Wan Wan, Graham Low

Metaphor In Educational Discourse:

Metaphor in Educational Discourse Lynne Cameron, 2003-03-13 Metaphor in Educational Discourse is a superb piece of applied linguistics research that integrates Vygotsky's theory of concepts with current work on metaphor into a coherent framework for investigating how teachers and learners negotiate figurative language in order to promote development in the classroom setting. In what is likely to become the standard for future studies in this area, Lynne Cameron meticulously demonstrates the central role of linguistic metaphors in classroom learning designed to lead learners to a deeper understanding of complex mathematical and scientific concepts. James P. Lantolf, Professor of Applied Linguistics, The Pennsylvania State University. This book reports research into metaphor in use with school students. The setting for the research is a UK school and the participants are around ten years old with their first language well established but still developing concepts and understandings. Close examination of a corpus of classroom spoken discourse reveals how metaphor is employed by their teachers not just in explaining ideas but in managing and mediating the activity of the classroom and the learning of the students. Particular issues discussed include the problems of identifying metaphors in spoken discourse, the conventionalism of metaphors in the discourse of socio-cultural groups, and how a socio-cultural approach can account for systematicity in metaphor use.

Elicited Metaphor Analysis in Educational Discourse Wan Wan, Graham Low, 2015-07-02 The ability to recognise, discuss and evaluate one's educational beliefs and working practices in metaphoric terms has for several years been seen as a highly valuable tool for increasing self-awareness, facilitating learning or teaching, and/or predicting behaviour. This is the first edited book solely devoted to the topic of researching elicited metaphor in education and brings together key researchers from China, Poland, Puerto Rico, South America, UK, and USA. The 12 chapters involve overviews and state-of-the-art articles focussing on methodology and validation, as well as reflections on the effectiveness of techniques and research reports of recent empirical studies. The bulk of the articles relate to literacy, L1 and L2, and teacher education, but science education is also addressed. The book offers useful models for academics, professionals, and PhD students in these areas and provides solutions for improving the validity of elicited metaphor techniques in educational research.

Metaphors of Education William Taylor, 1984 **Rhetoric and Educational Discourse** Richard Edwards, Katherine Nicoll, Nicky Solomon, Robin Usher, 2013-02-01 Educational policy is often dismissed as simply rhetoric and a collection of half-truths. However, this is to underestimate the power of rhetoric and the ways in which rhetorical strategies are integral to persuasive acts. Through a series of illustrative chapters, this book argues that rather than something to be dismissed, rhetorical analysis offers a rich and deep arena in which to explore and examine educational issues and practices. It adopts an original stance in relation to contemporary debates and will make a significant contribution to educational debates in elucidating and illustrating the pervasiveness of persuasive strategies in educational practices. Rhetoric and Educational Discourse is a useful resource for postgraduate and research students in education and applied

linguistics The book will also be of interest to academics and researchers in these fields of study and those interested in discursive approaches to research and scholarship *Narrative and Metaphor in Education* Michael Hanne,Anna A. Kaal,2018-12-07 Human beings rely equally on narrative or storytelling and metaphor or analogy for making sense of the world Narrative and Metaphor in Education integrates the two perspectives of narrative and metaphor in educational theory and practice at every level from pre school to lifelong civic education Bringing together outstanding educational researchers the book interweaves for the first time the rich strand of current research about how narrative may be used productively in education with more fragmentary research on the role of metaphor in education and invites readers to look both ways The book consists of research by 40 academics from many countries and disciplines describing and analysing the intricate connections between narrative and metaphor as they manifest themselves in many fields of education including concepts of education teacher identity and reflective practice teaching across cultures teaching science and history using digital and visual media in teaching fostering reconciliation in a postcolonial context special needs education civic and social education and educational policy making It is unique in combining study of the narrative perspective and the metaphor perspective and in exploring such a comprehensive range of topics in education Narrative and Metaphor in Education will be of great interest to academics and researchers in the fields of education and educational policy as well as teacher educators practising and future teachers It will also appeal to psychologists sociologists applied linguists and communications specialists

Metaphor in Specialist Discourse J. Berenike Herrmann,Tony Berber Sardinha,2015-12-15 Metaphor in Specialist Discourse presents multiple perspectives on metaphor use in specialist and popularized discourse contexts Using genre and register as starting parameters for deeper exploration and pushing the boundaries further to open up new areas and possibilities ten independent articles investigate metaphor use across a range of specialist domains of discourse such as biology research articles psychological counseling soccer commentaries workfloor communication and penal policy documents Framed by two theoretical chapters the book is a contribution to the study of metaphor use in distinct discourse settings that will be of value to linguists and metaphor scholars of different persuasions graduate students of linguistics and related disciplines and practitioners of specialized areas with an interest in verbal or gestural language use in their areas of expertise It shows that aspects of discourse variation are the beginning of not an afterthought to accurate empirical metaphor studies **Metaphor in Communication, Science and Education** Francesca Ervas,Elisabetta Gola,Maria Grazia Rossi,2017-08-07 This collection of papers presents some recent trends in metaphor studies that propose new directions of research on the embodied cognition perspective The overall volume in particular shows how the embodied cognition still remains a relevant approach in a multidisciplinary research on the communicative side of metaphors by focusing on both comprehension processes in science as well as learning processes in education **Confronting Metaphor in Use** Mara Sophia Zanotto,Lynne Cameron,Marilda do Couto Cavalcanti,2008 It is timely for researchers to approach

metaphor as social and situated as a matter of language and discourse and not just as a matter of thought Over the last twenty five years scholars have come to appreciate in depth the cognitive motivated and embodied nature of metaphor but have tended to background the linguistic form of metaphor and have largely ignored how this connects to its role in the discourses in which our lives are constructed and lived This book brings language and social dimensions into the picture offering snapshots of metaphor use in real language and in real lives across the very different cultures of Europe and Brazil and contributing to the theorizing of metaphor in discourse Metaphor Analysis in the Educational Discourse Hong-bo Zheng, Wen-juan Song, 2010 Metaphor analysis is based on the belief that metaphor is a powerful linguistic device because it extends and encapsulates knowledge about the familiarity and unfamiliarity Metaphor analysis has been adopted in the educational discourse The paper categorizes the previous relevant research into 3 interactions between learners and institutions teachers perceptions of teaching and learners beliefs of learning And a critical review of 3 kinds of studies and suggestions for further research are ensued **The Routledge Handbook of Metaphor and Language** Elena Semino, Zsófia Demjén, 2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state of the art interdisciplinary research on metaphor and language and maps out future directions of research and practice in a variety of contexts in this field
