- Relación triádica en semiosis: signo que funciona como *representamen* (representa un objeto → siendo el objeto una idea / + otro signo que es *interpretante*: que permite interpretar el representamen).
- A su vez, cada elemento también está compuesto por estos tres elementos, por ende es una *red de signos* que son interpretados por otros signos, *signos que se interpretan mutuamente*.
- Se movilizan estas redes de significados.
- Por ende, la semiosis es un proceso inconcluso; no se cierra nunca, no se termina nunca / ojo que no es lo mismo que decir que sea infinito, sino que quiere decir que es un proceso abierto.

Hermenegildo and the Jesuits Stefano Muneroni,2017-06-27 This book explores the cultural conditions that led to the emergence and proliferation of Saint Hermenegildo as a stage character in the sixteenth and seventeenth centuries It

considers how this saint became a theatrical trope enabling the Society of Jesus to address religious and secular concerns of the post Tridentine Church and to discuss political issues such as the supremacy of the pope over the monarch and the legitimacy of regicide. The book goes on to explain how the Hermenegildo narrative developed outside of Jesuit colleges through works by professional dramatist Lope de Vega and Mexican nun Juana Inés de la Cruz. Stefano Muneroni takes a global approach to the staging of Hermenegildo tracing the character's journey from Europe to the Americas from male to female authors and from a sacrificial to a sacramental paradigm where the emphasis shifts from bloodletting to spiritual salvation. Given its interdisciplinary approach this book is geared toward scholars and students of theatre history, religion and drama, early modern theology, cultural studies, romance languages and literature, and the history of the Society of Jesus.

Simposio Internacional, 1986 Las TIC en la enseñanza de la Teoría de la Literatura María Isabel Navas Ocaña, 2020-11-23
En los últimos quince años la Universidad española ha hecho un importante esfuerzo de incorporación de las TIC a la enseñanza. Consideradas como uno de los ejes que vertebran la llamada sociedad del conocimiento se han constituido a su vez en un pilar fundamental del Espacio Europeo de Educación Superior. El rea de Teoría de la Literatura y Literatura Comparada no ha sido ajena al impacto que las nuevas tecnologías han tenido en el proceso de enseñanza y aprendizaje. De hecho en la Universidad de Almería la mayoría de las asignaturas adscritas a esta rea de conocimiento en los nuevos grados de Filología Hispánica y Estudios Ingleses implantados desde 2010 se han impartido en algún momento en modalidad semipresencial. Pues bien precisamente los cursos virtuales de las asignaturas específicas de estos títulos las Teorías literarias en España o las Teorías literarias en Gran Bretaña y Estados Unidos son los que voy a ofrecer aquí como muestra de la utilización de las TIC en la enseñanza de la Teoría de la Literatura.

El encuentro de Festivales Iberoamericanos de Artes Escénicas (EFIBERO) nació como un proyecto especial en el seno del Programa Iberescena, espacio de cooperación intergubernamental destinado al desarrollo del teatro, la danza y el circo en la región cultural iberoamericana. Desde su creación en 2006 este programa ha sido un espacio de enorme potencial para darle un impulso destacado al sector, como lo han sido también los organismos destinados al impulso específico de la actividad teatral en diversos países de la región. No solo Argentina cuenta con un Instituto dedicado específicamente al fomento de la actividad teatral, varios países latinoamericanos han creado también sus propios organismos estatales con la misma dirección. Sin embargo, la falta de evaluación de las políticas implementadas ha sido uno de los grandes déficits de estos ejemplos de gestión pública.
