Louisianas Gothic Revival Architecture:

Louisiana's Gothic Revival Architecture Philippe Oszusick, 1973-01-01 Religious Architecture in Louisiana Robert Heck, Otis B. Wheeler, 1996-01-01 An enormous number of churches and other religious structures have been built in Louisiana over the past 250 years many of which still stand Today in New Orleans alone there are more than 850 churches representing more than seventy denominations The state's religious buildings encompass not only a wide range of faiths but also a striking diversity of architectural forms In Religious Architecture in Louisiana author Robert W Heck and photographer Otis B Wheeler provide the first photographic survey of this rich architectural heritage Their goal has been not to document every religious building in the state a nearly impossible task but to isolate prime examples of the historically and architecturally significant Robert W Heck presents a brief history of Louisiana's religious architecture He describes the dominating influence of Catholicism during the eighteenth century during which time the original Church of St Louis was built on the site of the present Cathedral of St Louis King of France in New Orleans He then discusses the burgeoning construction that accompanied the expansion of religious freedom following the Louisiana Purchase in 1803 as Protestants and Jews erected their own places of worship The author also considers the various architectural influences that have marked Louisiana's religious buildings from the Colonial style of the eighteenth century to the Classical Revival and Gothic Revival styles that predominated during the middle part of the nineteenth century to the Eclectic style that gained currency after the Civil War and persisted until about 1930 The great part of the book is devoted to 162 religious buildings located throughout the state In addition to presenting photographs of the structures each place of worship is identified by name address date of construction when known and architectural style For each building the author also provides comments on design construction materials and structural and decorative details To enhance the usefulness of the book a glossary of architectural terms and an appendix that lists those religious buildings in the state included in the National Register of Historic Places is included as well as another appendix that lists known early religious structures that are no longer standing Religious Architecture in Louisiana will prove a valuable resource for architects religious congregations historic preservationists and religious and architectural historians Louisiana Architecture Jonathan Fricker, Donna Fricker, Patricia L. Duncan, 1998 Introduction to architectural styles that have shaped Louisiana's landscapes **Louisiana Buildings, 1720-1940** Jessie Poesch, Barbara SoRelle Bacot, 1997-08-01 The only New Deal program to continue into the 1990s the Historic American Buildings Survey has through the years drawn attention to the historical and artistic significance of buildings that contemporary taste might otherwise have ignored Louisiana Buildings 1720-1940 makes easily available the fruit of HABS's important and enduring efforts to record Louisiana's architectural heritage In the 1930s the Louisiana HABS team concentrated on public edifices and grand plantation complexes threatened by destruction Later records of HABS include still other habitations of the common man as well as industrial structures The project has yielded

not only graphic and written documentation of the buildings many no longer standing but also new insights into the history of the state s architecture An invaluable part of Louisiana Buildings 1720 1940 is the alphabetical listing of HABS structures in Louisiana both by familiar name and by parish The listing by parish gives the location the date of construction the architect when known and the current status of each building It also presents drawings or photographs of many of the structures over 300 pictures in all There are besides nine chapters by leading architectural historians who cover all aspects of Louisiana architecture its Creole beginnings in the south of the state the Appalachian folk style in the north and developments on the plantation in the seventeenth century urban setting and in the modern era Those chapters form an essential frame of reference for the data in the HABS listings and call attention to many other structures that are a part of the history of building in the Pelican State Anyone interested in the state s architecture or history will find Louisiana Buildings

Checa-Artasu,2025-06-02 Neo Gothic

architecture is a global phenomenon observed in Mexico from the 1850s to the mid 20th century even with current examples In Mexico there are more than 500 buildings with some neo Gothic element new parishes and churches large temples examples of exterior decorations beautiful sacred furniture and art inside the temples funerary elements at cemeteries graves mausoleums tombs and civil buildings mansions houses schools hospitals porticoes so on This architecture in Mexico spread in two ways through architecture teaching academies but also thanks to the diffusion of bishops and priests who showed images and engravings for master builders stonemasons and other local artisans to copy Finally they built these buildings many times with the support of the parishioners Also the economic and political elites built mansions and houses in that style to show their wealth and financial and political power Something they also did in their tombs and pantheons since there are many built in that style A book on the characteristics agents and causes of the development of the neo Gothic style in Mexico is pioneering and the first of its kind It is a type of architecture extraordinarily little studied in Mexico A study of these characteristics would be of interest to a sector of the academy interested in the topics of history of architecture art

studies on religion and culture in general This book covers a huge gap in knowledge about an architectural style widely spread worldwide and that is widely unknown in Mexico and Latin America and that today is already a cultural heritage to be protected disseminated and valued
