Reenchantment of Nineteenth-Century Fiction D. Payne,2005-05-23 An ambitious weave of ideological literary and commodity history *The Reenchantment of Nineteenth Century Fiction* shows how Dickens Thackeray and George Eliot sacralized Victorian modernity in two contradictory ways by incarnating their moment as one of transcendent development and by reenacting bloody rituals from a fading Protestant past Both the magnitude and the brevity of their success make these works exemplary for our own era caught between the archaic gods of traditional religion and the still mysterious ones of market society *Journalism and the Periodical Press in Nineteenth-Century Britain* Joanne Shattock,2017-03-16 Newly

commissioned essays by leading scholars offer a comprehensive and authoritative overview of the diversity range and impact of the newspaper and periodical press in nineteenth century Britain Essays range from studies of periodical formats in the nineteenth century reviews magazines and newspapers to accounts of individual journalists many of them eminent writers of the day The uneasy relationship between the new profession of journalism and the evolving profession of authorship is investigated as is the impact of technological innovations such as the telegraph the typewriter and new processes of illustration Contributors go on to consider the transnational and global dimensions of the British press and its impact in the rest of the world As digitisation of historical media opens up new avenues of research the collection reveals the centrality of the press to our understanding of the nineteenth century **Transformations of Electricity in Nineteenth-Century**

Literature and Science Stella Pratt-Smith,2017-05-15 Throughout the nineteenth century practitioners of science writers of fiction and journalists wrote about electricity in ways that defied epistemological and disciplinary boundaries Revealing electricity as a site for intense and imaginative Victorian speculation Stella Pratt Smith traces the synthesis of nineteenth century electricity made possible by the powerful combination of science literature and the popular imagination With electricity resisting clear description even by those such as Michael Faraday and James Clerk Maxwell who knew it best Pratt

Smith argues that electricity was both metaphorically suggestive and open to imaginative speculation Her book engages with Victorian scientific texts popular and specialist periodicals and the work of leading midcentury novelists including Charles Dickens Charlotte Bronte Emily Bronte William Makepeace Thackeray and Wilkie Collins Examining the work of William Harrison Ainsworth and Edward Bulwer Lytton Pratt Smith explores how Victorian novelists attributed magical qualities to electricity imbuing it with both the romance of the past and the thrill of the future She concludes with a case study of Benjamin Lumley's *Another World* which presents an enticing fantasy of electricity's potential based on contemporary developments Ultimately her book contends that writing and reading about electricity appropriated and expanded its imaginative scope transformed its factual origins and applications and contravened the bounds of literary genres and disciplinary constraints

The London Journal, 1845-83 Andrew King, 2017-07-05 This book is the first full length study of one of the most widely read publications of Victorian Britain the *London Journal* inserting the story of this magazine into the wider context of the Victorian mass market periodical It draws on traditional modes of scholarship in history art history and literature as well as on developments in sociology psychoanalysis and cultural theory However the author ultimately relies on new and extensive primary research to ground the changing ways in which the reading public became consumers of literary commodities on a scale never before seen Previous commentators have coded the mass market as somehow always feminine and King offers a genealogy of how such a gender identity came about Finally King recontextualizes within the Victorian mass market three key nineteenth century novels Walter Scott's *Ivanhoe* Mary Braddon's *Lady Audley's Secret* and *mile Zola's The Ladies Paradise* and in so doing suggests radically new and unexpected meanings

Teaching Literary Research Kathleen A. Johnson, Steven Robert Harris, 2009

Dickens, Journalism, and Nationhood Sabine Clemm, 2010-04-15 *Dickens Journalism and Nationhood* examines Charles Dickens weekly family magazine *Household Words* in order to develop a detailed picture of how the journal negotiated asserted and simultaneously deconstructed Englishness as a unified and sometimes unifying mode of expression It offers close readings of a wide range of materials that self consciously focus on the nature of England as well as the relationship between Britain and the European continent Ireland and the British colonies Starting with the representation and classification of identities that took place within the framework of the Great Exhibition of 1851 it suggests that the journal strives for a model of the world in concentric circles spiraling outward from the metropolitan center of London Despite this apparent orderliness however each of the national or regional categories constructed by the journal also resists and undermines such a clear cut representation

Serial Forms Clare Pettitt, 2020 *Studies seriality in nineteenth century literary and popular print culture focusing on literacy and the material history of reading in the period from 1815 to 1848*

Gilbert, 2011-06-20 This comprehensive collection offers a complete introduction to one of the most popular literary forms of the Victorian period its key authors and works its major themes and its lasting legacy Places key authors and novels in their cultural and historical

