Looking For Work Searching For Workers American Labor Markets During Industrialization:

Looking for Work, Searching for Workers Joshua L. Rosenbloom, 2002-03-25 The dynamic character of American industrialization produced imbalances between the supply of and demand for labor across cities and regions This book describes how employers and job seekers responded to these imbalances to create networks of labor market communication and assistance capable of mobilizing the massive redistribution of population that was essential to maintain the rapid pace of the nation's economic growth between the Civil War and World War I It combines a detailed description of the emerging labor market institutions with a careful analysis of a variety of quantitative evidence to assess the broader economic implications for geographic wage convergence and for American economic growth Despite an expansion in the geographic scope of labor markets at this time the evidence suggests that labor market institutions reinforced regional divisions within the United States and left a lasting impact on the evolution of many other aspects of the employment relationship *Studies of Labor Market Intermediation* David H. Autor, 2009-12-15 From the traditional craft hiring hall to the Web site Monster.com a multitude of institutions exist to facilitate the matching of workers with firms The diversity of such Labor Market Intermediaries LMIs encompasses criminal records providers public employment offices labor unions temporary help agencies and centralized medical residency matches *Studies of Labor Market Intermediation* analyzes how these third party actors intercede where workers and firms meet thereby aiding impeding and in some cases exploiting the matching process By building a conceptual foundation for analyzing the roles that these understudied economic actors serve in the labor market this volume develops both a qualitative and quantitative sense of their significance to market operation and worker welfare Cross national in scope *Studies of Labor Market Intermediation* is distinctive in coalescing research on a set of market institutions that are typically treated as isolated entities thus setting a research agenda for analyzing the changing shape of employment in an era of rapid globalization and technological change **The History of Labour Intermediation** Sigrid Wadauer, Thomas Buchner, Alexander Mejstrik, 2015-04-01 Searching for a job has been an everyday affair in both modern and past societies and employment a concern for both individuals and institutions The case studies in this volume investigate job search and placement practices in European countries Australia and India in the nineteenth and twentieth centuries The contributors explore how looking for work becomes a means by which participants individuals placement agents trade unions municipalities administrations state authorities and schools articulated specific interests perspectives and agendas Taking an exploratory approach the chapters illustrate different approaches to the history of employment and job searching ranging from organizational and regulatory histories to the analysis of practices and autobiographical accounts In the process they uncover the interrelations of search practices and attempts to arrange placement services *Rethinking U.S. Labor History* Donna T. Washington during Civil War and Reconstruction Robert Harrison, 2011-08-15 In this provocative study Robert Harrison provides new insight into grassroots reconstruction after the Civil War and into the lives of those most deeply affected the newly emancipated African Americans Harrison argues that the District of Columbia far from being marginal to the Reconstruction story was central to Republican efforts to reshape civil and political relations with the capital a testing ground for Congressional policy makers

The study describes the ways in which federal agencies such as the Army and the Freedmen s Bureau attempted to assist Washington s freed population and shows how officials struggled to address the social problems resulting from large scale African American migration It also sheds new light on the political processes that led to the abandonment of Reconstruction and the onset of black disfranchisement
