*Speaking and Semiology* Richard L. Lanigan, 2013-02-06 No detailed description available for *Speaking and Semiology*

Du lien des êtres aux éléments de l'être Emmanuel de Saint-Aubert, 2004 Cet ouvrage se consacre une p riode encore mal connue de l volution du philosophe les ann es 1945 1951 Pendant cette phase de transition indispensable la compr hension de la gen se des derniers crits Merleau Ponty commence se lib rer des concepts classiques pour s acheminer vers deux l ments capitaux de sa pens e la chair et l empi tement A partir du bilan moral et politique de 1945 il fait de l empi tement une figure de la modernit et travaille en lui l alliance singuli re de pessimisme et d optimisme par laquelle il veut traduire sa propre version de l existentialisme Dans une complicit significative avec l onirisme des psychanalyses de Bachelard de la co naissance de Claudel et de l amour fou de Breton Merleau Ponty pr pare ses propres l ments ontologiques aux antipodes de l imaginaire sartrien      ,      An Existential Phenomenology of Law: Maurice Merleau-Ponty William S. Hamrick, 2013-03-09 The following pages attempt to develop the main outlines of an existential phenomenology of law within the context of Maurice Merleau Ponty s phe nomenology of the social world In so doing the essay addresses the rather narrow scholarly question If Merleau Ponty had written a phenomenology of law what would it have looked like But this scholarly enterprise although impeccable in itself is also transcended by a more complicated concern for a very different sort of question Namely if Merleau Ponty s phenomenological descriptions of the social world are correct as I believe they largely are then what are the philosophical consequences for an adequate understanding of law Such a project may well occasion a certain surprise amongst observers of the contemporary philosophical landscape at least in what concerns the terrain of continental thought and for two different reasons The first is that although interest in Merleau Ponty s work remains strong in the United States and Can ada his philosophical standing in his own country has been largely eclipsed by that of first his friend estranged acquaintance Jean Paul Sartre by various Marxist philosophies and critical social theories and finally by those doing her meneutics of language In my view current neglect of Merleau Ponty s thought in France is most regrettable      Vers une nouvelle philosophie transcendante T.F. **The Sense of Space** David Morris, 2012-02-01 The Sense of Space brings together space and body to show that space is a plastic environment charged with meaning that reflects the distinctive character of human embodiment in the full range of its moving perceptual emotional expressive developmental and social capacities Drawing on the philosophies of Merleau Ponty and Bergson as well as contemporary psychology to develop a renewed account of the moving perceiving body the book suggests that our sense of space ultimately reflects our ethical relations to other people and to the places we inhabit

*Theory as World Literature* Jeffrey R. Di Leo, 2024-12-26 The first collection to consider what it means for theory to be considered as a species of world literature and vice versa What does it mean for theory to be considered as a species of not just literature but world literature This volume offers a wide range of accounts of how the worlding of literature both problematizes the national categorizing of theory e g French theory and brings new meanings and challenges to the coming together of theory and literature In sum it presents theory as world literature as a viable alternative to more commonplace approaches to theory Under such an approach to theory what it means to be an African American or Asian theorist let alone a French German or Spanish one in the new millennium is as complicated or simple as what means to be African American or Asian Worlded literature is not considered here as only the world literature of nations and nationalities Rather it is also the worlded literature of individuals crossing borders mixing stories and speaking in dialect So too is it the worlded literature of the multinational corporate publishing industry wherein success in the global market is a major determinate of aesthetic and literary value Offering accounts of what it means to consider theory as world literature the authors in this pioneering collection explore the ways in which we might regard theory as connected and reconnected through global literary networks of increasing complexity and precarity By approaching theory from this perspective *Theory as World Literature* demonstrates how and why theory is more worldly now than ever
