Sense Of Reality:

A sense of reality Graham Greene, 1959 **Mind** ,1893 **Psyche** ,1924 **Plastic Reality** Julie A. Turnock, 2015-02-03 Julie A Turnock tracks the use and evolution of special effects in 1970s filmmaking a development as revolutionary to film as the form s transition to sound in the 1920s Beginning with the classical studio era s early approaches to special effects she follows the industry s slow build toward the significant advances of the late 1960s and early 1970s which set the stage for the groundbreaking achievements of 1977 Turnock analyzes the far reaching impact of the convincing absorbing and seemingly unlimited fantasy environments of that year s iconic films dedicating a major section of her book to the unparalleled innovations of Star Wars and Close Encounters of the Third Kind She then traces these films technological cultural and aesthetic influence into the 1980s in the deployment of optical special effects as well as the not too realistic and hyper realistic techniques of traditional stop motion and Showscan She concludes with a critique of special effects practices in the 2000s and their implications for the future of filmmaking and the production and experience of other visual media
