Matjapat Songs in Central and West Java Margaret J. Kartomi, 1973 *Matjapat Songs in the Cultural Areas of Central and West Java* Margaret J. Kartomi, 1968 *Missionaries, Anthropologists, and Music in the Indonesian Archipelago* Anna Maria Busse Berger, Henry Spiller, 2025-03-18 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Although the history of Indonesian music has received much attention from ethnomusicologists and Western composers alike almost nothing has been written on the interaction of missionaries with local culture This study represents the first attempt to concentrate on the musical dimension of missionary activities in Indonesia In fourteen essays a group of distinguished scholars show the complexity of the topic while some missionaries did important scholarship on local music making recordings and attempting to use local music in services others tried to suppress whatever they found Many were collaborating closely with anthropologists who admitted freely that they could not have done their work without them And both parties brought colonial biases into their work By grappling with these realities and records this book is a collective effort to decolonize the project of making music histories

Music in Java J. Kunst,2012-12-06 One day in the summer of 1921 a postal delivery brought me a little packet of reprints from the periodical Djawa articles about Indonesian music by Dr JAAP KUNST which until that moment had not come to my notice A cursory glance was enough to convince me that the author was a very gifted man who had made a sound and absolutely scientific study of the subject and thereby made a valuable contribution by means of careful observation and actual tone measurements to the facts known from the older studies by GRONEMAN LAND and ELLIS These measure ments were particularly satisfying to me personally since they constituted an astonishing confirmation of a

hypothesis concerning the genesis of tone systems through the cycle of blown fifths which I had propounded two years previously without however having published it At the same time it was proved through the perfect conformity existing between the measured and the theoretical absolute pitches vibration frequencies that Indonesian gamelan tuning too belongs to the radius of ancient Chinese culture much the same as is the case with Pan pipes and xylo phones all over the world The first contact between Dr KUNST and myself led to a regular correspondence which especially contributed to a further development of the above mentioned theory of tone systems
