description The Endless Periphery Stephen J. Campbell, 2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power some of the era's most characteristic works are to be found in places other than Florence Rome and Venice They are the product of the diversity of regions and cultures that makes up the country In Endless Periphery Stephen J Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers patron saints and miracles demonstrating for example that the works of Titian spoke to beholders differently in Naples Brescia or Milan than in his native Venice More than a series of regional microhistories Endless Periphery tracks the geographic mobility of Italian Renaissance art and artists revealing a series of exchanges between artists and their patrons as well as the power dynamics that fueled these exchanges A counter history of one of the greatest epochs of art production this richly illustrated book will bring new insight to our understanding of classic works of Italian art **Central Italian Painting, 1400-1465** Martha Levine Dunkelman, 1986
