an accelerated schedule for completing the material in one semester Are there any prerequisites for this course This curriculum is aimed at grades 6 8 fitting into most math approaches the year or two years prior to starting high school algebra If following traditional grade levels Book 1 should be completed in grade 6 or 7 and Book 2 in grade 7 or 8 In Book 1 students should have a basic knowledge of arithmetic basic arithmetic will be reviewed but at a fast pace and while teaching problem solving skills and a biblical worldview of math and sufficient mental development to think through the concepts and examples given Typically anyone in sixth grade or higher should be prepared to begin The focus of the course is actually learning math for life not simply preparing to pass a test

**The Work of Mathematics Teacher Educators** Kathleen Lynch-Davis, Robin L. Rider, 2015-10-01 Originally published in 2004 A major focus of teacher education is the development of preservice teachers However it should not be the only focus of those who work in teacher education Educating inservice teachers is equally important and the conversation among those involved in mathematics teacher education needs to include discussion of this group as well This conversation also highlights a need for professional development for teacher educators and research on the development of teacher educators This monograph discusses issues in educating all of these groups of individuals in an effort to continue the conversation among those involved in mathematics teacher education
