Choosing the cruise is simply choosing to love, live, and laugh because even when the high winds come, we know that the God of the universe is right there in our boat. He stills the storms then and now. So all aboard, we dare not miss the cruise. From infertility to adoption, special needs to the terrible twos and beyond, this book will make you laugh and make you cry. From the turbo toilet to baggage claim, this Lucy and Ethel duo will have you chuckling, snorting, and cackling; may also occur. When you are done laughing and crying, we hope

you will agree with the barefoot authors that Our Faith Floats **Teaching Advanced Learners in the General Education Classroom** Joan Franklin Smutny, S.E. von Fremd, 2011-08-24 Provides practical tools for differentiating instruction for advanced learners with existing resources in specific content areas that benefit all students Playing Favorites Mara Sapon-Shevin, 1994-01-01 Playing Favorites examines the ways in which gifted education disrupts the classroom community deskills regular classroom teachers limits their ability and willingness to meet individual needs and impairs the creation of a climate of inclusion and acceptance of difference Sapon Shevin shows here that current models of gifted education are elitist and meritocratic treating some children not just differently than others but better and that in large urban districts gifted education programs are often racist as well By creating and funding gifted programs the author contends schools engage in a form of educational triage serving those children for whom inadequate programming and educational failure would not be acceptable while maintaining the status quo for the majority of the school population This book provides support for teachers parents and administrators who have found themselves caught in the struggle of insuring an appropriate education for some children without sacrificing the good of all Incorporating the words of teachers parents and students as well as related research and theory this book analyzes the relationship between diversity community and social justice Sapon Shevin challenges the reader to reconsider ways in which schools can meet individual educational needs while preserving communities of learners as well as the commitment to the education of all children Finally the book extends the challenge and assurance that we need not choose between quality education for some and mediocre education for all
