Matthews,1997-04-12 The award of the 1995 Nobel Prize for Literature to Seamus Heaney recognized not only the aesthetic achievement of his work but also its political urgency Here Steven Matthews presents a genealogy of Irish poetry which centres upon Heaney s recent preoccupation with the relations between poetry politics and history Writing from the perspective of Irish critical responses to the poetry he discusses a wide range of work from John Hewitt through

Heaney himself to Paul Muldoon All of these poets have been inspired directly or indirectly by the situation in the North of Ireland Placing the poems in their historical context the author also analyses how these poets have reacted to the influence of W B Yeats This important book offers a new approach to Irish poetry linking it for the first time to the crucial political and historical events which lie at its centre *The Millicent Library Bulletin* Millicent Library,1901 **The Alistair Moffat**

Misogynous Economies Laura C. Mandell,2021-10-21 The eighteenth century saw the birth of the concept of literature as business literature critiqued and promoted capitalism and books themselves became highly marketable canonical objects During this period misogynous representations of women often served to advance capitalist desires and to redirect feelings of antagonism toward the emerging capitalist order Misogynous Economies proposes that oppression of women may not have been the primary goal of these misogynistic depictions Using psychoanalytic concepts developed by Julia Kristeva Mandell argues that passionate feelings about the alienating socioeconomic changes brought on by capitalism were displaced onto representations that inspired hatred of women and disgust with the female body Such displacements also played a role in canon formation The accepted literary canon resulted not simply from choices made by eighteenth century critics but also as Mandell argues from editorial and production practices designed to stimulate readers desires to identify with male poets Mandell considers a range of authors from Dryden and Pope to Anna Letitia Barbauld throughout the eighteenth century She also reconsiders Augustan satire offering a radically new view that its misogyny is an attempt to resist the commodification of literature Mandell shows how misogyny was put to use in public discourse by a culture confronting modernization and resisting alienation

Classical Literature Richard Jenkyns,2015-01-29 Any list of the six greatest European poets would include Virgil Aeschylus and Homer A recent

history of philosophy named Aristotle and Plato as two of the world's four greatest philosophers. The greatest historian of all is likely to be Thucydides. Why was Ancient Greek and Roman literature so great? Sweeping across a thousand years, acclaimed professor Richard Jenkyns provides a lucid and lively introduction to the foundation of all Western literature. As Jenkyns shows us, the Greeks were masters of invention; they pioneered nearly all the major literary forms, including epic, poetry, tragedy, comedy, and history. The Romans, like us, already felt in the shadow of Greek literature, and as Jenkyns puts it, they first invented imitation. In short, engaging chapters, Jenkyns illuminates the most enduring and influential works of the classical world, from the Homeric epics to the golden age of Latin poetry, and explores their unparalleled and continuing influence on Western literature. Commonweal, 1925. The Princeton Encyclopedia of Poetry and Poetics, Roland Greene, Stephen Cushman, Clare Cavanagh, Jahan Ramazani, Paul Rouzer, Harris Feinsod, David Marno, Alexandra Slessarev, 2012-08-26. Rev. ed. of *The Princeton encyclopedia of poetry and poetics*, Alex Preminger and T. V. F. Brogan, co. editors, Frank J. Warnke, O. B. Hardison Jr., and Earl Miner, associate editors, 1993. **Contact II.**, 1982. **Words Well Put**, Graham Sanders, 2020-10-26. Many poems in the Chinese tradition come to us embedded in narratives purporting to tell the circumstances of their composition and performance. Poetic competence is demonstrated in these narratives through a person's ability to influence the attitudes and behavior of others with poetic discourse. Such competence can be apprehended only in the context of a narrative which sets forth a representation of the conditions of a poem's production, performance, and reception. These narratives are not so much faithful historical records as ideal accounts of the operation of poetry. Such stories both fulfill and deny wishes for poetry and for the self; it is these wishes that merit our careful attention. As traced in *Words Well Put*, the vision of poetic competence evolved for over a millennium, from calculated performances of inherited words to sincere, passionate outbursts to displays of verbal wit combining calculation with the appearance of spontaneity. By the seventh century, calculation, passion, and wit had converged to produce a multivalent concept of competence as a repertoire of competencies to use as the occasion demanded. This book tells the story of the development of poetic competence to uncover the complexity of the concept and to identify the sources and exemplars of that complexity.

Politics and the Rhetoric of Poetry, International Association for the Study of Anglo-Irish Literature. International Congress, 1995. The rich and varied nature of twentieth-century Anglo-Irish and Irish poetry is reflected in the essays presented in *Politics and the Rhetoric of Poetry: Perspectives on Modern Anglo-Irish Poetry*. The linguistic and theoretical observations formulated in close readings of apparently non-political texts disclose implied political positions and suggest to what extent rhetoric and the nature of language are at the root of such questions as how should we read contemporary poetry? How can poems play a part in the resolution of the political and historic conflict? Nuala N. Dhomhnaill's versions of *The T* in Brendan Kennelly's *Cromwell*, Paul Muldoon's *Madoc*, and Ciaran Carson's *Belfast Confetti* are analysed in detail, as is the relationship between rhetoric and politics in Seamus Heaney and Derek Mahon. Earlier twentieth-century poets such as

Thomas Kinsella John Hewitt Patrick Kavanagh John Montague Louis MacNeice and Padraic Colum are also examined The contingent nature of language is recognized by many of these poets and the seventeen essays bring out the political charge hidden in the poetry This includes the deliberate choice of the poetic form the internal dialogue or the complexity of voices in the poem and a particular preoccupation with endings These essays demonstrate Yeats's contention that Deliberation can be so intensified that it becomes synonymous with inspiration
