Victoria Welby and the Science of Signs Susan Petrilli, 2015-01-31 Victoria Welby 1837 1912 dedicated her research to the relationship between signs and values She exchanged ideas with important exponents of the language and sign sciences such as Charles S Peirce and Charles S Ogden She examined themes she believed crucially important both in the use of signs and in reflection on signs But Welby s research can also be understood in ideal dialogue with authors she could never have met in real life such as Mikhail Bakhtin Susanne Langer and Genevieve Vaughan Welby contends that signifying cannot be constrained to any one system type of sign language field of discourse or area of experience On the contrary it is ever more developed enhanced and rigorous the more it develops across different fields disciplines and areas of experience For example to understand meaning Welby evidences the advantage of translating it into another word even from the same language or resorting to metaphor to express what would otherwise be difficult to conceive Welby aims for full awareness of the expressive potential of signifying resources Her reflections make an important contribution to problems connected with communication expression interpretation translation and creativity

Signs, Language and Listening Susan Petrilli, 2018-06 The sciences of signs and language are viewed in this book from the perspective of the philosophy of language Ultimately the aim is to develop a critique of sign processes and communication verbal and nonverbal in the sphere of anthroposemiosis and to search for their conditions of possibility their foundations If we agree that philosophy is dialogue opening to the other interrogation of monolingualism of monologism and again that philosophy calls for inventiveness innovation creativity such that cannot be repressed by the order of discourse by the limits of argumentation by the common places of language then the implications are interesting for our interpretation of what to understand by philosophy of language In fact rather than consider of language in the expression philosophy of language as indicating language as the object of study of philosophy this expression philosophy of language may be understood as indicating philosophy inherent in language itself that is the attitude the inclination to philosophy to philosophizing characteristic of language
