Sequel To History Postmodernism And The Crisis Of Representational Time:

Sequel to History Elizabeth Deeds Ermarth, 1992 *Sequel to History* offers a comprehensive definition of postmodernism as a reformation of time Elizabeth Deeds Ermarth uses a diversified theoretical approach drawing on post structuralism feminism new historicism and twentieth century science to demonstrate the crisis of our dominant idea of history and its dissolution in the rhythmic time of postmodernism She enlarges this definition in discussions of several crises of cultural identity the crisis of the object the crisis of the subject and the crisis of the sign Finally she explores the relation between language and time in post modernism proposing an arresting theory of her own about the rhythmic nature of postmodern temporality Because the postmodern construction of time appears so clearly in narrative writing each part of this work is punctuated by a rhythm section on a postmodern narrative Robbe Grillet's *Jealousy* Cortezar's *Hopscotch* and Nabokov's *Invitation to a Beheading* these extended readings provide concrete illustrations of Ermarth's theoretical positions As in her critically acclaimed *Realism and Consensus in the English Novel* Ermarth ranges across disciplines from anthropology and the visual arts to philosophy and history For its interdisciplinary character and its lucid definition of postmodernism *Sequel to History* will appeal to all those interested in the humanities

At the Limits of History Keith Jenkins, 2013-02-01 Why bother with history Keith Jenkins has an answer He helps us re think the end of history as signalled by postmodernity Readers may disagree with him but he never fails to provoke debate about the future of the past Joanna Bourke Professor of History Birkbeck College Keith Jenkins work on historical theory is renowned this collection presents the essential elements of his work over the last fifteen years Here we see Jenkins address the difficult and complex question of defining the limits of history The collection draws together the key pieces of his work in one handy volume encompassing the ever controversial issue of postmodernism and history questions on the end of history and radical history into the future Exchanges with Perez Zagorin and Michael Coleman further illuminate the level of debate that has surrounded postmodernism and which continues to do so An extended introduction and abstracts which contextualize each piece together with a foreword by Hayden White and an afterword by Alun Munslow make this collection essential reading for all those interested in the theory and practice of history and its development over the last few decades

Frontiers of History Donald R. Kelley, 2006-01-01 In 1764-65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a recreation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the

inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais Lawrence Durrell, Postmodernism and the Ethics of Alterity Stefan Herbrechter, 1999 This book is of interest for any reader wishing to explore the interface between literature and critical and cultural theory It investigates the notions of alterity which underlie the work of Lawrence Durrell and postmodernist theory Grass Irmgard Elsner Hunt **History in the Discursive**

Rosenstone, 1998-08-04 Rosenstone investigates how a visual medium subject to conventions of drama and fiction might be used as a serious vehicle for thinking about our relationship with the past Employing such films as *Reds* *JFK* and *Sans Soleil* he considers issues like the rapport between fact and film and the documentary as visionary truth **Narrative Concerns**

Todd Davis, Kenneth Womack, 2025-08-20 Bridging existing gaps between postmodern theory fiction and ethics **Narrative Concerns** Ethical Criticism in Literature Music and Film offers an innovative critical analysis of the ways in which fictional narratives impact our lives as well as of the evolving nature of our understanding of the ethical possibilities inherent in postmodern humanism The wide array of writers directors and musicians examined in **Narrative Concerns** include Steven Spielberg Quentin Tarantino Jean Rhys John Irving Norman Maclean Anthony Burgess Kurt Vonnegut James Cameron Beyoncé and Mary Oliver These creators frequently explore our postmodern preoccupation with the void in new and often innovative ways from their challenging perceptions of the family humor and narrative design to their examinations of the past the power of history and the redemptive nature of humanity Davis and Womack read their works to demonstrate a fascinating

assortment of literary characters in the act of generating new conceptions of selfhood underscore how a given text's construction affects our understanding of the ethically motivated acts of authorship and storytelling and address the powerful bonds of human community By challenging the very nature in which we conduct literary and theoretical studies ethical criticism thus offers useful forays into a wide range of disciplines from feminism and gender studies to cultural criticism and the dynamics of race and ethnicity **Rewriting Democracy** Elizabeth Deeds Ermarth, 2017-05-15

Illuminating and comprehensive this excellent volume addresses the problematic relationship between democratic institutions and the current critique of enlightenment and modernity Since at least the beginning of the twentieth century and across the range of practice from science to politics to art various cultural shifts have unsettled assumptions that have been fundamental to the development of democratic institutions assumptions concerning individual identity the nature of political systems and the viability of egalitarian ideals Can democracy survive these changes to the value systems upon which it has been based for over two centuries This study does not focus on the often repeated particulars of past or current events such as 9 11 or the genocide in Darfur but instead examines the terms and conditions under which it would be possible to prevent such events in the future Space and Time David C. Wright, Jr., Allan W. Austin, 2010-04-19

Essays in this work examine treatments of history in science fiction and fantasy television programs from a variety of disciplinary and methodological perspectives Some essays approach science fiction and fantasy television as primary evidence demonstrating how such programs consciously or unconsciously elucidate persistent concerns and enduring ideals of a past era and place Other essays study television as secondary evidence investigating how popular media construct and communicate narratives about past events **Outside, America** Hikaru Fujii, 2013-04-25

The idea of the outside as a space of freedom has always been central in the literature of the United States This concept still remains active in contemporary American fiction however its function is being significantly changed Outside America argues that among contemporary American novelists a shift of focus to the temporal dimension is taking place No longer a spatial movement the quest for the outside now seeks to reach the idea of time as a force of difference à la Deleuze by which the current subjectivity is transformed In other words the concept is taking a temporal turn Discussing eight novelists including Don DeLillo Richard Powers Paul Theroux and Annie Proulx each of whose works describe forces of given identities masculine identity historical temporality and power etc which block quests for the outside Fujii shows how the outside in these texts ceases to be a spatial idea With due attention to critical and social contexts the book aims to reveal a profound shift in contemporary American fiction Historians on

Morris, 2005 **Postmodern Music, Postmodern Listening** Jonathan D. Kramer, 2016-08-11 Kramer was one of the most visionary musical thinkers of the second half of the 20th century In his *The Time of Music* he approached the idea of the many different ways that time itself is articulated musically This book has become influential among composers theorists and aestheticians Now in his almost completed text written before his untimely death in 2004 he examines the concept of postmodernism in music Kramer created a series of markers by which we can identify postmodern works He suggests that the postmodern project actually creates a radically different relationship between the composer and listener Written with wit precision and at times playfully subverting traditional tropes to make a very serious point about this difference *Postmodern Music Postmodern Listening* leads us to a strongly grounded intellectual basis for stylistic description and an intuitive sensibility of what postmodernism in music entails *Postmodern Music Postmodern Listening* is an examination of how musical postmodernism is not just a style or movement but a fundamental shift in the relationship between composer and listener The result is a multifaceted and provocative look at a critical turning point in music history one whose implications we are only just beginning to understand
