*History of the Native Woodlands of Scotland 1500-1920* T. C. Smout, 2007-09-15 The first modern history of Scottish woodlands, this highly illustrated volume explores the changing relationship between trees and people from the time of Scotland's first settlement, focusing on the period 1500 to 1920. Drawing on work in natural science, geography, and history, as well as on the author's own research, it presents an accessible and readable account that balances social, economic, and environmental factors. Two opening chapters describe the early history of the woodlands. The book is then divided into chapters that consider traditional uses and management, the impact of outsiders on the pine woods and the oakwoods in the first phase of exploitation, and the effect of industrialization. Separate chapters are devoted to case studies of management at Strathcarron, Glenorchy, Rothiemurchus, and on Skye.

**History of Everyday Life in Scotland, 1600 to 1800** Elizabeth A Foyster, 2010-02-28 This book explores the ordinary daily routines, behaviours, experiences, and beliefs of the Scottish people during a period of immense political, social, and economic change. It underlines the importance of the church in post-Reformation Scottish society but also highlights aspects of everyday life that remained the same or similar, notwithstanding the efforts of the kirk, employers, and the state to alter behaviours and attitudes. Drawing upon and interrogating a range of primary sources, the authors create a richly coloured, highly nuanced picture of the lives of ordinary Scots from birth through marriage to death. Analytical in approach, the coverage of topics is wide-ranging, from the ways people made a living through their non-work activities, including reading, playing, and relationships, to the ways they experienced illness and approached death. This volume provides a rich and finely nuanced social history of the period 1600-1800. Gets behind the politics of Union and Jacobitism and the experience of agricultural and industrial revolution. Presents the scholarly expertise of its contributing authors in an accessible way. Includes a guide to further reading, indicating sources for further study.

personal research in family and community history      The Cambridge Companion to Scottish Literature Gerard Carruthers, Liam McIlvanney, 2012-12-24 A unique introduction guide and reference work for students and readers of Scottish literature from the pre medieval period      **Law and Legal Consciousness in Medieval Scotland** Hector L. MacQueen, 2023-10-20 This book explores the rise of a Scottish common law from the twelfth century on despite the absence until around 1500 of a secular legal profession Key stimuli were the activity of church courts and canon lawyers in Scotland coupled with the example provided by neighbouring England's common law The laity's legal consciousness arose from exposure to law by way of constant participation in legal processes in court and daily transactions This experience enabled some to become judges pleaders in court and transactional lawyers and lay the foundations for an emergent professional group by the end of the medieval period      Scottish Orientalists and India Avril Ann Powell, 2010 Structured around the lives and careers of two Scottish scholar administrator brothers Sir William and Dr John Muir who served in the East India Company and the Raj in North West India from 1827-1876 this book examines cultural especially religious and educational attitudes and interactions during the period The core of the study centres on a detailed examination of the brothers seminal works on Vedic and Islamic history and society which researched from Sanskrit and Arabic sources became standard reference works on India's religions during the Raj The publication of these works coincided with the outbreak of the Indian Uprising of 1857 on the nature of which William's correspondence with his brother and others allows some reconsideration especially in respect of Muslim participation Powell also examines the response of Indian Muslim scholars particularly of Sir Saiyid Ahmad Khan to William's critiques of Islam and the brothers patronage of Oriental scholarship comparative religion and education during their long retirement back in their native Scotland The study contributes to current debates about the Scottish contribution to Empire with particular reference to India and to cultural issues      The Making of the Scottish Rural Landscape David Turnock, 2016-12-05 This book looks at the evolution of rural settlement in Scotland from the Mesolithic period through to the improving movement of the 18th and 19th centuries The main emphasis is on changes in society and technology but the book also considers how the development of the physical landscape laid the foundation for such changes The author strikes a balance between general perspectives including relevant contextual materials such as the political structures and local studies with much emphasis on individual sites Lack of documentation prior to the 10th century places particular importance on the archaeological evidence but imaginative interpretation of this evidence has led to a major re-evaluation Ideas emphasizing continuity of settlement and local adaptation are replacing older invasionist theories emphasizing Celtic war lords and broch building pirates      Robert Burns and Pastoral Nigel Leask, 2010-07-02 Robert Burns and Pastoral is a full scale reassessment of the writings of Robert Burns 1759-1796 arguably the most original poet writing in the British Isles between Pope and Blake and the creator of the first modern vernacular style in British poetry Although still celebrated as Scotland's national poet Burns has long been marginalised in English literary studies worldwide due to a

mistaken view that his poetry is linguistically incomprehensible and of interest to Scottish readers only Nigel Leask challenges this view by interpreting Burns's poetry as an innovative and critical engagement with the experience of rural modernity namely to the revolutionary transformation of Scottish agriculture and society in the decades between 1760 and 1800 thereby resituating it within the mainstream of the Scottish and European enlightenments Detailed study of the literary social and historical contexts of Burns's poetry explodes the myth of the Heaven taught ploughman revealing his poetic artfulness and critical acumen as a social observer as well as his significance as a Romantic precursor Leask discusses Burns's radical decision to write Scots pastoral rather than English georgic poetry in the tradition of Allan Ramsay and Robert Fergusson focusing on themes of Scottish and British identity agricultural improvement poetic self-fashioning language politics religion patronage poverty antiquarianism and the animal world The book offers fresh interpretations of all Burns's major poems and some of the songs the first to do so since Thomas Crawford's landmark study of 1960 It concludes with a new assessment of his importance for British Romanticism and to a Four Nations understanding of Scottish literature and culture
