T. Hobhouse,1951 **The Metaphysical Theory of the State** L. T. Hobhouse,2015-07-06 Excerpt from The Metaphysical Theory of the State A Criticism Presently three white specks could be seen dimly through the light haze overhead and we watched their course from the field The raid was soon over The three specks drifted away towards the east the gunfire died down the whining faded away and below the hill the great city picked up its dead The familiar sounds resumed their sway the small birds chirruped from the shrubs and the distant murmur of the traffic told of a world going steadily on its accustomed course As I went back to my Hegel my first mood was one of self satire Was this a time for theorizing or destroying theories when the world was tumbling about our ears My second thoughts ran otherwise To each man the tools and weapons that he can best use In the bombing of London I had just witnessed the visible and tangible outcome of a false and wicked doctrine the foundations of which lay as I believe in the book before me To combat this doctrine effectively is to take such part in the fight as the physical disabilities of middle age allow Hegel himself carried the proof sheets of his first work to the printer through streets crowded with fugitives from the field of Jena With that work began the most penetrating and subtle of all the intellectual influences which have sapped the rational humanitarianism of the eighteenth and nineteenth centuries and in the Hegelian theory of the god state all that I had witnessed lay implicit You may meet his Gothas in mid air and may the full power of a just cause be with you I must be content with more pedestrian methods But to make the world a safe place for democracy the weapons of the spirit are as necessary as those of the flesh About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The metaphysical theory of the state Leonard Trelawney Hobhouse,1960 The Metaphysical Theory of the State L. T. Hobhouse,2017-08-14 This is a series of lectures that critiques the idealization of the state by British Hegelians like Bosanquet Since Hegel and his followers are in the crossfire the focus is very much on the relation of the particular to the universal as embodied in citizen state A considerable effort is exerted in fleshing out how the individual will converges with the group will Its an interesting read but is a lot of smoke Themes are raised consistently without pointing out a possible resolution Well written but not all that penetrating A good source for studying ideas of British Hegelianism *The Metaphysical Theory of the State, a Criticism* L T (Leonard Trelawney) Hobhouse,2021-09-09 This work

The Idea of the State Peter J. Steinberger, 2005-02-10 For a half century or more political theory has been characterized by a pronounced distrust of metaphysical or ontological speculation Such a disposition has been sharply at odds with influential currents in post war philosophy both analytic and continental where metaphysical issues have become a central preoccupation The Idea of the State seeks to reaffirm the importance of systematic philosophical inquiry into the foundations of political life and to show how such an approach can cast a new and highly instructive light on a variety of controversial seemingly intractable problems of tolerance civil disobedience democracy and consent The author considers the problem of the state in light of recent developments in philosophy and social thought and seeks to provide an account of what the state really is In doing so he pursues a range of fundamental issues pertaining to the office the authority and the internal organization of political society
