The Anglo Files: A Field Guide to the English (Second Edition) Sarah Lyall, 2020-02-25 New York Times Bestseller An exquisite hilarious and devastating dissection Malcolm Gladwell Why do the English keep apologizing Why are they so unenthusiastic about enthusiasm Why does rain surprise them When are they being ironic and how can you tell Even after eighteen years in London New York Times reporter Sarah Lyall remained perplexed and intrigued by its curious inhabitants and their curious customs She s since returned to the United States but this distillation of incisive and irreverent insights now updated with a new preface is just as illuminating today And perhaps even more so in the wake of Brexit and the attendant national identity crisis While there may be no easy answer to the question of how exactly to understand the English The Anglo Files part anthropological field study part memoir helps point the way

Dubeck,Yasmin Sitabkhan,Christopher Cummiskey,Devanshi Unadkat,2023-05-15 This paper contains a new analysis of gender differences in early grade reading and mathematics outcomes in 19 USAID funded studies over the past decade from 14 locations in Africa Asia Latin America and the Middle East The paper addresses gaps in the literature related to learning patterns for girls and boys in lower and middle income countries and in early primary school We analyzed the results from reading and mathematics assessments in grades 2 and 3 including differences in oral reading fluency ORF and quantitative comparison scores between boys and girls as well as differences in score distributions by gender In line with results from assessments in upper grades and in wealthier countries we found that girls consistently outperformed boys in reading In mathematics boys slightly outperformed girls although the differences were typically not large Global experience has shown that patterns in poor performance become more entrenched the further learners progress through the grades suggesting that early interventions for boys in reading and girls in mathematics could have long term benefits At the same time both girls and boys typically score below expectations in the two subjects across countries necessitating targeted strategies to improve outcomes for both genders early in their educational trajectories **Substance Misuse Prevention Program Attendance** Marni L. Kan,Hsiu Chen Yeh, Lisa M. Schainker,Jessica Nelson,Samantha Charm,Cleve Redmond,Richard Spoth,2022-12-19 Typical life circumstances for military families may impact their participation in prevention programs yet little is known about what factors influence their participation The current study examined predictors of attendance in the Strengthening Families Program For Parents and Youth 10 14 for Military Families a universal in person program designed to improve family functioning and reduce youth substance misuse and other problem behaviors Participants included 159 parent child dyads randomly selected to be offered the 7 week family program Analyses examined demographic characteristics deployment experiences time spent waiting for the program to begin and psychosocial functioning as predictors of attendance in a series of regression models Of the 39 percent of families that attended any program sessions the majority 71 percent attended at least four of the seven sessions Attendance varied significantly across the geographic areas in which groups were held Prior service utilization youth conduct problem behavior parental history of deployment and family conflict were each positively associated with attendance whereas parent tobacco use was negatively associated with attendance These results highlight the challenges in recruiting military families into in person prevention programs and suggest that extra efforts may be needed to engage families that do not perceive that they have a need for support Savant Nik Abnett,2016-10-04 HIS MIND COULD SAVE THE WORLD IF SHE CAN SAVE HIM FROM THE HUMAN RACE The Shield is Earth s only defence Rendering the planet invisible from space it keeps humanity safe and hidden The exceptional minds of the Actives maintain the Shield without them it cannot function When an Active called Tobe

finds himself caught up in a probability loop the Shield is compromised Soon Tobe s malady spreads among the Actives and Earth becomes vulnerable for the first time in a generation Tobe s assistant Metoo is only interested in his wellbeing Earth security s paramount concern is the preservation of the Shield As Metoo strives to prevent Tobe s masters from undermining his fragile equilibrium humanity is left dangerously exposed
