## **Sense Of Injustice:**

*A Passion for Justice* Robert C. Solomon, 1995 This text argues that justice is a virtue which everyone shares a function of personal character and not just of government or economic planning It uses examples from Plato to Ivan Boesky to document how we live and how we feel

**The Sense of Injustice** Robert G. Folger, 2012-12-06 The importance of justice cannot be overstated As one author has put it A better understanding of how justice concerns develop and function in people s lives should enable us to plan more effectively for institutional and other social change to deal with the problems that confront humankind S C Lerner 1981 p 466 The volume in which that statement appeared an earlier one in this same series was devoted to exploring the impact that dwindling resources and an increasing rate of change have had upon people s concern for justice In contrast the present volume places greater emphasis on the word under standing as it was used in the context of the preceding quotation than upon effective planning social change and ways of dealing with human problems Nothing in that statement of purpose is meant to belittle the urgency of translat ing understanding into action because the social significance of justice concerns is a major factor that has prompted the authors of the chapters in this book to do research in the area Rather this volume receives its emphasis from Kurt Lewin s famous dictum there is nothing so practical as a good theory The need for good theory is ongoing and these pages are dedicated to a search for new pathways toward better theory

**The Psychology of Jealousy and Envy** Peter Salovey, 1991-02-15 After decades of banishment to popular magazines and advice columns jealousy and envy have emerged as legitimate topics of scientific inquiry This volume includes chapters from nearly every major contributor to the psychological literature in this area From emotional and cognitive processes that underlie jealousy and envy to the ways these emotions are experienced and expressed within close relationships to family societal and cultural contexts the volume offers a definitive statement of current theory and research

Delinquency and Drift David Matza, 2018-02-06 The first C Wright Mills Award winning book *Delinquency and Drift* has become a recognized classic in the fields of criminology and social problems. In it, Matza argues persuasively that delinquent thought and delinquent action are distorted reflections of the ideas and practices that pervade contemporary juvenile law and its administration. His ideas are as persuasive today as when they were first published twenty-five years ago. By example and illustration, Matza argues that the delinquent subculture is based on many of the same standards as the conventional social order and that the delinquent's negation of the law is the result of his relations with an inconsistent and vulnerable legal code. Once the juvenile breaks his or her ties to the legal order, the drift to delinquency becomes relatively easy to justify. The author also maintains that being liberated from legal constraint does not necessarily lead to delinquency; that event depends on the will to commit crime. Because delinquency remains one of our most serious social problems, it is important to consider Matza's thesis that the drift toward delinquency is frequently aided by the unwitting support of society and the guardians of social order.

*International Handbook of Anger* Michael Potegal, Gerhard Stemmler, Charles Spielberger, 2010-02-04 From the individual rage-driven violence of domestic abuse to the destructive causes and lasting consequences of large-scale ethnic and political conflict, anger and its effects are ubiquitous in human life and are the focus of intense study across many scientific disciplines. Fields as varied as affective neuroscience, health science, psychology, psychophysiology, and sociology have all contributed to recent advances in the understanding of anger. The editors of the *International Handbook of Anger* bring these major contributions together for a unique portrayal of the many aspects of anger: evolutionary and biological bases, behavioral processes and effects, physiological concomitants, clinical aspects, and role in the larger social picture, with coverage that is both wide-ranging and integrative. State-of-the-art findings by highly regarded experts are organized for maximum utility with extensive cross-referencing between chapters and editors' introductory commentary linking the book's sections. A sampling of the coverage in the Handbook: Historical views and roles of anger in Western and non-Western cultures; Current genetic, neurological, neurochemical, and psychophysiological perspectives; Cross-cultural expressions, facial, vocal, and linguistic; Affective, motivational, and cognitive processes in anger; Gender differences in anger triggers, experience, and behavior; Anger in development and across the lifespan: Infancy, childhood, and adulthood; Assessing anger, hostility, and anger control; Clinical aspects: psychopathology, anger, and chronic pain; Type A behavior and cardiovascular health; Anger in family, small group, and large group conflict. The *International Handbook of Anger* presents a wealth of deep and detailed knowledge relevant to clinical and health psychology, social work, family studies, and anger management among other fields. Its depth and breadth of coverage will make it a definitive volume informing research and practice in the years ahead.

*Lifetime* M.S. Frings, 2013-06-29 In comparison to Husserl and Heidegger, Max Scheler's philosophy of time as first presented here is considerably wider in scope. Using posthumous manuscripts, Frings shows that Scheler conceived the origin of time in the self-activating center of individual and universal

life as threefold absolute time of a four dimensional expanse This serves as a basis for establishing the phenomenon of objective time in multiple steps of constitutionality including the physical field theory and theory of relativity For Scheler objective time even though anchored in absolute time deserves maximum attention in a technological society Frings focuses here with Scheler on time experience of values and among social groups time experiences in the mind set of capitalism in politics and morals in population dynamics and time experiences in the process of aging all of which were signposts in Scheler's thought before his early demise *Suicide and Euthanasia* B.A. Brody,2013-04-17 **The Theory of Practice and Ethical Enquiry by Shadworth H. Hodgson** Shadworth Hollway Hodgson,1870 **The Nicomachean Ethics of Aristotle** Aristotle,1904 **Parliamentary Debates (Hansard)**. Great Britain. Parliament. O'Quinn,2013 Through thoughtful analysis of girls historical literacy experiences their contemporary reading and writing lives and trends in young adult literature this book sheds new light on how teachers can better understand and create classroom experiences that make girls visible both to themselves and to others Historically the status of girls has evoked much less research than that of boys Recently emerging scholastic and strategic study concerning the vulnerability of girls is adding a vital missing component to this continually emerging discourse Looking at many aspects of girls gendered lives this text considers the specific perspectives of the social and cultural constructions that script gender particularly as they apply to girls in our classrooms Prominent scholars in their respective fields examine the myriad forces that shape the lives of American girls from the earliest didactic records of manuals and books of conduct to current artifacts of contemporary culture By investigating both the scholarly literature on girls as well as the primary sources of a material culture the authors seek to unravel how adolescent girls learn and seek to compose identities By closely examining girls practices in which are embedded issues of class race ethnicity immigrant status and sexuality the text considers some of the values structures and trajectories that have come to define teenage girlhood Its distinctive contribution is to unpack some of the assumptions of girls in English classrooms and to critically examine their experiences as they try to fit preconceived norms while forming their own personhood Provided by publisher *The Open Road* Clayton Holt Ernst,1920 **Accountant Student and Accountants' Journal** ,1906 **House of Commons Debates, Official Report** Canada.
