**Perfumes** Luca Turin, Tania Sanchez, 2010-08-06 I've long wished perfumery to be taken seriously as an art and for scent critics to be as fierce as opera critics and for the wearers of certain fragrances to be hissed in public while others are cheered. This year has brought *Perfumes The Guide* by Luca Turin and Tania Sanchez which I breathed in rather than read in one delighted gulp. Hilary Mantel, *Guardian*. *Perfumes The Guide* is the culmination of Turin's lifelong obsession and rare scientific flair and Sanchez's stylish and devoted blogging about every scent that she's ever loved and loathed. Together they make a fine and utterly persuasive argument for the unrecognised craft of perfume making. Perfume writing has certainly never been this honest, compelling or downright entertaining. **Quintessentially Perfume** Nathalie Grainger, 2010

Nathalie Grainger, a perfume consultant with extensive experience of client fragrance profiles and fragrance training, was commissioned by *Quintessentially Perfume* to compile and create this luxurious hard back book. *Quintessentially Perfume* pays homage to a cross section of niche and mainstream perfume houses, focusing on their different philosophies and backgrounds. Nathalie Grainger wrote the chapters on the perfume houses included; her interviews with some of the world's finest creators and also produced the book. There are also wonderful article features from fragrance experts including Roja Dove and Chandler Burr with some fascinating insights into the world of fragrance, namely a look inside a perfume lover's fragrance wardrobe. It's a great read for men and women alike who love fragrance and is a lovely collector's gift. L'Esprit

Culver, 2023-12-31

*Democratizing Luxury* explores the interplay between advertising and consumption in modern Japan by investigating how Japanese companies at key historical moments assigned value or luxury to mass-produced products as an important business model. Japanese name brand luxury evolved alongside a consumer society emerging in the late nineteenth century with iconic companies whose names became associated with quality and style. At the same time, Western ideas of modernity merged with earlier artisanal ideals to create Japanese connotations of luxury for readily accessible products. Businesses manufactured items at all price points to increase consumer attainability while starkly curtailing production for limited editions to augment desirability. Between the late nineteenth and twenty-first centuries, control over family disposable income transformed Japanese middle class women into an important market. Growth of purchasing power among women corresponded with Japanese goods.

diffusing throughout the empire and globally after the Asia Pacific war 1931 1945 This book offers case studies that examine affordable luxury consumer items often advertised to women including drinks beauty products fashion and timepieces Japanese companies have capitalized on affordable luxury since a flourishing domestic mercantile economy began in the Tokugawa period 1603 1868 showcasing brand name shops renowned artisans and mass produced woodblock prints by famous artists In the late nineteenth century personalized service expanded within department stores like Mitsukoshi Shiseid cosmetic counters and designer boutiques Shiseid now globally markets invented traditions of omotenashi Japanese values of hospitality expressed in purchasing and consuming its products In postwar times when a thriving democracy and middle class were tied to greater disposable income and consumerism companies rebuilt a growing consumer base among cautious shoppers democratizing luxury at reasonable prices and maintaining business patterns of accessibility high quality and exemplary service Nationalism amid economic success soon blended with myths of unique Japanese identity in a mass consumer society suffused by commodity fetishism with widely available brand names As the first comprehensive history of iconic Japanese name brands and their unique connotations of luxury and accessibility in modern Japan and elsewhere Democratizing Luxury explores company histories and reveals strategies that lead customers to consume these alluring commodities

*The Emperor of Scent* Chandler Burr,2003-01-21 For as long as anyone can remember a man named Luca Turin has had an uncanny relationship with smells He has been compared to the hero of Patrick S. Skind's novel Perfume but his story is in fact stranger because it is true It concerns how he made use of his powerful gifts to solve one of the last great mysteries of the human body how our noses work Luca Turin can distinguish the components of just about any smell from the world's most refined perfumes to the air in a subway car on the Paris metro A distinguished scientist he once worked in an unrelated field though he made a hobby of collecting fragrances But when as a lark he published a collection of his reviews of the world's perfumes the book hit the small insular business of perfume makers like a thunderclap Who is this man Luca Turin they demanded and how does he know so much The closed community of scent creation opened up to Luca Turin and he discovered a fact that astonished him no one in this world knew how smell worked Billions and billions of dollars were spent creating scents in a manner amounting to glorified trial and error The solution to the mystery of every other human sense has led to the Nobel Prize if not vast riches Why Luca Turin thought should smell be any different So he gave his life to this great puzzle And in the end incredibly it would seem that he solved it But when enormously powerful interests are threatened and great reputations are at stake Luca Turin learned nothing is quite what it seems Acclaimed writer Chandler Burr has spent four years chronicling Luca Turin's quest to unravel the mystery of how our sense of smell works What has emerged is an enthralling magical book that changes the way we think about that area between our mouth and our eyes and its profound secret hold on our lives Mastering Fashion styling Jo Dingemans,1999-11-11 Fashion is a very popular subject among

young people Any course with fashion as a prefix attracts lots of students Despite this many prospective students and people have little idea what jobs in the fashion industry entail Fashion Styling is one of the least well researched areas in fashion colleges The emphasis is put on the end result i.e. visual imagery rather than the process of creating it This how to book provides an insight into the processes you have to follow to work in this area be it editorial commercial or show styling It

includes an eight week introductory programme to the subject and projects whereby students can simulate professional practice and learn the techniques and skills necessary for a career in styling At the end of the book there is a source directory a glossary of terms and a bibliography which provide reference points for further research and study
