Vesuvius Flavio Dobran, 2006-06-07 VESUVIUS 2000 is an interdisciplinary project aimed at producing a safe and prosperous habitat for the people living around Vesuvius. To produce this environment requires an effective collaboration between the experts and the public whereby the danger from the volcano is used to reorganize the territory and thus produce new opportunities for the people surrounding the volcano. As an all inclusive physico-mathematical computer model of the volcano the Global Volcanic Simulator is a key tool for determining the effects of different eruption scenarios and thus for urban planning of the territory. Unlike the evacuation plans which tend to manage emergencies VESUVIUS 2000 aims at preparing the Vesuvius area to confront future eruptions with minimal socio-economic and cultural consequences. Addresses volcanic risk mitigation in densely populated area surrounding Vesuvius. Provides education about volcanos. Displays physical modeling of eruption processes and integration of models.

Post-choreography Shuntaro Yoshida, 2024-09-10 This book sheds light on the practice of French choreographer Jérôme Bel who is active in the fields of performing arts and contemporary art. Shuntaro Yoshida examines a case study of collective creation involving the choreographer and a group of amateur workshop participants. The focus is on Atelier Danse et Voix Dance and Voice Workshop 2014 and workshops held with local diverse participants in Brussels, Venice and Munich after the cancellation of the Dance and Voice Workshop. This study elucidates Bel's creative method by exploring the relationship between choreographer and participants in a situation where the typical framework of actors has been expanded. The focus of the case study is not so much the choreographic methodology itself but the relationship between the method and the participants and the ways in which the choreographer cedes creative decision making power to participants. In order to investigate Bel's creative method this study makes use of participant observation, field notes taken during a rehearsal. Additional data sources include Bel's emailed materials, performance programs and interviews with participants. This book will be of great interest to students and scholars in theater performance and dance studies.

After Modernist Painting Craig Staff, 2025-01-23 This book presents both a historical survey and a critical re-evaluation of the contested and contingent nature of the medium of painting over the last 60 years. Offering a critical account of painting specifically rather than art more generally, *After Modernist Painting* provides a timely exploration of what has remained a persistent and protean medium. Taking Clement Greenberg's *Modernist Painting* as its starting point, the book focuses on certain developments including the relationship of painting to Conceptual Art and Minimalism, the pronouncement of painting's alleged death, its response to Installation Art, its foregrounding of site, how painting both images and imagines the digital, and how it continues to embody a particular set of ideas and responses to the world. Revised and expanded to reflect developments in the field since the first edition was published in 2013, *After Modernist Painting* addresses a range of global

artists and painting practices from the Dansaekhwa art movement in South Korea to the Conceptualism of Geta Bratescu in 1970s Romania Essential reading for students on fine arts painting courses the book is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and contemporary artistic practice and also provides a valuable starting point for other more specialized histories of particular painters **Domenico Bianchi and Mario Merz** Mario Merz, Ludovico Pratesi, Domenico Bianchi, 2004 This catalogue features the work of artist Domenico Bianchi and an homage to the belated Mario Merz specifically created for the exhibition in the city of Bari A series of images reproduces the most important experiences by Bianchi in indoor space and Merz in outdoor locations Merz's work consists of a large igloo that stands on a silver painted cervo in the middle of the Renaissance Courtyard of the Castello Svevo Inside the castle along a 20 meter long wall is a cross shaped display of eleven paintings made by Bianchi out of wood white gold wax and fiberglass as a tribute to and spiritual view of Merz's life and work

Site-Specific Art Nick Kaye, 2013-04-15 Site Specific Art charts the development of an experimental art form in an experimental way Nick Kaye traces the fascinating historical antecedents of today's installation and performance art while also assembling a unique documentation of contemporary practice around the world The book is divided into individual analyses of the themes of space materials site and frames These are interspersed by specially commissioned documentary artwork from some of the world's foremost practitioners and artists working today This interweaving of critique and creativity has never been achieved on this scale before Site Specific Art investigates the relationship of architectural theory to an understanding of contemporary site related art and performance and rigorously questions how such works can be documented The artistic processes involved are demonstrated through entirely new primary articles from Meredith Monk Station House Opera Brith Gof Forced Entertainment This volume is an astonishing contribution to debates around experimental cross arts practice Terrae Motus, 1984 **L'ombra Della Regione** Bologna (Italy).
