Metaromanticism Aesthetics Literature Theory:

Metaromanticism Paul Hamilton, 2003-07-15 This bracing study redefines romanticism in terms of its philosophical habits of self consciousness According to Paul Hamilton metaromanticism or the ways in which writers of the romantic period generalized their own practices was fundamentally characteristic of the romantic project itself Through a close look at the aesthetics of Friedrich Schiller and Jean Jacques Rousseau and key works by Samuel Taylor Coleridge Percy and Mary Shelley John Keats Sir Walter Scott Jane Austen and many others Hamilton shows how the romantic movement's struggle with its own tenets was not an effort to seek an alternative way of thought but instead a way of becoming what it already was And yet as he reveals the romanticists were still not content with their own self consciousness Pushed to the limit such contemplation either manifested itself as self disgust or found aesthetic ideas regenerated in discourses outside of aesthetics altogether

Walter Scott and Contemporary Theory Evan Gottlieb, 2013-02-14 A bestselling author in his own time and long after Sir Walter Scott was not only a writer of thrilling tales of romance and adventure but also an insightful historical thinker and literary craftsman Over the last two decades scholars have come to see him as an important figure in Romantic period literature Scottish literature and the development of the historical novel Walter Scott and Contemporary Theory builds on this renewed appreciation of Scott's importance by viewing his most significant novels from Waverley and Rob Roy to Ivanhoe Redgauntlet and beyond through the lens of contemporary critical theory By juxtaposing pairings of Scott's early and later novels with major contemporary theoretical concepts and the work of such thinkers as Alain Badiou Judith Butler Jacques Derrida and Slavoj Žižek this book uses theory to illuminate the complexities of Scott's fictions while simultaneously using Scott's fictions to explain and explore the state of contemporary theory [The Oxford Handbook of British](#)

[Romanticism](#) David Duff, 2018-09-26 The Oxford Handbook of British Romanticism offers a comprehensive guide to the literature and thought of the Romantic period and an overview of the latest research on this topic Written by a team of international experts the Handbook analyses all aspects of the Romantic movement pinpointing its different historical phases and analysing the intellectual and political currents which shaped them It gives particular attention to devolutionary trends exploring the English Scottish Welsh and Irish strands in British Romanticism and assessing the impact of the constitutional changes that brought into being the United Kingdom at a time of revolutionary turbulence and international conflict It also gives extensive coverage to the publishing and reception history of Romantic writing highlighting the role of readers reviewers publishers and institutions in shaping Romantic literary culture and transmitting its ideas and values Divided into ten sections each containing four or five chapters the Handbook covers key themes and concepts in Romantic studies as well as less chartered topics such as freedom of speech literature and drugs Romantic oratory and literary uses of dialect All the major male and female Romantic authors are included along with numerous lesser known writers the emphasis throughout being on the diversity of Romantic writing and the complexities and internal divisions of the culture that sustained it The

volume strikes a balance between familiarity and novelty to provide an accessible guide to current thinking and a conceptual reorganization of this fast moving field

Romanticism and the Uses of Genre David Duff, 2009-11-12 This wide ranging book explores the generic innovations that drive the Romantic revolution in literature but also the fascination with archaic forms such as the ballad sonnet epic and romance whose revival and transformation make Romanticism a retro as well as a revolutionary movement

Exorbitant Enlightenment Alexander Regier, 2018-12-06 *Exorbitant Enlightenment* compels us to see eighteenth and early nineteenth century literature and culture in new ways This book reveals a constellation of groundbreaking pre 1790s Anglo German relations many of which are so radical so exorbitant that they ask us to fundamentally rethink the ways we grasp literary and intellectual history especially when it comes to Enlightenment and Romanticism Regier presents two of the great untold stories of the eighteenth century The first story uncovers a forgotten Anglo German network of thought and writing in Britain between 1700 and 1790 From this Anglo German context emerges the second story about a group of idiosyncratic figures and institutions including the Moravians in 1750s London Henry Fuseli and Johann Caspar Lavater as well as the two most exorbitant figures William Blake and Johann Georg Hamann The books eight chapters show how these authors and institutions shake up common understandings of British literary and European intellectual history and offer a very different much more counter intuitive view of the period Through their distinctive conceptions of language Blake and Hamann articulate in different yet deeply related ways a radical critique of instrumental thought and institutional religion They also argue for the irreducible relation between language and the sexual body In each case they push against some of the most central cultural and philosophical assumptions then and now The book argues that when taken seriously these exorbitant figures allow us to uncover and revise some of our own critical orthodoxies

