Ashley Crawford

Matthew Barney Drawing Restraint Vol1 1987:

Matthew Barney: Drawing Restraint Vol. 1 Matthew Barney, 2005 Drawing Restraint has been Barney's project since 1987. The works were inspired by the idea that resistance makes muscles larger and stronger due to hypertrophy. This work includes an interview with Matthew Barney.

The Body in Theory Becky R. McLaughlin, Eric Daffron, 2021-08-25 The body has always had the potential to unsettle us with its strange exigencies and suppurations its demands and desires and thus throughout the ages it has continued to be a subject of interest and obsession. This collection of twelve peer-reviewed essays on Jacques Lacan and Michel Foucault interrogates the body in all of its beauty and with all of its blights and blemishes. Written by a diverse body of scholars, art historians, cultural theorists, English professors, philosophers, psychoanalysts, and sociologists from North America and Europe, these essays bring into conversation two intellectual giants frequently seen as antagonists and thus rarely seen together. Topics covered include the intersections of Foucault and Lacan and how they bring to light new thoughts on the senses, the self-destructive body, ableism and disability in Guillermo del Toro's film *The Shape of Water*, body image and the ego selfie culture and metamorphosis in Ottessa Moshfegh's novel *My Year of Rest and Relaxation* among others.

Ephemeral Monuments Marina Pugliese, 2013 This is an indispensable volume for creators, curators, and conservators of installation art. Installation art is an evolving, often ephemeral medium that defies rigid categorization. It has also radically transformed the concepts of space, time, and the experience of art. The conservation field is faced with unique challenges over how best to manage and preserve the essence of these works. How detailed can documentation get? When does the replacement of original components become acceptable? How does the field cope with the obsolescence of certain technologies? By exploring the questions and dilemmas facing those who care for art installations, this book intends to raise awareness and promote discussion about the various conservation approaches for these works.

Body, Space, and Place in Collective and Collaborative Drawing Helen Gørrill, Jill Journeaux, Sara Reed, 2020-01-15 Building on the success of the first volume in this series of research on collective and collaborative drawing, this book's key themes are linked through the concepts of body, space, and place. The location of the body in art has always been central, but the exploration of it here in relation to place and space uncovers a wide range of exciting and different contexts, relationships, and materials. Space is examined through the practice and theorisation of drawing through the ongoing artistic practices of the authors and the writings of Berger and Derrida in relation to making, viewing, and understanding the drawing process. Place is examined through unique approaches to considering drawing through multiple consecutive and site-specific places through place as a changing and temporal site and through the idea of the non-place. The contributors in this volume include academics, artists, dancers, researchers, designers, and architects from across the globe.
