Reshaping Our National Parks and Their Guardians Kathy Mengak, 2012. This biography of the seventh director of the National Park Service brings to life one of the most colorful, powerful, and politically astute people to hold this position. George B. Hartzog Jr. served during an exciting and volatile era in American history. Appointed in 1964 by Secretary of the Interior Stewart Udall, he benefited from a rare combination of circumstances that favored his vision, which was congenial with both President Lyndon Johnson's Great Society and Udall's robust environmentalism. Hartzog led the largest expansion of the National Park System in history and developed social programs that gave the Service new complexion. During his nine-year tenure, the system grew by seventy-two units totaling 27 million acres, including not just national parks but historical and archaeological monuments and sites, recreation areas, seashores, riverways, memorials, and cultural units celebrating minority experiences in America. In addition, Hartzog sought to make national parks relevant and responsive to the nation's changing needs. **Senators of the United States** Diane B. Boyle, 1995. S. Doc. 103-34. Compiled by Jo Anne McCormick Quatannens. Diane B. Boyle, editorial assistant, prepared under the direction of Kelly D. Johnston, Secretary of the Senate. Lists scholarly works that profile the lives and legislative service of senators and their autobiographies and other published works. The Sagebrush State, 5th Edition Michael W. Bowers, 2018-08-15. Nevada's politics are in large measure the result of its turbulent history and harsh environment. Michael W. Bowers' concise volume explains the dynamics of the political formation process, which is strikingly unique among the fifty states. Even today, Nevada is unlike the other states in its politics and culture: it's economically right yet libertarian, the home of widespread gaming, and a 24/7 lifestyle. It has a high percentage of federally owned lands and has one of the highest rates of urbanism in the U.S. yet is often governed by rural legislators. This comprehensive and insightful explanation discusses how Nevada's history has shaped its political culture and how its government operates today. The Sagebrush State serves as a highly readable and accessible text for the study of Nevada's political history and constitution, which is a graduation requirement at the state's colleges and universities. The fifth edition is updated through 2017 and includes the full text of the state constitution with extensive annotations of all amendments to the original 1864 document.

The Money and the Power Sally Denton, Roger Morris, 2002-03-12. Las Vegas: the name evokes images of divorce and dice, gangsters and glitz. But beneath it all is a sordid history that is much more insidious and far-reaching than ever imagined. The Money and the Power is the most comprehensive look yet at Las Vegas and its breadth of influence. Based on five years of intensive research and interviewing, Sally Denton and Roger Morris reveal the city's historic network of links to Wall Street, international drug traffickers, and the CIA. In doing so, they expose the disturbing connections amongst politicians, businessmen, and the criminals that harness these illegal activities. Through this lucid and gripping indictment of Las Vegas,

Morris and Denton uncover a national ethic of exploitation violence and greed and provide a provocative reinterpretation of twentieth century American history Now this neon maelstrom of ruthlessness and greed stands to not as an aberrant sin city but as a natural outgrowth of the corruption and worship of money that have come to permeate American life

Senator Howard Cannon of Nevada Michael Vernetti, 2015-11-15 Howard Cannon 1912-2002 represented Nevada in the U S Senate from 1958 until 1982 and acquired a reputation as one of its most productive and influential members Because he was a modest man more comfortable with hard work than self aggrandizement he was also one of its most under appreciated Nonetheless Cannon influenced many major changes in American politics and policies during his time in office Born to a devout Mormon family in a small farming community in southwest Utah Cannon served in the Army Air Force during World War II and emerged from the war as a hero Soon he was part of the postwar migration of ambitious adventurous Americans to the booming desert city of Las Vegas where he practiced law and entered local politics In 1958 he was elected to the U S Senate and joined a group of influential young Democratic senators who were to play a major role in

shaping the country's future. His service on the Aeronautical and Space Sciences Committee and the Armed Services Committee led to major changes in the air travel industry including deregulation and to increased support for national military preparedness.

Nevada Politics & Government Don W. Driggs, 1996-01-01 Nevada's highly individualistic political culture has produced a conservative political philosophy in an open society. Economic developments resulting from mining and gambling reinforced and heightened the individualistic ethic that many early settlers brought to the frontier state. This ethic is also evident in the opposition of most Nevadans to big government, big labor, and big business. Belief in limited government partially explains the apparent anomaly of the electorate's backing a pro-choice position on abortion while opposing the Equal Rights Amendment. The book discusses the important roles played by Nevada's present U.S. senators in two of the state's ongoing controversies with the federal government: the longstanding water rights dispute between Native Americans backed by the federal government and Nevada's ranchers, and the decade-long fight against the establishment of the nation's first permanent nuclear waste depository at Yucca Mountain. Don W. Driggs is Professor of Political Science Emeritus at the University of Nevada, Reno. He is the author of *The Constitution of the State of Nevada: A Commentary*. Leonard E. Goodall is a professor of management and public administration at the University of Nevada, Las Vegas. He is the author of numerous works including *State Politics and Higher Education*.

