Senegal Places And Peoples Of The World:

Our World: Its Cities, Peoples, Mountains, Seas and Rivers ... With ... Illustrations Edward Farr, 1870 **State of the World's Cities 2008/9** Un-Habitat, 2012-05-04 Cities are perhaps one of humanity's most complex creations never finished never definitive They are like a journey that never ends Their evolution is determined by their ascent into greatness or their descent into decline They are the past the present and the future Cities contain both order and chaos In them reside beauty and ugliness virtue and vice They can bring out the best or the worst in humankind They are the physical manifestation of history and culture and incubators of innovation industry technology entrepreneurship and creativity Cities are the materialization of humanity's noblest ideas ambitions and aspirations but when not planned or governed properly can be the repository of society's ills Cities drive national economies by creating wealth enhancing social development and providing employment but they can also be the breeding grounds for poverty exclusion and environmental degradation The 21st Century is the Century of the City Half of humanity now lives in cities and within the next two decades 60 per cent of the world's people will reside in urban areas How can city planners and policymakers harmonize the various interests diversity and inherent contradictions within cities What ingredients are needed to create harmony between the physical social environmental and cultural aspects of a city and the human beings that inhabit it This report adopts the concept of Harmonious Cities as a theoretical framework in order to understand today's urban world and also as an operational tool to confront the most important challenges facing urban areas and their development processes It recognizes that tolerance diversity social justice and good governance all of which are inter related are as important to sustainable urban development as physical planning It addresses national concerns by searching for solutions at the city level For that purpose it focuses on three key areas spatial or regional harmony which examines the main drivers of urban growth in the developing world and explores the spatial nuances of economic and social policies social harmony which presents and analyzes new data on urban inequalities worldwide and describes the types of shelter deprivations experienced by slum dwellers in developing world regions and environmental harmony which examines the role of cities in the climate change debate and the impact of global warming on the most vulnerable cities The report also assesses the various intangible assets within cities that contribute to harmony such as cultural heritage sense of place and memory and the complex set of social and symbolic relationships that give cities meaning It argues that these intangible assets represent the soul of the city and are as important for harmonious urban development as tangible assets Harmony within cities argues the report is both a journey and a destination Published with UN HABITAT [The Oxford Desk Dictionary of People and Places](#) Frank R. Abate, 1999 Covers about 7 500 individuals from early recorded history to the present with each very concise entry 20 50 words providing pronunciation birth and death dates nationality and significant achievements US presidents garner special boxes that include more information The geographical section covers some 10 000 places accompanied by helpful maps and information on capitals major or historic

Migration and Environmental Change in the West African Sahel Victoria van der Land, 2017-10-12 The West African Sahel is predicted to be heavily affected by climate change in the future Slow onset environmental changes such as increasing rainfall variability and rising temperature are presumed to worsen the livelihood conditions and to increase the out migration from the affected regions Based on qualitative and quantitative data from study areas in Mali and Senegal this book examines the relationship between population dynamics livelihoods and environment in the Sahel region focussing specifically on motives for migration Critiquing the assumption that environmental stress is the dominating migration driver the author demonstrates the important role of individual aspirations and social processes such as educational opportunities and the pull of urban lifestyles In doing so the book provides a more nuanced picture of the environment migration nexus arguing that slow onset environmental changes may actually be less important as drivers of migration in the Sahel than they are often depicted in the media and climate change literature This is a valuable resource for academics and students of environmental sociology migration and development studies
