## **Saddest Country On Assignment In Colombia:**

**Saddest Country** Nicholas Coghlan, 2004-10-01 Nicholas Coghlan arrived in Bogota in 1997. A political officer for the Canadian government, it was his responsibility to report on Colombia's complex civil conflict, lobby the Colombian authorities on human rights, and provide visible moral support and other assistance to the victims of the war. Soon after he arrived, it became apparent that he could not fulfill these functions from the relative peace and security of Bogota, and he found himself traveling to remote and sometimes dangerous locations rarely visited by outsiders: the coca fields of Putumayo, the swamps of the Darien Gap, the vast savannahs of the Llano, meeting with everyone from impoverished inhabitants of the barrios to guerrilla leaders, from human rights activists to military commanders. **Colombia's Forgotten Frontier** Lesley Wylie, 2013 The first literary geography of the Putumayo, exploring its history and enduring significance through literature of and on this Colombian region by Latin American, US, and European writers. **Plan Colombia** John Lindsay-Poland, 2018-10-04 For more than fifty years, the United States supported the Colombian military in a war that cost over 200,000 lives. During a single period of heightened US assistance, known as Plan Colombia, the Colombian military killed more than 5,000 civilians. In *Plan Colombia*, John Lindsay-Poland narrates a 2005 massacre in the San Jos de Apartad Peace Community and the subsequent investigation, official cover-up, and response from the international community. He examines how the multibillion-dollar US military aid and official indifference contributed to the Colombian military's atrocities. Drawing on his human rights activism and interviews with military officers, community members, and human rights defenders, Lindsay-Poland describes grassroots initiatives in Colombia and the United States that resisted militarized policy and created alternatives to war. Although they had few resources, these initiatives offered models for constructing just and peaceful relationships between the United States and other nations. Yet despite the civilian death toll and documented atrocities, Washington DC considered Plan Colombia's counterinsurgency campaign to be so successful that it became the dominant blueprint for US military intervention around the world. **Revolutionary Social Change in Colombia** James J. Brittain, 2009-12-09 Although they are one of the most powerful military forces in Latin American history, little is known about the Revolutionary Armed Forces of Colombia, People's Army (FARC-EP). This book explains why this political-military movement came into existence and assesses whether the methods employed by the insurgency have the potential to free those marginalised in Colombia. By evaluating the FARC-EP's actions, ideological construction, and their theoretical placement, the book gauges how this guerrilla movement relates to revolutionary theory and practice and through what tangible mechanisms, if any, they are creating a new Colombia. **Saddest Country** Nicholas Coghlan, 2004 Nicholas Coghlan's travels took him off the beaten path into the disparate corners of the country: from the coca fields of Putumayo to the swamps of Darien Gap to the vast savannahs of the Llano, where he confronted the stark realities of narcotrafficking, internal displacement, and human rights abuses. His courageous book reveals the workings of two guerrilla armies, bands of right-wing paramilitaries, and the

squandered potential of Andres Pastrana's presidential campaign and victory over the unlamented incumbent Ernesto Samper. Pictured from the outside as a menacing narcodemocracy, the intricate truth Coghlan uncovers is at once more horrifying and more tragic. Colombia, marked by daily violence and breathtaking beauty, is the saddest country.

**Commodifying Violence in Literature and on Screen** Alejandro Herrero-Olaizola, 2021-10-18. This book traverses the cultural landscape of Colombia through in-depth analyses of displacement, local and global cultures, human rights abuses, and literary and media production. Through an exploration of the cultural processes that perpetuate the darker side of Latin America for global consumption, it investigates the condition that has led writers, filmmakers, and artists to embrace purposefully or not the incessant violence in Colombian society as the object of their own creative endeavors. In this examination of mass-marketed cultural products such as narco stories, captivity memoirs, gritty travel narratives, and films, Herrero-Olaizola seeks to offer a hemispheric approach to the role played by Colombia in cultural production across the continent where the illicit drug trade has made significant inroads. To this end, he identifies the Colombian condition within the parameters of the global economy while concentrating on the commodification of Latin America's violence for cultural consumption. **Far in the Waste Sudan** Nicholas Coghlan, 2005. In 2000, with controversy raging over the presence in Sudan of Canada's largest independent oil and gas producer, Ottawa decided to open a watching post in Khartoum. Nicholas Coghlan was recalled from his assignment in Columbia, another war zone, to set up and run the first diplomatic presence in the largest country in Africa. In diplomatic circles, you cry when you hear you've been posted to Sudan, says Coghlan. But you cry even more when you leave. *Far in the Waste Sudan* weaves together a personal and political account of Coghlan's three-year posting. Oil-rich and on the front line of the divide between Africa and the Middle East, and between the West and Islam, Sudan is one of Africa's most inaccessible countries. *Far in the Waste Sudan* is an excellent introduction that takes the reader from Khartoum, former home to Carlos the Jackal and Osama bin Laden, to the Wadi Halfa desert where Canadian travellers played a key role to lift the siege of 1885 and rescue British General Charles Gordon, to the rebel-controlled swamps and jungle lowlands of Equatoria where the rebel People's Liberation Army have held sway for twenty years. Coghlan explores the mountain ranges of Darfur and the forgotten national park of Dinder and races a fifty-year-old steel sailing dinghy on the Blue Nile. With new conflicts smouldering in Darfur, *Far in the Waste Sudan* also explores the moral and ethical dilemmas of delivering aid to a country at war with itself. Coghlan's rare first-hand account of Sudan offers a unique perspective that leaves an indelible impression.

**Afterwords** Gar Pardey, 2015-12-03. *Afterwords* brings together the commentaries, speeches, and book reviews of Gar Pardey following his retirement from the Canadian Foreign Service.
