Matters Of Moment Materials For Language Practice:

The Matter of Practice Curt Porter, Rachel Griffo, 2021-05-01 *The Matter of Practice* presents work by teacher scholars from around the world who are rethinking the relationship between matter and meaning. By emphasizing spatial, bodily, and sensual dimensions of language and literacy practices, this volume offers a portrait of language pedagogy and research that challenges traditional barriers between subjects and objects, speech and noise, and languages and things. We envision the term new materialisms as an invitation to locate theorizing, researching, and teaching practices within the rhythms and textures of our material, sensory, and perceptual lives. These chapters enact a hope that increased engagement with our physical surroundings and sensory experiences can extend the sphere of our social, creative, and intellectual labor and expand our understanding of what counts as meaningful action. *The English Teacher's Handbook* T. C. Baruah, 1991-06-01

Material Matters Katie Lloyd Thomas, 2006-12-05 Bringing together texts and work by theorists and practitioners who are making material central to their work, this book reflects the diverse areas of inquiry which are expanding current material discourse. Focusing on the cultural, political, economic, technological, and intellectual forces which shape material practices in architecture, the contributors draw on disciplines ranging from philosophy, history, and pedagogy to art practice and digital and low-tech fabrication. By paying critical attention to material, a wide range of issues emerge which are otherwise excluded from architectural discourse: issues that shape and determine the buildings we make, the processes we use, and the ways we understand them. Beautifully illustrated and designed, this book is a unique collection which will be of great interest to architectural practitioners and theorists who want to consider the wider implications of material practice, and to students who are developing their own approach to making buildings. *Language Matters in Higher Education Contexts*, 2021-11-22 This book highlights that language matters permeate all areas of higher education and that language matters for everyone involved in academic institutions: in policy, in teaching and learning, in administration, in research, and in leadership. The chapters in this volume address national, institutional, and local levels and range from legal texts to students and teachers' stories across disciplines. It provides a useful picture for all those who work in the various fields of higher education. Contributors are Britt Marie Apelgren, Tove Bull, Josep Maria Cots, Ann Marie Eriksson, Sylva Frisk, Lidia Gallego, Peter Garrett, Linnea Hanell, Luke Holmes, Niina Hynninen, Kathrin Kaufhold, Maria Kuteeva, Ragnhild Ljosland, Heidi Rontu, Taina Saarinen, Linus Sal, and Susanne Strömberg. *Issues in Materials Development* Maryam Azarnoosh, Mitra Zeraatpishe, Akram Faravani, Hamid Reza Kargozari, 2016-03-22 *Issues in Materials Development* provides readers with theoretical foundations and practical aspects of designing materials for EFL/ESL contexts. It starts with discussing some basic and preliminary principles of materials design, followed by scrutinizing critical issues in materials development in an objective and systematic way. This ranges from considering learners' needs, adopting, selecting, and gradating of materials to the specific focus of the book on developing various types of materials for the four language skills: pronunciation,
