Looking Back Reaching Forward Reflections On The Truth And Reconciliation Commission Of South Africa:

Looking Back, Reaching Forward Charles Villa-Vincencio, Wilhelm Verwoerd, 2000-02-15 The Truth and Reconciliation Commission chaired by Archbishop Desmond Tutu is widely recognized as a defining experience in South Africa's transition to democratic and non racial rule This anthology uniquely combining contributions by some of the Commissioners and their staff those who bore witness and scholars reviews the context in which the TRC did its work

Looking Back, Reaching Forward Charles Villa-Vincencio, 2000-02-15 Born with an historic compromise that few predicted the TRC has evoked emotions ranging from anger and confusion to sympathy and remorse It has rarely generated indifference This collection of essays constitutes a tour de force capturing the essence of the TRC debate while posing a set of questions with which this country is likely to wrestle for some time to come Indeed it is intended to provoke debate rather than provide simply answers to complex questions This makes it a useful book for teaching purposes as well as for others interested in transitional politics A number of different voices are heard all seeking to provoke practical ways forward for a nation that in the early 1990 s was teetering on the brink of collapse The pertinent question posed by the book is Where does South Africa go in the post TRC period Equally important is the question Does the TRC model provide a viable alternative to prosecution for other countries in transition from oppressive rule to a society committed to human rights and the rule of law

Truth and Reconciliation in South Africa Lyn S. Graybill, 2002 Graybill mind and human interaction U of Virginia provides students not only the facts about the South African Truth and Reconciliation Commission but also the broader context in which it operated She asks whether it led to reconciliation and healing what criteria were used to decide whether to pardon or punish whether politics necessitated the compromise and other questions Annotation copyrighted by Book News Inc Portland OR

Transitional Justice in Troubled Societies Aleksandar Fatic, Klaus Bachmann, Igor Lyubashenko, 2018-11-26 This book discusses the crucial strategic topic for the practical implementation of transitional justice in post conflict societies by arguing that the dilemma is defined by the extent to which the actual achievement of the political goals of transition is a necessary condition for the long term observance and implementation of justice While in many cases the blind criminal justice does not enhance and even militates against the achievement of political transitions an understanding of transitional justice as a fundamentally political process is novel controversial and a concept which may shape the future of transitional justice This collection contributes to developing this concept both theoretically and through concrete and current case studies from the worlds most pronounced crisis spots for transitional justice

Pathways to Reconciliation Cleo Fleming, 2016-12-05 Reconciliation what makes it possible what impedes it how to foster and promote it and how to build the social conditions in which it can flourish These are pressing questions for an increasingly significant concept in community and international relations This book is a creative engagement with the central terms of reconciliation forgiveness nationhood conflict resolution justice and memory and with approaches to questions of listening and understanding the other It is premised on the view that an essential pathway to the

Transforming International Criminal Justice Mark Findlay, Ralph Henham, 2005-06-01 This book sets out an agenda to transform international criminal trials and the delivery of international criminal justice to victim communities through collaboration of currently competing paradigms It reflects a transformation of thinking about the comparative analysis of the trial process and seeks to advance the boundaries of international criminal justice through wider access and inclusivity in an environment of rights protection Collaborative justice is advanced as providing the future context of international criminal trials The book's radical dimension is its argument for the harmonization of restorative and retributive justice within the international criminal trial The focus is initially on the trial process a key symbol of developing international styles of justice It examines theoretical models and political applications of criminal justice through detailed empirical analysis in order to explore the underlying relationship of theory and empirical study applying the outcome in theory testing and policy evaluation in several different jurisdictions The book injects a significant comparative dimension into the study of international criminal justice This is achieved through searching the traditional foundations of internationalism in justice by employing an original methodology to enable a multi dimensional exploration of contexts local regional and global so recognising the importance of difference within an agenda suggesting synthesis The book argues for a concept of international trial within a rights paradigm understood against different procedural traditions and practices and provides a detailed description of trials and trial decision making in various jurisdictions Transforming International Criminal Justice also sets out to develop effective research strategies as part of its interrogation of specific trial narratives and meanings in contemporary legal cultures Key themes are those of internationalisation fair trial and the exercise of discretion in justice resolutions sentencing in particular and the lay professional relationship and its dynamics Finally the book provides a searching critique of the relevance of existing criminology and legal sociology in relation to international criminal justice and speculates on trial transformation and the merger of retributive and restorative international criminal justice comparative analysis of the criminal trial process internationally argues for harmonization of retributive and restorative justice within the international criminal trial sets out an

agenda to transform international criminal trials and the delivery of international criminal justice to victim communities

After Evil Robert Meister, 2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect

Carrots and Sticks Jeremy Sarkin, Jeremy Sarkin-Hughes, 2004 This book is about the South African amnesty process Many of the most well known cases are investigated The content of many of the amnesty decisions are investigated to see how the Amnesty Committee applied the amnesty law and whether the decisions were fair and consistent

Identity, Reconciliation and Transitional Justice Nevin Aiken, 2013-04-15 Building upon an interdisciplinary synthesis of recent literature from the fields of transitional justice and conflict transformation this book introduces a groundbreaking theoretical framework that highlights the critical importance of identity in the relationship between transitional justice and reconciliation in deeply divided societies Using this framework Aiken argues that transitional justice interventions will be successful in promoting reconciliation and sustainable peace to the extent that they can help to catalyze those crucial processes of social learning needed to transform the antagonistic relationships and identifications that divide post conflict societies even after the signing of formal peace agreements Combining original field research and an extensive series of expert interviews Aiken applies this social learning model in a comprehensive examination of both the South African Truth and Reconciliation Commission and the uniquely decentralized approach to transitional justice that has emerged in Northern Ireland By offering new insight into the experiences of these countries Aiken provides compelling firsthand evidence to suggest that transitional justice interventions can best contribute to post conflict reconciliation if they not only provide truth and justice for past human rights abuses but also help to promote contact dialogue and the amelioration of structural and material inequalities between former antagonists Identity Reconciliation and Transitional Justice makes a timely contribution to debates about how to best understand and address past human rights violations in post conflict societies and it offers a valuable resource to students scholars practitioners and policymakers dealing with these difficult issues