Nineteenth-Century Radical Traditions Joseph Bristow, Josephine McDonagh, 2016-09-08 This book takes a fresh look at the progressive interventions of writers in the nineteenth century From Cobbett to Dickens and George Eliot and including a host of lesser known figures popular novelists poets journalists political activists writers shared a commitment to exploring the potential of literature as a medium in which to imagine new and better worlds The essays in this volume ask how we should understand these interventions and what are their legacies in the twentieth and twenty first centuries Inspired by the work of the radical literary scholar the late Sally Ledger this volume provides a commentary on the political traditions that underpin the literature of this complex period and examines the interpretive methods that are needed to understand them This timely book contributes to our appreciation of the radical traditions that underpin our literary past Rebellion as

Genre in the Novels of Scott, Dickens and Stevenson Anna Faktorovich, 2013-03-13 When three of Britain's best loved and best selling authors each publish at least two novels with a historical rebellion theme there might be an interesting pattern worth examining This is a long overdue study of the previously overlooked rebellion novel genre with a close look at the works of Sir Walter Scott Waverly and Rob Roy Charles Dickens A Tale of Two Cities and Barnaby Rudge and Robert Louis Stevenson Kidnapped and The Young Chevalier The linguistic and structural formulas that these novels share are presented along with a comparative study of how these authors individualized the genre to adjust it to their needs Scott Dickens and Stevenson were led to the rebellion genre by direct radical interests They used the tools of political literary propaganda to assist the poor disenfranchised and peripheral people with whom they identified and hoped to see free from oppression and poverty *The British Publishing Industry in the Nineteenth Century* David Finkelstein, Andrew Nash, 2024-03-14 This

volume assembles documents that illustrate the changing structure of the British publishing industry in the nineteenth century It charts the increasing separation of the functions of printing publishing and retailing in the production and distribution of books and the emergence of new economic models of publishing For most of the period the book trade operated on a shortage of capital depending upon fragile networks of credit and debt which could lead as in the financial crisis of 1825-6 to the collapse of many businesses The volume documents how the structures of the industry impacted upon the pricing structure of books and periodicals and charts the slow emergence of a mass market for print Major points of contention such as the taxes on knowledge and the battle over legal deposit are traced along with recurring debates over discounting and underselling The volume focuses on key moments such as the controversy over free trade in the 1840s and 1850s and the debates over price protection which led to the formation of the Net Book Agreement in 1900 The Return of

the Native Thomas Hardy, 2021-02-25 This is the first complete scholarly edition of one of Hardy's greatest novels *The Return of the Native* engages ambitiously with contemporary ideas and problems of existence and would go on to become one of the major Wessex novels. When composed in 1878 however Hardy's Wessex did not yet exist and this edition which is based on meticulous analysis of Hardy's holograph manuscript and every significant print edition of the novel to appear in his lifetime situates *The Return of the Native* within the historical context of its first publication encouraging readers to trace its evolution over the following four decades. Tim Dolin provides a wealth of supporting materials including an original authoritative text, comprehensive annotation, commentary and glossary and illustrated appendices of both Arthur Hopkins's illustrations and the topography of Egdon Heath thus creating an invaluable tool for students and scholars of Hardy and nineteenth century literature alike.

Dickens, Reynolds, and Mayhew on Wellington Street Mary L. Shannon, 2016-03-09 A glance over the back pages of mid nineteenth century newspapers and periodicals published in London reveals that Wellington Street stands out among imprint addresses. Between 1843 and 1853 Household Words, Reynolds's Weekly Newspaper, the Examiner, Punch, the Athenaeum, the Spectator, the Morning Post and the serial edition of London Labour and the London Poor to name a few were all published from this short street off the Strand. Mary L. Shannon identifies for the first time the close proximity of the offices of Charles Dickens, G. W. M. Reynolds and Henry Mayhew examining the ramifications for the individual authors and for nineteenth century publishing. What are the implications of Charles Dickens his arch competitor the radical publisher G. W. M. Reynolds and Henry Mayhew being such close neighbours? Given that London was capital of more than Britain alone what connections does Wellington Street reveal between London print networks and the print culture and networks of the wider empire? How might the editors' experiences make us rethink the ways in which they and others addressed their anonymous readers as friends as if they were part of their immediate social network? As Shannon shows readers in the London of the 1840s and 50s despite advances in literacy, print technology and communications were not simply an imagined community of individuals who read in silent privacy but active members of an imagined network that punctured the anonymity of the teeming city and even the empire.

Stowe and George Thompson the volume takes up a wide range of sensational topics including sexuality slavery criminal punishment literary piracy mesmerism and the metaphors of foreign literary invasion and diseased reading Concluding essays offer a reassessment of the realist and domestic fiction of George Eliot Charlotte Yonge and Thomas Hardy in the context of transatlantic sensationalism emphasizing the evolution of the genre throughout the century and mapping a new transatlantic lineage for this immensely popular literary form The book's final essay examines an international kidnapping case that was a journalistic sensation at the turn of the twentieth century

The Literary North K. Cockin, 2012-06-07
