Saddam City:

Contested City Alissa Walter, 2025-02-04 *Contested City* offers a history of state society relations in Baghdad exploring how city residents managed through periods of economic growth sanctions and war from the oil boom of the 1950s through the withdrawal of US troops in 2011 Interactions between citizens and their rulers shaped the social fabric and political realities of the city Notably low ranking Ba th party officials functioned as crucial intermediaries deciding how regime policies would be applied Charting the social economic and political transformations of Iraq s capital city Alissa Walter examines how national policies translated into action at the local everyday level With this book Walter reveals how authoritarian governance worked in practice She follows shifts in mid century housing and urban development the impact of the Iran Iraq and Gulf Wars on city life and the manipulation of food rations and growth of black markets Reading citizen petitions to the government Walter illuminates citizens self advocacy and the important role of low ranking party officials and state bureaucrats embedded within neighborhoods The US occupation and ensuing sectarian fighting upended Baghdad s neighborhoods through violent displacement and the collapse of basic state services This power vacuum paved the way for new power brokers including militias and neighborhood councils to compete for influence on the local level *The Human Terrain System* Christopher J. Sims, 2015 *The Human Terrain System* embedded civilians primarily in brigade combat teams BCTs in Iraq and Afghanistan between 2007 and 2014 to act as a collection and dispersal mechanism for sociocultural comprehension Set against the backdrop of the program s evolution the experiences of these social scientists clarifies the U S Army s decision to integrate social scientists at the tactical level in conflict Based on interviews program documents material from Freedom of Information Act requests and secondary sources this book finds a series of limiting factors inhibiting social science research at the tactical level common to both Iraq and Afghanistan Complexity in integrating civilians into the military decision making cycle in creating timely research with a high level of fidelity and in making granular research that resonated with brigade staff all contributed to inhibiting the overall effect of the Human Terrain System Yet while high operational tempo in contested spaces complicates social science research at the tactical level the author argues that there is a continued requirement for a residual capability to be maintained by the U S Army Related items Other resources produced by the Strategic Studies Institute US Army War College can be found here <https://bookstore.gpo.gov/agency/1609> *Weapon of Choice* U S Army Special Operations Forces in Afghanistan can be found here https://bookstore.gpo.gov/products/sku/008_029_00431_3 *Counterinsurgency Leadership in Afghanistan Iraq and Beyond* can be found here https://bookstore.gpo.gov/products/sku/008_046_00274_6 *Surging South of Baghdad The 3d Infantry Division and Task Force MARNE in Iraq 2007 2008* can be found here https://bookstore.gpo.gov/products/sku/008_029_00522_1 *Iraq and Persian Gulf Wars collection* can be found here https://bookstore.gpo.gov/catalog/us/military/history/battles/wars/iraq/persian_gulf_wars *Training Humans for the Human Domain* can be found here https://bookstore.gpo.gov/products/sku/008_000_01173_7 *Paid to Perform Aligning Total Military*