Unquiet Things Colin Jager, 2015 In Great Britain during the Romantic period governmental and social structures were becoming more secular as religion was privatized and depoliticized If the discretionary nature of religious practice permitted spiritual freedom and social differentiation however secular arrangements produced new anxieties *Unquiet Things* investigates the social and political disorders that arise within modern secular cultures and their expression in works by Jane Austen Horace Walpole Samuel Taylor Coleridge Lord Byron and Percy Shelley among others Emphasizing secularism rather than religion as its primary analytic category *Unquiet Things* demonstrates that literary writing possesses a distinctive ability to register the discontent that characterizes the mood of secular modernity Colin Jager places Romantic era writers within the context of a longer series of transformations begun in the Reformation and identifies three ways in which romanticism and secularism interact the melancholic mood brought on by movements of reform the minoritizing capacity of literature to measure the disturbances produced by new arrangements of state power and a prospective romantic thinking Jager calls after the secular The poems novels and letters of the romantic period reveal uneasy traces of the spiritual past haunted by elements that trouble secular politics at the same time they imagine new and more equitable possibilities for the future In the

twenty first century Jager contends we are still living within the terms of the romantic response to secularism when literature and philosophy first took account of the consequences of modernity **Nineteenth Century Prose** ,2009 The Languages of Performance in British Romanticism Lilla Maria Crisafulli,Cecilia Pietropoli,2008 This volume presents a selection of essays by established Italian and international scholars in the field of Romantic drama It is divided into four main sections 1 Dramatic Theory and Practice 2 On the Romantic Stage History Arts and Acting 3 Interaction of Genres from Fiction to Drama 4 The Romantics Debate on Theatre and Drama a Selected Anthology The crucial area of debate these essays address is the way in which the problem of the dramatic representation of the self becomes in Romantic drama the very centre of reflection on the constitution of the modern subject Each essay explores one or more aspects of the formation of modern subjectivity through dramatic representation of the self and through critical enquiry into the modes of that representation The first and the fourth sections discuss the complex interaction between the theoretical questions that animated the debate around the Romantic theatre and the multifarious and often unruly performance practices of the time The other two sections deal with the many and diverse ways in which Romantic drama engaged with and incorporated other artistic genres such as painting performing arts music and the novel *New Approaches to William Godwin* Eliza O'Brien,Helen Stark,Beatrice Turner,2021-03-29 This collection showcases work on William Godwin 1756 1836 foregrounding new critical approaches and uncovering new texts Godwin is a familiar presence in scholarship on the Shelley Godwin circle and on Dissenting intellectual circles but the present collection considers him closely as an author and thinker on his own terms The range of texts and topics covered by this collection will be of interest both to scholars familiar with Godwin and those approaching his work for the first time **The Majesty of the People** Georgina Green,2014-02-13 The Majesty of the People links emerging Romantic ideas about the role of the writer to the ambivalence of the concept of popular sovereignty By closely examining how theories about the role of the intellectual or the writer are developed as part of the 1790s contestation of the concept of the majesty of the people Georgina Green provides a coherent account of debates about popular sovereignty and contributes to understanding of authorship and the rise of culture in this period Part one the political existence of the people shows how the history of ideas about the political role of the people in the eighteenth century meant there was a role for writers and organisations who could challenge the invisibility of the people out of doors Part two the sovereignty of justice shows how this urge to give the people a tangible form was moderated by the tension between the sovereignty of will and the sovereignty of justice a tension foregrounded by Revolutionary France and addressed in the writing of Thomas Paine Helen Maria Williams and William Godwin Part three analyses how this potential tension between popular sovereignty and absolute values such as reason justice or divinity pressurizes Wordsworth and Coleridge s conception of their role as writers These enquiries demonstrate the impact of the idea of the Majesty of the People in the 1790s and in emerging conceptions of the role of culture in society
