Metaphysics Of Death:

The Metaphysics of Death John Martin Fischer, 1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality

The Oxford Handbook of Philosophy of Death Ben Bradley, Fred Feldman, Jens Johansson, 2012-12-03 Death has long been a preoccupation of philosophers and this is especially so today The Oxford Handbook of Philosophy of Death collects 21 newly commissioned essays that cover current philosophical thinking of death related topics across the entire range of the discipline These include metaphysical topics such as the nature of death the possibility of an afterlife the nature of persons and how our thinking about time affects what we think about death as well as axiological topics such as whether death is bad for its victim what makes it bad to die what attitude it is fitting to take towards death the possibility of posthumous harm and the desirability of immortality The contributors also explore the views of ancient philosophers such as Aristotle Plato and Epicurus on topics related to the philosophy of death and questions in normative ethics such as what makes killing wrong when it is wrong and whether it is wrong to kill fetuses non human animals combatants in war and convicted murderers With chapters written by a wide range of experts in metaphysics ethics and conceptual analysis and designed to give the reader a comprehensive view of recent developments in the philosophical study of death this Handbook will appeal to a broad audience in philosophy particularly in ethics and metaphysics

Philosophy and Death Robert J. Stainton, Samantha Brennan, 2009-09-02 Philosophical reflection on death dates back to ancient times but death remains a most profound and puzzling topic Samantha Brennan and Robert Stainton have assembled a compelling selection of core readings from the philosophical literature on death The views of ancient writers such as Plato Epicurus and Lucretius are set alongside the

work of contemporary figures such as Thomas Nagel John Perry and Judith Jarvis Thomson Brennan and Stainton divide the anthology into three parts Part I considers questions about the nature of death and our knowledge of it What does it mean to be dead Is it possible to survive death Is the end of life a mystery Part II asks how we should view death What if anything is so bad about dying If death is nothingness should it be feared or regretted Part III examines ethical questions related to killing particularly abortion euthanasia and suicide Is killing ever permissible Under what conditions or circumstances

Annihilation Christopher Belshaw, 2014-12-05 The ever present possibility of death forces upon us the question of life's meaning and for this reason death has been a central concern of philosophers throughout history From Socrates to Heidegger philosophers have grappled with the nature and significance of death In *Annihilation* Christopher Belshaw explores two central questions at the heart of philosophy's engagement with death what is death and is it bad that we die Belshaw begins by distinguishing between literal and metaphorical uses of the term and offers a unified and biological account of death denying that death brings about non-existence How our death relates to the death of the brain is explored in detail Belshaw considers the common sense view that death is often bad for us by examining the circumstances that might make it bad as well as the grounds for thinking that one death can be worse than another In addition Belshaw explores whether we can be harmed after we die and before we were born The final chapters explore whether we should prevent more deaths and whether via cryonics brain transplants data storage we might cheat death Throughout Belshaw shows how questions of personhood and life's value are bound up with our views on the sense and significance of death *Annihilation*'s in-depth analysis and insightful exposition will be welcomed not only by philosophers working on the metaphysics of death but also by students and scholars alike looking for a foundation for discussions of the ethics of abortion euthanasia life support and suicide

The Death of Metaphysics; The Death of Culture Mark J. Cherry, 2006-08-05 The Latin root of the English word culture ties together both worship and the tilling of the soil In each case the focus is the same a rightly directed culture produces either a bountiful harvest or falls short of the mark materially or spiritually This volume critically explores the nature and depth of our contemporary cultural crisis its lack of traditional orientation and moral understanding Prime among the issues at stake are the meaning and significance of birth copulation suffering and death expressed in debates regarding human embryo experimentation and stem cell research the character of moral and scientific norms as well as more fundamentally the character of an adequate epistemology for coming to appreciate the deep nature of reality and its normative implications Given varying background ontological epistemological and axiological presuppositions different moral positions and political objections will appear as not merely morally permissible but as socially and politically obligatory

The Metaphysics and Ethics of Death James Stacey Taylor, 2013-11 *The Metaphysics and Ethics of Death* brings together original essays that both address the fundamental questions of the metaphysics of death and explore the relationship between those questions and some of the areas of applied ethics in which they play a central role *The Death*

of Metaphysics; The Death of Culture Mark J. Cherry, 2010-11-19 The Latin root of the English word culture ties together both worship and the tilling of the soil In both interpretations the outcome is the same a rightly directed culture produces either a bountiful harvest or falls short of the mark materially or spiritually This volume offers a critical examination of the nature and depth of our contemporary cultural crisis focused on its lack of traditional orientation and moral understanding

Death and Philosophy J.E Malpas, Robert C. Solomon, 2002-06-01 Death and Philosophy considers these questions with different perspectives varying from the existentialist deriving from Camus Heidegger or Sartre to the English speaking analytic tradition of Bernard Williams or Thomas Nagel to non western approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretious Epicurus and Nietzsche Death and Philosophy will be of great interest to philosophers or those studying religion and theology but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal Exploring the Philosophy of Death and Dying Michael Cholbi, Travis Timmerman, 2020-12 Exploring the Philosophy of Death and Dying Classical and Contemporary Perspectives is the first book to offer students the full breadth of philosophical issues that are raised by the end of life Included are many of the essential voices that have contributed to the philosophy of death and dying throughout history and in contemporary research The 38 chapters in its nine sections contain both classic texts by authors such as Epicurus Hume Nietzsche and Schopenhauer and new short argumentative essays by world leading contemporary experts **Death, Time and the Other** Saitya Brata Das, 2020-01-27 This book addresses the limits of metaphysics and the question of the possibility of ethics in this context It is divided into six chapters the first of which broadens readers understanding of difference as difference with specific reference to the works of Hegel The second chapter discusses the works of Emmanuel Levinas and the question of the ethical In turn the concepts of sovereignty and the eternal return are discussed in chapters three and four while chapter five poses the question of literature in a new way The book concludes with chapter six The book represents an important contribution to the field of contemporary philosophical debates on the possibility of ethics beyond all possible metaphysical and political closures As such it will be of interest to scholars and researchers in both the humanities and social sciences Beyond the academic world the book will also appeal to readers journalists intellectuals social activists etc for whom the question of the ethical is the decisive question of our time
