illustrations and written by a team of eminent scholars this book presents a wealth of information on faiths around the world

John G. Stackhouse Jr., 2020-08-21 Maybe Christianity is actually true Maybe it is what believers say it is But at least two problems make the thoughtful person hesitate First there are so many other options How could one possibly make one's way through them to anything like a rational and confident conclusion Second why do so many people choose to be Christian in the face of so many reasons not to be Christian Yes many people grow up in Christian homes and in societies but many more do not Yet Christianity has become the most popular religion in the world Why This book begins by taking on the initial challenge as it outlines a process how to think about religion in a responsible way rather than settling for such soft vagaries as faith and feeling It then clears away a number of misunderstandings from the basic story of the Christian religion misunderstandings that combine to domesticate this startling narrative and thus to repel reasonable people who might otherwise be intrigued The second half of the book then looks at Christian commitment positively and negatively Why do two billion find this religion to be persuasive thus making it the most popular explanation of everything in human history At the same time how does Christianity respond to the fact that so many people find it utterly implausible especially because so many Christians insist that theirs is the only way to God and because of the problem of evil that seems to undercut everything Christianity asserts Grounded in scholarship but never ponderous Can I Believe refuses to dodge the hard questions as it welcomes the intelligent inquirer to give Christianity at least one good look