Statesmen and Mischief Makers: Volume Iii Scott Crass, 2016-04-27 My first two volumes of *Statesmen and Mischief Makers* portrayed the stories of officeholders who had tremendous impact on politics at the national level, either by way of Presidential proximity, legislative accomplishments, or simply through living a life of idiosyncrasies that made a great anecdote. Or two. Governors and big city Mayors are no different. There were smart leaders, courageous leaders, visionary leaders, and inevitably small-minded and even unscrupulous leaders. In other words, leaders who were anything but whatever the case, the Governors that ushered their state structure into a modern era, or the Mayors whose cities have become the cultural meccas with landmarks that attract millions, are all people who deserve recognition. And yes, so do the people who ended up on the wrong side of the law and went to jail. Volume three examines these individuals. All presided within the times of Kennedy to Reagan. All are Statesmen and Mischief Makers. And all are told here.

The Silver State, 3rd Edition James W. Hulse, 2012-06-07 Nevada has changed dramatically over the past quarter century, and in this third edition of *The Silver State*, renowned historian James W. Hulse recounts the major events, historical, political, and social, that have shaped our state. Hulse's cohesive approach offers students and general readers an accessible account of Nevada's colorful history. The new edition highlights the social and political changes that have occurred since the original publication of *The Silver State* in 1991. Hulse discusses the impact of a growing population, changes in the economy and education system, expanding roles of women, recent developments in state politics including the 2003 legislative session, the influence of Nevada's growing ethnic population and increasingly divergent demographic groups, and the impact of federal policies including President George W. Bush's 2002 decision to authorize the opening of a nuclear

waste depository at Yucca Mountain In addition all the recommended reading lists have been updated The Silver State explores many dimensions of the Nevada experience and its peoples This book will inspire readers to take another look at the rich cultural heritage and eventful history of Nevada the Silver State

Statesmen and Mischief Makers: Scott Crass,2015-08-31 Historically when sweeping policy changes or legislation of indelible consequence are signed into law Presidents receive the credit There is a good reason for that Without the Chief Executive putting his pen to paper these advancements would have nary a chance of becoming reality In most cases though a President s signature is simply the culmination of a long fight to make an idea or actual proposal a reality In fact quite often it is members of Congress who nurture proposals from inception to the President s desk Like a train leaving its first station the legislative process often starts with a handful of people on board until slowly a few more passengers hop on at each stop and before long there is a full car with people standing in the aisles Often times a bill becoming a law is no different

The Parks Belong to the People Joe Weber,Selima Sultana,2024-04-01 In examining the 424 units of the U S national park system geographers Joe Weber and Selima Sultana focus attention on the historical geography of the system as well as its present distribution covering the diversity of places under the control of the National Park Service NPS This includes the famous national parks such as the Grand Canyon Yellowstone and Yosemite and the lesser known national monuments memorials lakeshores seashores rivers recreation areas preserves reserves parkways historic sites historic parks and a range of battlefields as well as more than twenty additional sites not fitting into any of these categories such as the White House The geographic view of The Parks Belong to the People sets it apart from others that have taken a solely historical approach Where parks are located what they are near where their visitors come from and how land use and activities are organized within parks are some of the fundamental issues discussed The majority of units in the NPS are devoted to recreation areas or historic sites such as battlefields archaeological sites or sites devoted to a specific person and this is reflected in the authors approach What we think of as a national park has changed over the years and will continue to change Weber and Sultana emphasize changing social and political environments in which NPS units were created and the roles they serve such as protecting scenery providing wildlife habitats preserving history and serving as scientific laboratories and places for outdoor recreation The authors also focus on parks as public facilities and sites of economic activities National parks were created by people for people to enjoy at great cost and with great benefit They cannot be understood without taking this human context into account

All the Water the Law Allows Christian S. Harrison,2021-08-12 As the population of the greater Las Vegas area grows and the climate warms the threat of a water shortage looms over southern Nevada But as Christian S Harrison demonstrates in All the Water the Law Allows the threat of shortage arises not from the local environment but from the American legal system specifically the Law of the River that governs water allocation from the Colorado River In this political and legal history of the Las Vegas water supply Harrison focuses on the creation and actions of the Southern Nevada Water

Authority SNWA to tell a story with profound implications and important lessons for water politics and natural resource policy in the twenty first century In the state with the smallest allocation of the Colorado s water supply Las Vegas faces the twin challenges of aridity and federal law to obtain water for its ever expanding population All the Water the Law Allows describes how the impending threat of shortage in the 1980s compelled the five metropolitan water agencies of greater Las Vegas to unify into a single entity Harrison relates the circumstances of the SNWA s evolution and reveals how the unification of local county and state interests allowed the compact to address regional water policy with greater force and focus than any of its peers in the Colorado River Basin Most notably the SNWA has mapped conservation plans that have drastically reduced local water consumption and in the interstate realm it has been at the center of groundbreaking water sharing agreements Yet these achievements do not challenge the fundamental primacy of the Law of the River If current trends continue and the Basin States are compelled to reassess the river s distribution the SNWA will be a force and a model for the Basin as a whole
