Browman,2011-06-03 No detailed description available for Advances in Andean Archaeology **Serials Catalog: Corporate body index and Subject heading index** Iowa State University. Library,1979 Brief Tests of Collection Strength Howard D. White,1995-09-26 For purposes of accreditation resource sharing and institutional mission librarians need to assess the strengths of their collections in particular subject areas This book describes and illustrates a brief test for determining a library s collection strength Though such tests are most often employed in academic libraries the methodology outlined by the author should be useful to all types of libraries in assessing the strength of their holdings In a time of increasing material and limited resources libraries need to be particularly judicious in deciding which works to acquire Oftentimes a library seeks to develop strong holdings in one or more subject areas Such an approach is especially useful for libraries that share their resources with other institutions To plan their acquisitions carefully and to be of greatest use to other consortia members a library needs to gauge the strength of its holdings accurately This volume describes and illustrates a relatively brief test to assign libraries a score for existing collection strength in a subject area Drawing upon expert human judgment and holdings data available from OCLC the test can assist librarians in setting and verifying collection levels on the RLG or WLN Conspectus scales Collection strength is often verified in a labor intensive fashion The brief test presented by the author is an economical alternative to the more typical labor intensive approach to collection analysis **The Material Life of Human Beings** Michael Brian Schiffer,2002-01-22 In this ground breaking work the distinguished anthropological theorist Michael Brian Schiffer presents a profound challenge to the social sciences Through a broad range of examples he demonstrates how theories of behaviour and communication have too often ignored the fundamental importance of objects in human life In *The Material Life of Human Beings* the author builds upon the premise that the most important feature of human life is not language but the relationships which take place between people and objects The author shows that artifacts are involved in all modes of human communication be they visual auditory or tactile By creatively folding elements of postmodernist thought into a scientific framework he creates new concepts and models for understanding and analysing communication and behavior Challenging established theories within the social sciences Michael Brian Schiffer offers a reassessment of the centrality of materiality to everyday life A *Bibliography of Anthropology-related Serial Publications in the University of Nebraska Libraries* Kenneth P. Lohrentz,Ann Larson,Linda Mager,1978 **The Tangsas of Arunachal Pradesh** Indira Barua,Deepanjana Dutta Das,2021-01-01 The book is the outcome of a research project sponsored by the ICSSR New Delhi The study was carried out among the Tangsas of Arunachal Pradesh Their main concentration is in the districts of Tirap Changlang and Lohit The present work was confined among the Tangsas of Changlang district The book covers a wide spectrum of topics ranging from economic condition family and marriage system religious beliefs and practices living conditions healthcare situation which vividly reflect the ethnographic present Considering this background efforts has also been made to project the demographic

situation particularly composition and fertility Though there are many areas to cover on the Tangsas yet the researchers felt that it would no doubt help the future scholars to work among these tribes **Poverty and the Quest for Life** Bhrigupati Singh,2015-04-06 The Indian subdistrict of Shahabad located in the dwindling forests of the southeastern tip of Rajasthan is an area of extreme poverty Beset by droughts and food shortages in recent years it is the home of the Sahariyas former bonded laborers officially classified as Rajasthan s only primitive tribe From afar we might consider this the bleakest of the bleak but in Poverty and the Quest for Life Bhrigupati Singh asks us to reconsider just what quality of life means He shows how the Sahariyas conceive of aspiration advancement and vitality in both material and spiritual terms and how such bridging can engender new possibilities of life Singh organizes his study around two themes power and ethics through which he explores a complex terrain of material and spiritual forces Authority remains contested whether in divine or human forms the state is both despised and desired high and low castes negotiate new ways of living together in conflict but also cooperation new gods move across rival social groups animals and plants leave their tracks on human subjectivity and religiosity and the potential for vitality persists even as natural resources steadily disappear Studying this milieu Singh offers new ways of thinking beyond the religion secularism and nature culture dichotomies juxtaposing questions about quality of life with political theologies of sovereignty neighborliness and ethics in the process painting a rich portrait of perseverance and fragility in contemporary rural India **Library of Congress Subject Headings** Library of Congress,Library of Congress.
