Sepecat Jaguar Peter Foster,2017 The Jaguar was an iconic aircraft to come from Anglo French collaboration and one of the first to be conceived with a predatory attack and low level strike capability First planned as a trainer it emerged as a fighter bomber taking much from the TSR2 concept when a string of cancelled projects identified a gap in strike attack capability it soon evolved into a supersonic aircraft ready for reconnaissance and tactical nuclear strike roles Retired before its time for France in 2005 and for the RAF in 2007 it is still revered both by those that operated it and those that stared in wonder The end for the Jaguar in the United Kingdom was sudden and rushed with the big cat going out with a meow rather than a roar However it survived on other continents providing a growl and bite in maintaining sovereignty for several decades on This book is a stunning pictorial tribute to those final days

RAF Strike Command, 1968-2007 Kev Darling,2013-01-19 Aviation author Kev Darling looks at the origins of the World War Two Royal Air Force commands and histories in RAF Strike Command In 1968 the RAF Commands that had become famous in World War Two

Fighter Bomber Coastal Air Support and Signals Commands were combined into the single Strike Command an amalgamation that served throughout the remaining years of the Cold War in the Falklands and in the Middle East in Operations Desert Shield Desert Storm and Granby This organizational change caused re equipment base changes and increasing economic constraints The Royal Navy was now responsible for the UK s nuclear deterrent in the form of their Polaris submarines so the RAF s V Bomber Force were now relegated to tanker operations with the exception of the lone Vulcan that was sent to the Falklands conflict The Command s fleet of fast jets became more adaptable with single types assuming the roles of fighter bomber reconnaissance and maritime attack The aircraft also became multinational in their design and manufacture as Britain s postwar lead in aircraft design had been frittered away by years of thoughtless government leading to a single company for production Apart from the brilliant Harrier which the US continues to develop and build other aircraft flown by the Command were from European syndicates such as the Tornado and Jaguar The US supplied the transports in the form of the faithful Hercules and Europe most of the helicopter fleet Exploring the operations that took place during this military wing s existence the aircraft they flew and the men who flew them RAF Strike Command is a tribute to the fast dwindling power of the Royal Air Force
