Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

The Truth of Realism John Walker, 2017-12-02 In his new book Walker offers a radical reassessment of the German realist novel in the nineteenth century Especially in the English speaking world

German narrative realism has persistently been interpreted as the literary expression of an ideology of the aesthetic. The German realist novel is alleged to reflect philosophical idealism to reject the prose of modern society in favour of the poetry of the inner aesthetic life. This book challenges that received view. Walker argues that German narrative realism should be read not only in relation to but in crucial respects against the dominant philosophical idiom of nineteenth century Germany. German narrative realism often functions as a critique of the idea and ideology of inwardness in nineteenth century German culture. To understand this the author argues we must reread German realist novels above all as narratives not as the supposed reflection of philosophical categories. The core of the book is therefore the close reading of eight of the best known realist novels in German by Keller, Raabe and Fontane. This reading shows how the German realist novel far from transposing the assumptions of aesthetic idealism into narrative form exposes the real consequences of those assumptions in the culture and society of its time. John Walker is Head of the School of Languages, Linguistics and Culture at Birkbeck University of London.
